CRITERION 4. FACULTY AND SUPPORT STAFF

There is a sufficient number of Civil Engineering faculty in the program, and they have the competencies to cover all the curricular areas of the program. There are also enough faculty members to accommodate student-faculty interaction, student advising and counseling, university service activities, and interactions with industrial and professional practitioners. The faculty of the program has the appropriate qualifications and sufficient authority, under the direction of the Program Chairperson, to ensure the proper guidance of the program and to develop and implement processes for the evaluation, assessment, and continuing improvement of the program, its educational objectives and outcomes.

A. Faculty Qualifications

Describe the qualifications of the faculty and how they are adequate to cover all the curricular areas of the program. Include the composition, size, credentials, and faculty experience. Complete ACGS-02 Table 4.1. For each major course in the curriculum, show that there are at least two faculty members who are capable of teaching the subject. Include faculty resumés in the Appendix.

The program has sufficient qualified faculty members to serve the current student population, as shown in Table 4.2. For the School Year 2025-2026, the BSCE Program is supported by 16 full-time faculty and 23 part-time faculty for a total of 39 faculty members handling professional courses.

Full-time faculty members hold plantilla positions approved by the Board of Regents and attested by the Civil Service Commission. They may either be permanent or temporary. A permanent faculty member enjoys all the privileges of a full-time faculty member without having to renew their employment, whereas a temporary faculty member must apply for renewal annually during their appointment period for a maximum of five years, or until they are recommended for the change of status for permanency. Both permanent and temporary faculty members may be designated for administrative work. As a designee, the faculty member enjoys a reduced teaching load to compensate for their administrative functions. Full-time faculty members, on the other hand, are required to take 15 units of regular teaching hours per week plus research, extension, and advising time for a total of 40 hours. If teaching loads are available, regular and temporary faculty may be assigned an extra teaching load on top of their regular load, subject to the results of their online faculty evaluation ([Attachment C4-01 – Faculty Manual](#)).

Part-time faculty members are not assigned a plantilla item, thus they are not accorded to the privileges of an employer-employee relationship. They may be

assigned three (3) to twelve (12) units of teaching load depending on the availability of teaching load.

Faculty by Tenure

Under the BSCE program, there are 39 faculty members in total, of which 16 or 41.03% are full-time and 23 or 58.97% are part-time for the SY 2025-2026. The data indicate that part-time faculty comprise the larger proportion of the faculty complement. Meanwhile, the full-time faculty serve as the foundation in maintaining stability and continuous delivery of the program.

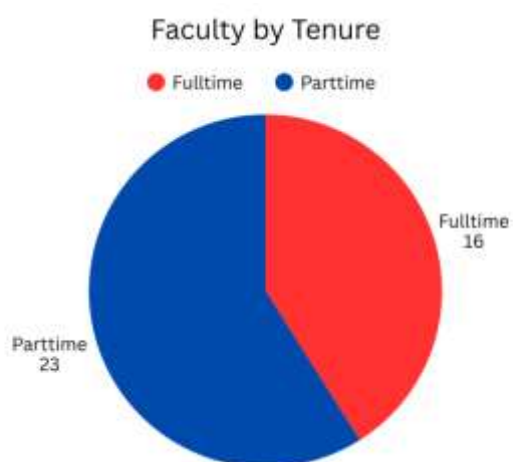

Figure 4.1 Faculty by Tenure

Faculty by Gender

The faculty profile of the BSCE program shows a total of 39 faculty members, of whom 32 or 82.05% are male and 7 or 17.95% are female. In terms of employment status, the full-time faculty include 13 males and 3 females, while the part-time faculty include 19 males and 4 females.

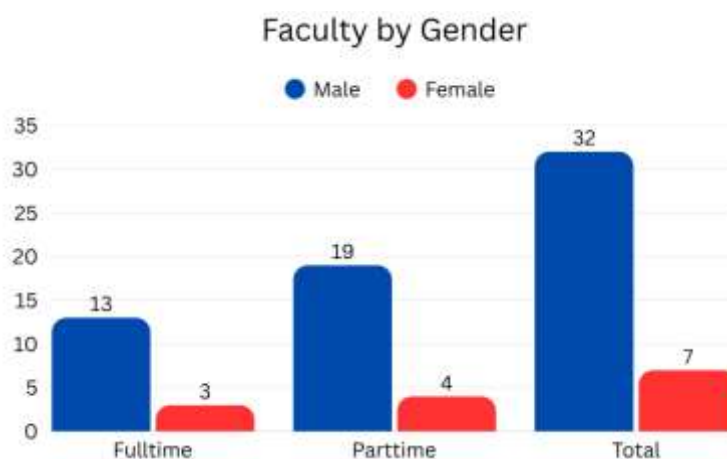

Figure 4.2 Faculty by Gender

Faculty by Rank

The faculty profile shows a total of 39 faculty members, composed of 16 full-time and 23 part-time personnel, indicating that part-time appointments make up a larger share of the workforce. In terms of rank distribution, the Assistant Professor category has the highest combined count with 15 faculty members, followed closely by the Associate Professor rank with 13, while the Instructor ranks account for seven (7) faculty members. The remaining positions are distributed across Professor I (2), University Professor (1), and Visiting Special Lecturer (1).

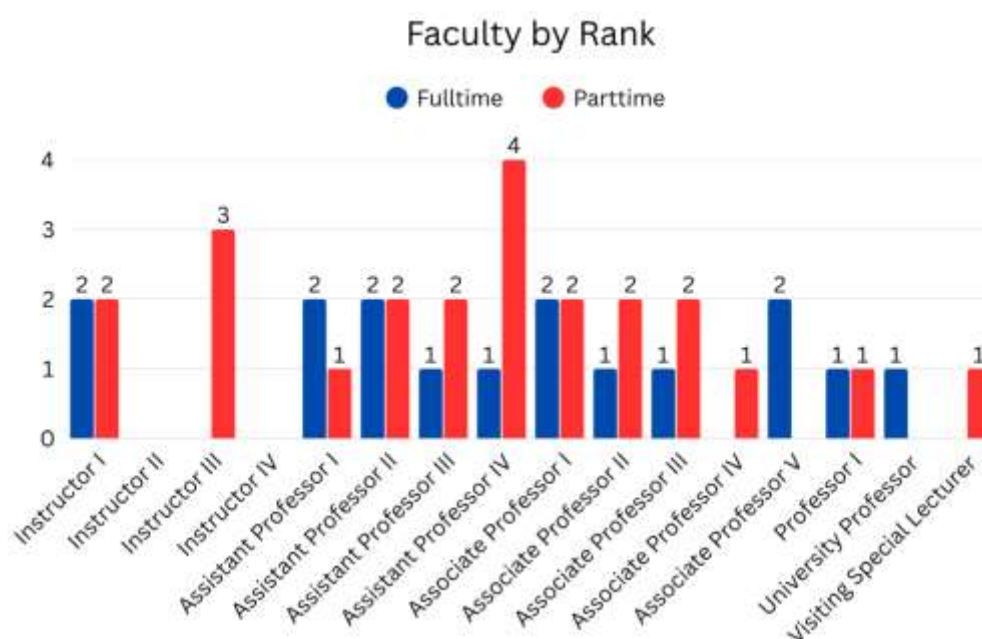

Figure 4.3 Faculty by Rank

In terms of ranking, the Joint Circular No. 3, series of 2022 of the Department of Budget and Management and Commission on Higher Education, or the Guidelines on the Reclassification of Faculty Positions in State Universities and Colleges (SUCs) provides the guidelines for the award of the different ranks and sub ranks of faculty members with the corresponding salary grades. Table 4.1 shows the academic ranks and corresponding salary grades ([Attachment C4-02. Joint Circular No. 3, series of 2022](#)).

Table 4.1 Academic Rank and Salary Grade

Rank	Sub-rank	Salary Grade
Instructor	Instructor I	12
	Instructor II	13
	Instructor III	14
Assistant Professor	Assistant Professor I	15
	Assistant Professor II	16
	Assistant Professor III	17
	Assistant Professor IV	18
Associate Professor	Associate Professor I	19
	Associate Professor II	20
	Associate Professor III	21
	Associate Professor IV	22
	Associate Professor V	23
Professor	Professor I	24
	Professor II	25
	Professor III	26
	Professor IV	27
	Professor V	28
	Professor VI	29
College/University Professor		30

Faculty by Educational Attainment

There are 16 full-time faculty members, 14 or 87.50% have aligned master's degrees and 2 full-time faculty members, or 12.50% are pursuing aligned master's degrees.

Of the 16 full-time faculty members, 2 or 12.50% have on-going aligned master's degree, 7 or 43.75% have aligned master's degrees, 2 or 12.50% hold doctoral degrees and 5 or 31.25% are pursuing doctoral degrees.

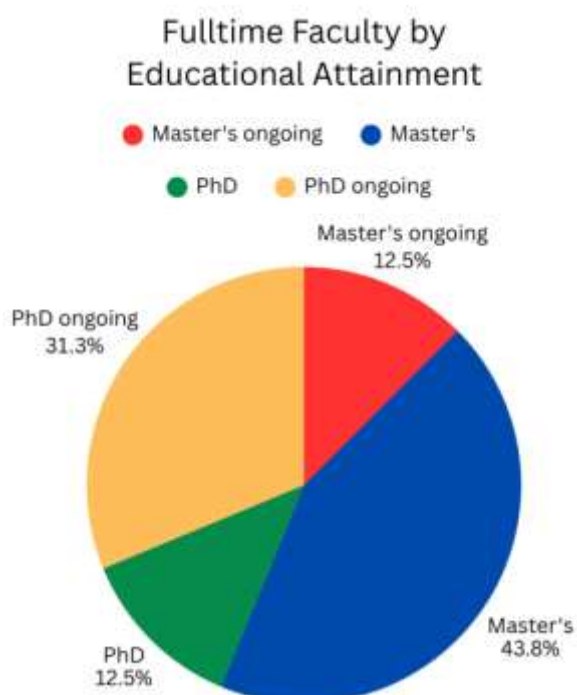

Figure 4.4 Faculty by Educational Attainment

Of the 14 full-time Faculty members who have earned their aligned master's degree, 6 or 42.86% specialize in Construction Management, 3 or 21.43% are Transportation Engineering, 2 or 14.29% are Structural Engineering, 2 or 14.29% are Geotechnical Engineering and 1 or 7.14% is Water Resources Engineering.

Figure 4.5 Full-Time Faculty by Master's Specialization

Faculty by Specialization

The Civil Engineering Department of PUP in SY 2025–2026 is supported by a total of 39 faculty members, consisting of 16 full-time and 23 part-time instructors distributed across the major fields of specialization within the program. This faculty composition demonstrates the department's commitment to providing competent academic support for the delivery of specialized civil engineering courses. Structural Engineering has the highest number of faculty at 14, followed by Transportation Engineering with 8, and Construction and Project Management with 7. Both Geotechnical Engineering and Water Resources Engineering have 5 faculty members each. The presence of faculty with varied expertise across these specializations strengthens the department's capacity to address the different technical areas of the curriculum and to provide students with relevant instruction in both theoretical and applied aspects of civil engineering.

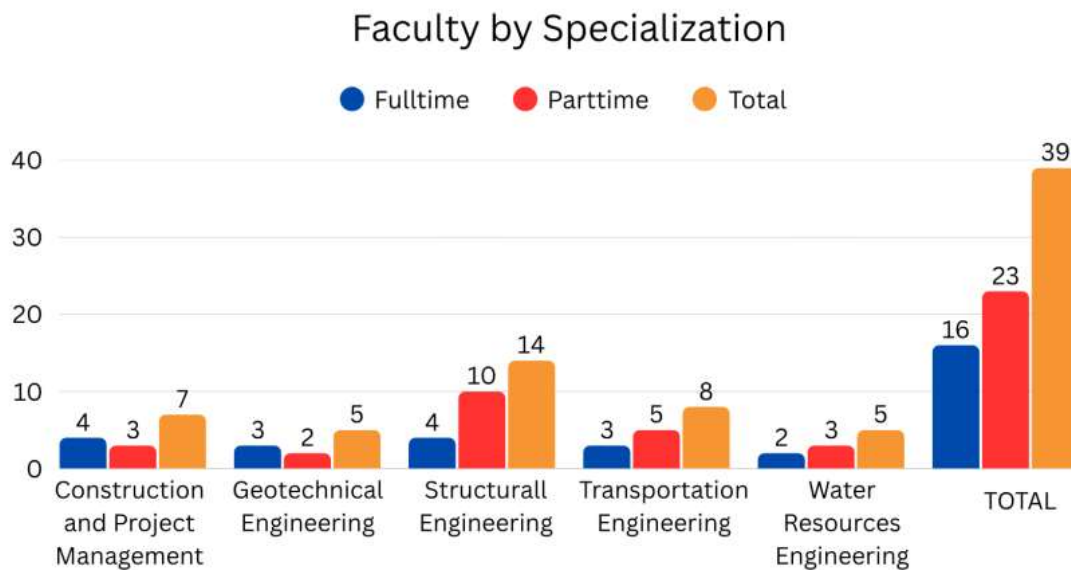

Figure 4.6 Faculty by Specialization

Regular Faculty Members

Engr. Edna P. Arrojado is an Associate Professor in the Civil Engineering Department of the Polytechnic University of the Philippines and has served the University from 1995 to 1996 and continuously since 2001. She currently serves as Head of Extension Services and Community Outreach for Civil Engineering. She earned a Master of Science in Engineering, major in Structural Engineering, from PUP and a Master of Science in Civil Engineering, major in Structural Engineering, from the University of the Philippines. She is pursuing a Doctor in Engineering Management at PUP. Her teaching responsibilities cover structural engineering, construction management, and other undergraduate and graduate civil engineering courses. She is also a structural consultant, project manager, and construction manager with extensive experience in structural analysis, design review, project planning, cost control, quality assurance, construction safety, and code compliance. Through instruction, research supervision, extension service, and professional practice, she supports student competency development and continuous program improvement.

Engr. Nhel Adrian B. Bartoline is an Assistant Professor IV in the Civil Engineering Department of the Polytechnic University of the Philippines. He earned his Master of Science in Construction Management and Bachelor of Science in Civil Engineering from PUP. He began teaching at the University as a part-time instructor in 2013, became Assistant Professor III in 2022, and was appointed Assistant Professor IV in April 2024. His teaching experience includes Theory of Structures, Geotechnical Engineering, Soil Mechanics, Hydraulics, Fluid Mechanics, and other advanced civil engineering subjects. He also supervises theses,

capstone projects, and research activities emphasizing safe, sustainable, and ethical engineering practices. Before and alongside his academic work, he gained extensive industry experience as a project manager, project-in-charge, and quality-control engineer for plumbing, sanitary, mechanical, fire-protection, and civil works. His academic and industry experience contributes to the practical and outcomes-based delivery of the Civil Engineering Program.

Engr. Joseph Raniel A. Bianes is an Associate Professor III at the College of Engineering of the Polytechnic University of the Philippines. He earned a Master of Science in Construction Management from the PUP Open University System and is pursuing a Doctor of Philosophy in Civil Engineering at De La Salle University, where he has completed 27 units. He is a DOST–Science Education Institute scholar, a PUP Local Faculty Fellow, a member of the CHED-NCR Regional Quality Assurance Team for Engineering and Technology, and an accreditor of the Accrediting Agency of Chartered Colleges and Universities in the Philippines. His previous University assignments include Civil Engineering Laboratory Head, Safety Officer, course specialist, ETEEAP assessor and program coordinator, and member of several quality-assurance, research-ethics, accreditation, and academic committees. His research covers construction management, safety management, environmental assessment, stormwater runoff, soil erosion, and disaster resiliency. His academic leadership, research productivity, and quality-assurance experience contribute to instruction, accreditation, and continuous program improvement.

Engr. Prospero C. Cabornay is a faculty member of the Civil Engineering Department of the Polytechnic University of the Philippines, where he has served since June 2020. He earned a Master of Science in Civil Engineering, major in Geotechnical Engineering, from the Technological University of the Philippines and is pursuing a Doctor in Engineering Management at the PUP Open University System, although his studies are currently on leave. His teaching areas include Geotechnical Engineering, Surveying, Cost Estimation, Planning, and related engineering sciences. He also serves as a geotechnical consultant for Sun Properties Development Corporation, providing site-investigation services and technical recommendations for land-development projects, slope protection, and related geotechnical concerns. His previous industry appointments include Engineering Head for a railway design consultancy, Quantity Survey Manager, Technical Planning and Design Head, senior site engineer, and geotechnical consultant. His combined academic and industry experience supports the delivery of practice-oriented instruction in geotechnical engineering, project planning, surveying, and construction management.

Engr. Ramir M. Cruz has served the Polytechnic University of the Philippines since February 2010 and, as stated in his curriculum vitae, holds concurrent leadership roles as Faculty

Regent, Dean of the Institute of Technology, and Chairperson of the Railway Engineering Department. He earned a Master of Science in Construction Management from the PUP Open University System and is pursuing a Doctor of Philosophy in Civil Engineering, major in Geotechnical Engineering, at De La Salle University. His responsibilities encompass academic leadership, curriculum and instructional supervision, program accreditation, faculty evaluation and development, research, extension services, student advising, and institutional governance. He has also served as a resource speaker, researcher, and paper presenter in engineering and technology forums. His research interests include geotechnical engineering, sustainable construction, water-resource adaptation, image-processing applications, and infrastructure maintenance. His academic, administrative, and research experience supports curriculum development, quality assurance, and the continuous improvement of engineering and technology programs.

Engr. Razon C. Domingo is an Assistant Professor IV at the Polytechnic University of the Philippines, where he has served since 2020. He earned a Master of Science in Civil Engineering, specializing in Transportation Engineering, from the University of the Philippines Diliman and is pursuing a Doctor of Philosophy in Civil Engineering in the same specialization. He also holds bachelor's degrees in Civil Engineering and Environmental and Sanitary Engineering. His teaching and academic responsibilities include lecture and laboratory instruction, course-material development, student assessment and mentoring, research, committee work, curriculum development, and community engagement. He has extensive professional experience as a soils and materials engineer, road-pavement engineer, program director, and faculty member in several higher education institutions. His research and publications cover pavement management, road-maintenance prioritization, concrete testing, construction materials, and transportation engineering. He also holds certifications in construction occupational safety and health, concrete testing, materials engineering, Autodesk applications, and engineering software.

Engr. Lady Lyn Escarises is a civil engineering educator and water-resources practitioner with experience in instruction, irrigation planning, drainage engineering, and infrastructure-project evaluation. She earned a Bachelor of Science in Civil Engineering from FEU Institute of Technology and has completed 27 units toward a Master of Science in Civil Engineering, major in Water Resources Engineering, at Mapúa University. She served as Lecturer IV at FEU Institute of Technology from January 2021 to April 2026 and as a part-time faculty member at Our Lady of Fatima University from August 2023 to April 2026. She also served as Engineer A and Senior Engineer A in the Project Planning Division of the National Irrigation Administration, where she prepared and reviewed plans, feasibility studies, technical reports, cost estimates, and project documents for irrigation and water-resource projects. Her research

includes rain gardens, sustainable drainage systems, low-impact development, and stormwater management. She received a Best Research Paper award in 2022.

Engr. Lorenzo Galicia is a full-time instructor at the Polytechnic University of the Philippines and the University of Santo Tomas and has served both institutions since 2022. He earned a Master of Science in Construction Management from PUP, with research focusing on the factors affecting risk-management plans for selected residential construction projects. He has worked as a Senior Project Engineer at 6X6 Builders Corporation since 2014. His professional responsibilities include project planning, budgeting, resource allocation, risk assessment, technical coordination, construction oversight, and compliance with building and safety standards. As an instructor, he develops lectures and learning activities, assesses student performance, and applies innovative teaching approaches in graduate and undergraduate instruction. He has also served as a resource speaker on project management and has participated in research concerning slope stability, sustainable land management, construction materials, earth-dam design, and industry expectations of civil engineering graduates. His experience strengthens the connection between construction-management theory and professional practice.

Engr. Aldrin G. Lumbang is a structural engineering practitioner with experience in structural design support, quantity estimation, project costing, and technical documentation. He earned a Bachelor of Science in Civil Engineering from the Polytechnic University of the Philippines and is pursuing a Master of Science in Civil Engineering, major in Structural Engineering, at the University of the Philippines Diliman. Since May 2021, he has worked as a structural engineer and estimator in assignments involving J.F. Cancio & Associates and the Focus Shopfit account of Sourcefit. His responsibilities include preparing quantity estimates and project costs, coordinating project requirements and specifications, evaluating construction materials, and preparing engineering reports and project documents. His earlier training included internships with RBRA & Associates Structural Engineers and Consultants and the Department of Public Works and Highways–National Capital Region. He has also participated in conferences and technical training on structural engineering, engineering software, construction, and professional development.

Dr. Manuel M. Muhi is the University President of the Polytechnic University of the Philippines and has held the position since March 2020. He earned a Doctor of Technology with a specialization in Pavement Engineering from the Technological University of the Philippines, a Master of Construction Management from the PUP Open University System, and a Master of Engineering specializing in Transport and Road Engineering from the Technical University of Delft–International Institute for Infrastructural, Hydraulics and Environmental Engineering in

the Netherlands. His previous leadership positions at PUP include Vice President for Academic Affairs, Executive Vice President, Vice President for Research, Extension, Planning and Development, Dean of the College of Engineering, Chairperson and Coordinator of the Master in Construction Management Program, and Head of the Civil Engineering Department. His academic and administrative work encompasses curriculum development, outcomes-based education, accreditation, research and extension, faculty development, laboratory modernization, institutional planning, and transportation and pavement engineering.

Dr. Florante D. Poso Jr. is an Associate Professor in the Civil Engineering Department of the Polytechnic University of the Philippines and has served as the Department's Research and Extension Coordinator since July 2025. He earned a Doctor of Philosophy in Educational Management and a Master in Civil Engineering from the University of Eastern Philippines. His graduate research addressed civil-engineering competency and curriculum development and the water-resource characterization of the Pambujan River. Before joining PUP, he served as Director for Quality Assurance and Program Director of Civil Engineering at FEU Institute of Technology. He also has extensive international experience as a civil engineer, quantity surveyor, planning and contracts engineer, design engineer, QA/QC specialist, technical writer, and academic faculty member in major infrastructure and power-plant projects in Morocco, Oman, Qatar, Ethiopia, and the Philippines. His teaching and research areas include water resources, hydrology, construction materials, quality assurance, sustainable infrastructure, and engineering research.

Engr. Noli B. Sibayan is a long-serving civil engineering educator and academic administrator with more than four decades of experience in higher education. He earned a Master of Science in Construction Management from the Polytechnic University of the Philippines, a Master of Business Administration from Central Colleges of the Philippines, and a Bachelor of Science in Civil Engineering from Far Eastern University. He has served PUP since 1995 in part-time, temporary regular, and permanent faculty capacities, attaining the rank of Associate Professor V as reflected in his curriculum vitae. His previous University assignments include Laboratory Head of the Civil Engineering Department from 2009 to 2013 and Department Chairperson from 2013 to 2016. He also served as Vice Dean, Civil Engineering Chairperson, Dean of Discipline, Resident School Civil Engineer, and Physical Plant and Facilities Area Chairperson at Central Colleges of the Philippines. His experience covers instruction, curriculum management, laboratory administration, construction safety, facilities development, student advising, accreditation, and civil engineering board review.

Engr. Ruffa Samonteza Roxas is a faculty member of the Civil Engineering Department of the Polytechnic University of the Philippines, where she has served since November 2018 and

currently holds the rank of Assistant Lecturer II. She also serves as Head of the Civil Engineering Laboratory, overseeing laboratory operations, maintenance, academic instruction, research support, and the implementation of laboratory policies and procedures. She earned her Master of Science in Civil Engineering from the University of the Philippines–Diliman in June 2018 and is currently pursuing a Doctor in Engineering Management at the Polytechnic University of the Philippines. Her academic and professional specialization is in geotechnical engineering, including soil and foundation analysis, slope stabilization, ground improvement, field testing, and geotechnical design. Before and alongside her academic career, she worked as a geotechnical engineer and consultant for First Balfour, Inc. and Great J Construction and Engineering Services, and as Technical Services Manager and Geotechnical Engineer for Peter Ground Improvement Inc./EM2A Partners & Co. Her research interests include shallow foundations, slope stability, sustainable earth-dam design, hydrology, and sustainable construction materials. Her combined experience in teaching, research, laboratory management, and industry consulting supports the delivery of practice-oriented instruction in geotechnical engineering and related civil engineering courses.

Engr. Melvin G. Singayan is an Assistant Professor III and permanent faculty member of the Civil Engineering Department of the Polytechnic University of the Philippines. He has served the University since June 2009, initially as a part-time instructor, and became a permanent faculty member in 2022. He earned a Master of Science in Civil Engineering, specializing in Structural Engineering, from the University of the Philippines Diliman and a Bachelor of Science in Civil Engineering from PUP. His academic responsibilities include specialized instruction, curriculum-material development, innovative teaching, student research supervision, instructional-material preparation, research, extension service, and student-performance evaluation. He has also served as a structural consultant at J.F. Cancio & Associates since May 2022, leading engineers and providing design and technical guidance for bridge and viaduct infrastructure. His industry experience includes structural analysis, computer-aided modeling, design calculations, technical reporting, structural estimates, and the review of drawings, specifications, and engineering studies.

Engr. Kenneth Bryan M. Tana is an Associate Professor V and the Chairperson of the Civil Engineering Department of the Polytechnic University of the Philippines. He also serves as Chairperson of the Department of Civil and Railway Engineering Technology, Program Chair of the graduate programs in Civil Engineering and Railway Systems Engineering Management, and Chief of the Inspection Management Office. He earned his Master of Science in Construction Management and Bachelor of Science in Civil Engineering, major in Structural Engineering, from PUP and is pursuing a Doctor in Engineering Management at the same University. His academic responsibilities include instruction, research and thesis

supervision, curriculum development, faculty mentoring, accreditation, Outcomes-Based Education implementation, quality assurance, and program assessment. He previously served as Civil Engineering Laboratory Head and Chief of the Curriculum Planning and Outcomes-Based Development Section. His leadership supports effective instructional delivery, faculty development, laboratory management, infrastructure quality, and the continuous improvement of the Civil Engineering Program.

Engr. Armando N. Victoria Jr. is an Instructor I at the Polytechnic University of the Philippines and the Chief of the Startup Development Section of the University's Technology Business Incubation and Development Office. He was appointed Instructor I in September 2024 and assumed his startup-development leadership role in March 2025. He earned a Master of Science in Civil Engineering, major in Transportation Engineering, and a Bachelor of Science in Civil Engineering from PUP. Before joining the faculty, he served as Engineer I in the University's Physical Planning and Development Office and as Civil Engineer II for Highway Design at TCGI Engineers. His professional experience includes highway and railroad design, traffic management, construction management, quantity surveying, cost estimation, and the use of AutoCAD, Civil 3D, and Microsoft Project. His publications address traffic congestion, road-traffic accidents, and the International Roughness Index. His combined teaching, research, infrastructure-planning, highway-design, and technology-incubation experience supports innovation and applied transportation-engineering education.

Part Time Faculty Members

Maria Razelle A. Aduana is a geology graduate and legal professional with experience in legal research, environmental, social, and governance analysis, geospatial assessment, technical writing, and academic administration. She earned her Bachelor of Science in Geology from the National Institute of Geological Sciences of the University of the Philippines Diliman and is pursuing a Juris Doctor degree at the Polytechnic University of the Philippines College of Law. She currently serves as a Legal Assistant at AVCD Law & Associates, where she provides administrative support, edits and proofreads legal documents, organizes records, drafts memoranda, and conducts legal research. She previously served as Legal Assistant II in the Office of the Dean of the PUP College of Law and as an ESG Junior Analyst at Institutional Shareholder Services. During her undergraduate studies, she worked at the UP Volcano-Tectonic Laboratory, contributing to geospatial analyses for urban planning and environmental-impact assessments. Her training includes ArcGIS, QGIS, disaster preparedness, earthquake-resiliency mapping, and geospatial analysis for disaster prevention.

Engr. Bon Ryan P. Aniban is a full-time Assistant Professor I in the Civil Engineering Department of the Far Eastern University Institute of Technology. He earned a Master of Science in Civil Engineering, specializing in Structural Engineering, from Mapúa University and a Bachelor of Science in Civil Engineering from Pamantasan ng Lungsod ng Valenzuela. His teaching responsibilities include Steel Design, Reinforced Concrete Design, Statics, Mechanics of Deformable Bodies, Geotechnical Engineering, and civil engineering review courses. He also serves as a cluster head for general engineering subjects, monitors correlation courses, advises and evaluates research, and develops instructional materials, examinations, manuals, and other departmental knowledge products. His previous academic appointments include teaching positions at FEU Institute of Technology, the Technological University of the Philippines, and Pamantasan ng Lungsod ng Valenzuela. He also gained industry experience as a Graduate Land Development Engineer at Arcadis, where he worked on grading, drainage, stormwater management, road alignment, utility relocation, and infrastructure design. His professional development includes structural, seismic, safety, analytics, data science, accreditation, and outcomes-based education training.

Engr. Jonathan V. Aquino is a faculty member of the Civil Engineering Department of the Polytechnic University of the Philippines, where he has taught Reinforced Concrete Design and Steel Design since June 2009. He earned a Master of Science in Structural Engineering from the Pamantasan ng Lungsod ng Maynila and obtained both his Bachelor of Science in Civil Engineering and Diploma in Construction Technology from PUP. He also serves as a Project Manager at Katahira & Engineers Asia, Inc., providing engineering support during construction and construction-management supervision for major expressway projects. His extensive industry experience includes assignments as a resident engineer, senior bridge engineer, structural engineer, bridge-design engineer, and engineer-in-charge of structures. He has participated in the planning, detailed design, value engineering, seismic analysis, and construction supervision of major projects such as the C5 South Link Expressway, Southeast Metro Manila Expressway, Skyway Stage 3, NLEX–SLEX Connector, NAIA Expressway, and Subic–Clark–Tarlac Expressway. His long-standing professional experience provides students with advanced and practical perspectives on structural and bridge engineering.

Dr. Michael B. Baylon is an Associate Professorial Lecturer at the Polytechnic University of the Philippines and a structural engineering specialist whose work focuses on structural health monitoring, seismic vulnerability assessment, infrastructure auditing, and data-driven engineering applications. His academic background includes completed academic requirements for a Doctor of Philosophy in Data Science at the Asian Institute of Management and graduate studies in civil and structural engineering at De La Salle University and the University of the Philippines Diliman. He has also received honorary doctoral degrees in

Humanities and Letters. His current professional engagements include serving as a vibration engineer and senior technical specialist at Optimal Laboratories, owner and principal engineer of EMBYLON Engineering Design Services, and senior technical sales and structural health engineer at USHER Technology. He has taught at several universities and served as a research specialist for the Philippine Structural Integrity Monitoring System. His publications and technical works cover seismic fragility curves, structural vulnerability, bridge-pier assessment, structural monitoring, artificial intelligence, and deep-learning applications. He also conducts infrastructure-audit training for government agencies and local government units.

Engr. Manuel Melchor B. Bongulto is a construction-management educator and industry executive with extensive experience in engineering management, project delivery, building systems, and construction operations. He earned a Master of Science in Construction Management from the Polytechnic University of the Philippines Open University and is pursuing a Doctor in Engineering Management at the same institution. He obtained his Bachelor of Science in Civil Engineering from Far Eastern University. He has served as a Course Specialist and Assistant Professorial Lecturer in PUP's Master of Science in Construction Management Program since 2016, handling courses in quality management, cost management, contract administration, procurement, program management, sustainability, Building Information Modeling, and construction safety. He also serves as an industry lecturer at the Technological Institute of the Philippines. His executive positions have included President of Green Chameleon Construction Corporation, Assistant Vice President for Engineering at Megawide Construction Corporation, Technical Management Group Head, Vice President for Construction Operations, and Building Systems Head. His leadership in BIM implementation, value engineering, constructability review, and large-scale infrastructure projects contributes significantly to construction-management instruction.

Engr. Gabriel A. Bughao is a transportation engineer and civil engineering educator with experience in transport planning, traffic engineering, railway development, and traffic-impact assessment. He earned a Master of Science in Civil Engineering from De La Salle University, where his thesis examined the potential passenger demand for a proposed aerial ropeway transit system along Katipunan Avenue. He obtained his Bachelor of Science in Civil Engineering from the Polytechnic University of the Philippines. He served as an Assistant Professorial Lecturer at PUP, teaching transportation engineering courses and advising Civil and Railway Engineering research. His professional appointments include Transport Planner at GHD Pty Ltd., Traffic Engineer at Cardno Technical Asia, and Junior Transport Planner at Systra Philippines. His technical experience includes traffic-data analysis, transport modeling, signal optimization, crash analysis, safe-system assessment, public and active transport

evaluation, railway-station access planning, GIS mapping, and preparation of traffic-impact and construction-management plans. His academic and industry background strengthens the integration of contemporary transportation-planning tools and professional practices into civil engineering education.

Engr. Ivan Karl B. Camacho is an Instructor II at the Far Eastern University Institute of Technology, where he has served since April 2021. He earned his Bachelor of Science in Civil Engineering from FEU Institute of Technology and is pursuing a Master of Science in Civil Engineering, specializing in Geotechnical Engineering, at the University of the Philippines Diliman. His principal teaching assignments include Geotechnical Engineering lecture and laboratory courses and Numerical Solutions to Civil Engineering Problems. He has also handled Construction Materials and Testing, Fundamentals of Reinforced Concrete Design, and Transportation Engineering. Before entering the academe, he worked as a precast engineer, project engineer, and CAD engineer, gaining practical experience in construction supervision, plan interpretation, quality inspection, cost estimation, bridge drafting, progress monitoring, and safety coordination. His research publications address construction labor productivity, seepage simulation of homogeneous embankment dams, and ArcGIS-based spatial analysis of air quality. His combination of teaching, research, and construction experience supports practice-oriented instruction in geotechnical and civil engineering.

Engr. Alberto C. Cañete is a part-time instructor at the Polytechnic University of the Philippines, where he teaches Principles of Reinforced Concrete Design and Principles of Steel Design. He holds a Doctor of Science in Civil Engineering and a Master of Science in Civil Engineering, specializing in Structures, from Virginia Polytechnic Institute and State University in the United States. He earned his Bachelor of Science in Civil Engineering from the University of the Philippines Diliman. He is also the President and Project Manager of Cañete Structural Investigation Inc., where he provides strategic leadership and oversees structural engineering projects involving buildings and bridges. He has authored civil engineering textbooks covering structural analysis, reinforced concrete, steel design, matrix methods, and bridge superstructures. His extensive professional engagement includes serving as a resource speaker and trainer on bridge engineering, foundation design, structural analysis, seismic engineering, and computer-aided structural design. His academic qualifications, consulting experience, publications, and technical expertise contribute to advanced instruction and professional competency development in structural engineering.

Engr. Peter F. Castro is a civil engineer, construction executive, consultant, and educator with extensive experience in real estate development, engineering management, structural design, construction operations, and project delivery. He earned his Master of Management

from Macquarie University in Australia and his Bachelor of Science in Civil Engineering from the Technological Institute of the Philippines. His professional appointments include Engineering and Construction Consultant, Executive Vice President for Operations, First Vice President, Vice President, Senior Division Manager, Architectural and Engineering Senior Manager, Research and Development Manager, Resident Engineer, and Structural Engineering Head. He also served as an instructor, Associate Professor, and subject specialist in the Master of Science in Construction Management Program of the Polytechnic University of the Philippines. His combined academic and industry experience enables him to provide students with practical perspectives on construction management, building systems, engineering operations, project development, and organizational leadership.

Engr. Rodney James A. Iracta is a licensed civil engineer with professional experience in foundation design, reinforced concrete structures, engineering documentation, quantity estimation, and three-dimensional modeling. He earned his Bachelor of Science in Civil Engineering from Bulacan State University and is pursuing a Master of Engineering in Civil Engineering at the University of the Philippines Diliman. He previously served as a Junior Foundation Design Engineer and Cadet Engineer at JGC Philippines Inc., where he participated in refinery, industrial, and infrastructure projects involving pile-necessity evaluation, piling plans, concrete foundation design, conceptual drawings, as-built documentation, and bill-of-quantities preparation. His technical experience includes the design and modeling of foundations for vertical vessels, pumps, and miscellaneous steel supports. Through his graduate studies, engineering practice, and participation in professional-development activities, Engr. Iracta contributes current industry knowledge and analytical approaches to civil engineering instruction and student development.

Dr. Crispin S. Lictaoa is an Associate Professor in the Civil Engineering Department of Adamson University. He earned his Doctor of Philosophy in Management and Master of Science in Management Engineering from Adamson University and pursued graduate studies in Civil Engineering at the Technological University of the Philippines. His academic experience includes service as a faculty member, department chairperson, program coordinator, and Laboratory Head for the Surveying, Hydraulics, Soil, and Materials Testing Laboratories. He has taught Construction Methods and Project Management, Research, and other civil engineering courses and has supervised student research and project studies. His research engagements include artificial intelligence in civil engineering education, occupational safety and health, sustainable construction materials, soil improvement, concrete technology, and campus sustainability. Through his experience in instruction, research, laboratory administration, student mentoring, and curriculum implementation, Dr. Lictaoa

contributes to quality engineering education and the continuous improvement of academic and laboratory practices.

Engr. Noel T. Mascariña is a part-time instructor in the Civil Engineering Department of the Polytechnic University of the Philippines and a practicing structural engineer. He earned his Master of Science in Management Engineering from the Technological University of the Philippines and his Bachelor of Science in Civil Engineering from Far Eastern University. He has taught undergraduate structural design courses at PUP since 1992 and previously served as Head of the University's Civil Engineering Laboratory. His professional experience includes structural analysis and design, preparation and review of structural drawings, project inspection, engineering coordination, quantity estimation, and the assessment and strengthening of existing structures. He has worked on reinforced concrete buildings, steel structures, hospitals, warehouses, telecommunications facilities, and solar-panel framing systems. He has also served as a review instructor in Structural Engineering and Hydraulics. His extensive academic and professional experience strengthens the delivery of structural engineering courses through practical, code-based, and industry-oriented instruction.

Engr. Ryan Maynard Mazo is a Senior Structural Engineer at WSP Manila Inc. and a part-time instructor in the Civil Engineering Department of the Polytechnic University of the Philippines. He earned his Master of Engineering in Structural Engineering from the Pamantasan ng Lungsod ng Maynila and his Bachelor of Science in Civil Engineering, major in Transportation Engineering, from PUP. His teaching assignments include Transportation Engineering, Theory of Structures I and II, and Engineering Mechanics. His professional experience covers finite-element modeling, structural analysis, bridge engineering, project coordination, and technical mentoring. He has analyzed and designed bridge substructures, including piers, pier heads, and bored piles, for projects in Australia, New Zealand, and other international locations using engineering applications such as FEMap, NX Nastran, STAAD, and MathCAD. Engr. Mazo's combined expertise in structural and transportation engineering supports the integration of advanced analytical methods and professional design practices into classroom instruction.

Engr. Krezia Morales-Tactac is an Engineer IV and Section Chief in the Policies and Standards Division of the Department of Public Works and Highways–Bureau of Maintenance and a part-time Assistant Professor at the Polytechnic University of the Philippines. She earned her Doctor of Philosophy in Civil Engineering, specializing in Transportation Engineering, from the University of the Philippines Diliman. She also holds a Master in Management, major in Public Administration, from Philippine Christian University and a Master of Science in Civil Engineering, specializing in Transportation Engineering, from Mapúa

University. Her professional work focuses on highway-maintenance policies, engineering standards, road and slope protection, special bridges, road safety, flood-risk management, and infrastructure asset management. She has served as a resource person for DPWH, DPWH–JICA, and Department of the Interior and Local Government training programs. Her government, academic, and technical experience contributes to practice-oriented instruction in transportation engineering, highway maintenance, infrastructure policy, and public-sector engineering management.

Engr. Anthony R. Pantaleon is a Principal Engineer for Infrastructure and Structural Engineer at the Light Rail Transit Authority and an experienced civil engineering educator. He earned his Master of Engineering in Railway Construction Engineering from Seoul National University of Science and Technology and his Master of Science in Civil Engineering from the University of the Cordilleras. He obtained his Bachelor of Science in Civil Engineering from the Technological Institute of the Philippines. His responsibilities at LRTA include the inspection and review of railway buildings, viaducts, tracks, stations, and related systems; preparation of technical reports and terms of reference; review of engineering documents; and participation in research and development activities. He has also served as an Assistant Professor at FEU Institute of Technology and the Pamantasan ng Lungsod ng Maynila, handling structural and transportation engineering subjects. His experience in railway infrastructure, structural assessment, retrofitting, maintenance, and design provides students with relevant applications of civil and railway engineering principles.

Dr. Donamel M. Saiyari is a licensed civil engineer, environmental engineer, researcher, consultant, and Special Lecturer at the Polytechnic University of the Philippines. She earned her Doctor of Philosophy and Master of Science in Environmental Engineering from Mapúa University and pursued graduate studies in Construction Management Engineering at the Pamantasan ng Lungsod ng Maynila. She currently serves as a Senior Science Research Specialist in the Environment and Biotechnology Division of the Department of Science and Technology–Industrial Technology Development Institute. Her work focuses on hazardous-waste management, air-pollution control, water-quality assessment, technology transfer, infrastructure planning, and technical assistance to industry and academic institutions. At PUP, she lectures graduate students in Water Resources Engineering and other civil engineering specializations. Her previous academic leadership experience includes service as a researcher, faculty member, chairperson, and laboratory coordinator. Her expertise supports research-based instruction, environmental sustainability, laboratory improvement, accreditation, and continuous quality improvement.

Engr. Manuel R. Trinidad Jr. is a structural engineer and civil engineering educator with experience in structural analysis, design, construction inspection, cost estimation, instructional-material development, and student mentoring. He earned his Master of Science in Structural Engineering from the University of the Philippines Diliman and his Bachelor of Science in Civil Engineering from Mapúa University. He served as a full-time Assistant Professor at FEU Institute of Technology, where he handled Reinforced Concrete Design, Prestressed Concrete Design, Building Systems Design, Computer Applications in Civil Engineering using ETABS and STAAD.Pro, AutoCAD two-dimensional and three-dimensional drawing, Quantity Surveying, and Engineering Surveying. His industry experience includes structural design and analysis of reinforced concrete and steel buildings, preparation of permit and construction plans, structural investigation, shop-drawing review, material testing, site inspection, and coordination with clients, consultants, and contractors. His professional background supports the integration of design theory, engineering software, and construction practice into student learning.

Engr. John Manuel B. Vergel is the President of Vergel 3 Consult Inc. and a civil engineer specializing in hydraulics, hydrology, water resources, climate resilience, and small-hydropower development. He earned his Master of Science in Civil Engineering, major in Water Resources, from the University of the Philippines Diliman and his Bachelor of Science in Civil Engineering from Mapúa Institute of Technology. He also completed international short courses in Building Resilience in Climate Change at the United Nations University in Tokyo and Small Hydropower Development at the UNESCO-IHE Institute for Water Education in the Netherlands. His research and technical work include flood-risk assessment, hydrodynamic and rainfall-runoff modeling, rainwater gardens, drought and extreme-rainfall analysis, water-quality assessment, and environmentally acceptable river-flow management. Through his consultancy practice, research presentations, publications, and professional engagement, Engr. Vergel contributes practical and research-based expertise to water-resources engineering and sustainable infrastructure development.

Faculty by Years of Teaching Experience

Table 4.2 presents the faculty qualifications, in terms of their highest degree, rank, years of experience and professional registration.

Table 4.2 Faculty Qualifications for BS Civil Engineering Program

Faculty Name	Highest Degree Earned and Year	Rank	Type of Academic Appointment	FT or PT	Years of Experienced			Professional Registration / Certification	Level of Activity H, M, L ³

Victoria, Armando Jr. N.	Master of Science in Civil Engineering – Transportation Engineering	I	TT	FT	7	3	3	RCE	M	H	M

RANK: **P** = Professor
ASC = Associate Professor
AST = Assistant Professor
I = Instructor
A = Adjunct
O = Others

EMPLOYMENT STATUS: **TT** = Tenure Track
T = Tenured
NTT = Non-Tenure Track

ACTIVITY LEVEL: The level of activity, **high, medium, or low**, should reflect an average over the year prior to the visit plus the two previous years at the institution.

APPOINTMENT STATUS: **PT** = Part Time
FT = Full Time

Faculty Handling the Courses

The Civil Engineering Department at the Polytechnic University of the Philippines (PUP) is committed to providing high-quality education to its students by ensuring that all subjects in the Bachelor of Science in Civil Engineering (BSCE) curriculum are taught by highly qualified faculty members. A critical component of this approach is the wide-ranging expertise and specializations of the faculty, allowing the department to offer a diverse range of courses.

The faculty members in the Civil Engineering Department are selected based on their academic background, professional qualifications, and industry experience. These qualifications ensure that the department adheres to the standards for faculty competence in teaching each specific curricular area.

Each subject within the BSCE curriculum is handled by multiple faculty members, with each instructor bringing their expertise in specialized fields, as shown in Table 4.3. This ensures that the content is taught at a high level, covering both theoretical foundations and practical applications in the field of civil engineering. By having several faculty members for each subject, the department can provide diverse perspectives and current industry practices, contributing to a well-rounded educational experience for students ([Attachment C4-03 – Faculty Teaching Loads](#)).

Table 4.3.6 Summary of Permanent Faculty Members Capable of Teaching Courses in Each Curricular Area – 2022 Curriculum

COURSES	LIST OF FACULTY THAT CAN HANDLE THE COURSE
PROFESSIONAL COURSES	
CIEN 101 – Civil Engineering Orientation	Regular faculty (3): Galicia, Lorenzo; Roxas, Ruffa S.; Tana, Kenneth Bryan M. Special/part-time faculty (3): Bongulto, Manuel Melchor; Castro, Peter; Lictaoa, Crispin S.
CETE 011 – Civil Engineering Technology	Regular faculty (3): Bartoline, Nhel Adrian B.; Cabornay, Prospero C.; Galicia, Lorenzo Special/part-time faculty (4): Bongulto, Manuel Melchor; Cagampang, Vencint; Castro, Peter; Lictaoa, Crispin S.
ENSC 014 – Computer-Aided Drafting	Regular faculty (3): Bartoline, Nhel Adrian B.; Galicia, Lorenzo; Victoria, Armando Jr. N. Special/part-time faculty (4): Aniban, Bon Ryan; Felix, Mark Tristan R.; Mascarena, Noel; Trinidad, Manuel Jr., R.
ENSC 016 – Statics of Rigid Bodies	Regular faculty (2): Lumbang, Aldrin; Singayan, Melvin G. Special/part-time faculty (4): Cagampang, Vencint; Camacho, Ivan Karl B.; Felix, Mark Tristan R.; Mazo, Ryan Maynard
ENSC 017 – Dynamics of Rigid Bodies	Regular faculty (2): Lumbang, Aldrin; Singayan, Melvin G. Special/part-time faculty (3): Camacho, Ivan Karl B.; Felix, Mark Tristan R.; Lictaoa, Crispin S.
ENSC 019 – Mechanics of Deformable Bodies	Regular faculty (3): Lumbang, Aldrin; Sibayan, Noli; Singayan, Melvin G. Special/part-time faculty (3): Lictaoa, Crispin S.; Mazo, Ryan Maynard; Trinidad, Manuel Jr., R.
ENSC 023 – Engineering Economics	Regular faculty (2): Bartoline, Nhel Adrian B.; Lumbang, Aldrin Special/part-time faculty (2): Cagampang, Vencint; Iracta, Rodney James

COURSES	LIST OF FACULTY THAT CAN HANDLE THE COURSE
ENSC 024 – Engineering Management	Regular faculty (7): Bartoline, Nhel Adrian B.; Bienes, Joseph Raniel A; Cruz, Ramir M.; Domingo, Razon C.; Galicia, Lorenzo; Poso, Florante Jr. D.; Tana, Kenneth Bryan M. Special/part-time faculty (3): Bongulto, Manuel Melchor; Castro, Peter; Lictaoa, Crispin S.
CIEN 201 – Fundamentals of Surveying 1	Regular faculty (4): Arrojado, Edna P.; Cabornay, Prospero C.; Domingo, Razon C.; Tana, Kenneth Bryan M. Special/part-time faculty (3): Federizo, Patrick Louie; Felix, Mark Tristan R.; Pantalleon, Anthonny R.
CIEN 202 – Fundamentals of Surveying 2 (Applied Surveying)	Regular faculty (3): Cabornay, Prospero C.; Cruz, Ramir M.; Domingo, Razon C. Special/part-time faculty (4): Camacho, Ivan Karl B.; Federizo, Patrick Louie; Felix, Mark Tristan R.; Pantalleon, Anthonny R.
CIEN 203 – Geology for Civil Engineers	Regular faculty (2): Cruz, Ramir M.; Roxas, Ruffa S. Special/part-time faculty (2): Aduana, Maria Razelle; Camacho, Ivan Karl B.
CIEN 204 – Construction Materials and Testing	Regular faculty (6): Domingo, Razon C.; Escarieses, Lady Lyn E.; Galicia, Lorenzo; Poso, Florante Jr. D.; Roxas, Ruffa S.; Tana, Kenneth Bryan M. Special/part-time faculty (5): Camacho, Ivan Karl B.; Cruz, Kwin Juvy; Felix, Mark Tristan R.; Lictaoa, Crispin S.; Vergel, John Manuel
CIEN 205 – Numerical Solutions to CE Problems	Regular faculty (3): Cruz, Ramir M.; Lumbang, Aldrin; Sibayan, Noli Special/part-time faculty (3): Aniban, Bon Ryan; Camacho, Ivan Karl B.; Cruz, Kwin Juvy
CIEN 301 – Geotechnical Engineering 1 (Soil Mechanics)	Regular faculty (6): Bienes, Joseph Raniel A; Cabornay, Prospero C.; Muhi, Manuel M.; Roxas, Ruffa S.; Tana, Kenneth Bryan M.; Victoria, Armando Jr. N. Special/part-time faculty (2): Camacho, Ivan Karl B.; Iracta, Rodney James
CIEN 302 – Geotechnical Engineering 2	Regular faculty (5): Bienes, Joseph Raniel A; Cabornay, Prospero C.; Cruz, Ramir M.; Roxas, Ruffa S.; Tana, Kenneth Bryan M. Special/part-time faculty (2): Camacho, Ivan Karl B.; Iracta, Rodney James

COURSES	LIST OF FACULTY THAT CAN HANDLE THE COURSE
CIEN 303 – Highway and Railroad Engineering	Regular faculty (3): Domingo, Razon C.; Muhi, Manuel M.; Victoria, Armando Jr. N. Special/part-time faculty (4): Bughao, Gabriel; Federizo, Patrick Louie; Morales-Tactac, Krezia; Pantalleon, Anthonny R.
CIEN 304 – Principles of Transportation Engineering	Regular faculty (3): Domingo, Razon C.; Muhi, Manuel M.; Victoria, Armando Jr. N. Special/part-time faculty (4): Bughao, Gabriel; Federizo, Patrick Louie; Morales-Tactac, Krezia; Pantalleon, Anthonny R.
CIEN 305 – Building Systems Design	Regular faculty (2): Bartoline, Nhel Adrian B.; Galicia, Lorenzo Special/part-time faculty (3): Felix, Mark Tristan R.; Lictaoa, Crispin S.; Trinidad, Manuel Jr., R.
CIEN 306 – Structural Theory	Regular faculty (4): Bartoline, Nhel Adrian B.; Lumbang, Aldrin; Sibayan, Noli; Singayan, Melvin G. Special/part-time faculty (4): Aniban, Bon Ryan; Baylon, Michael; Lictaoa, Crispin S.; Mazo, Ryan Maynard
CIEN 307 – Matrix Analysis of Structures	Regular faculty (3): Lumbang, Aldrin; Sibayan, Noli; Singayan, Melvin G. Special/part-time faculty (4): Baylon, Michael; Canete, Alberto; Cruz, Kwin Juvy; Mazo, Ryan Maynard
CIEN 308 – Principles of Reinforced Concrete	Regular faculty (3): Lumbang, Aldrin; Sibayan, Noli; Singayan, Melvin G. Special/part-time faculty (6): Aniban, Bon Ryan; Aquino, Jonathan; Canete, Alberto; Felix, Mark Tristan R.; Mascarena, Noel; Trinidad, Manuel Jr., R.
CIEN 309 – CE Integration 1	Regular faculty (2): Lumbang, Aldrin; Tana, Kenneth Bryan M. Special/part-time faculty (2): Cagampang, Vencint; Mazo, Ryan Maynard
CIEN 310 – Hydraulics 1	Regular faculty (5): Arrojado, Edna P.; Escarieses, Lady Lyn E.; Lumbang, Aldrin; Poso, Florante Jr. D.; Tana, Kenneth Bryan M. Special/part-time faculty (3): Cagampang, Vencint; Saiyari, Donamel; Vergel, John Manuel

COURSES	LIST OF FACULTY THAT CAN HANDLE THE COURSE
CIEN 311 – Hydraulics 2	Regular faculty (5): Arrojado, Edna P.; Escarieses, Lady Lyn E.; Lumbang, Aldrin; Poso, Florante Jr. D.; Tana, Kenneth Bryan M. Special/part-time faculty (3): Cagampang, Vencint; Saiyari, Donamel; Vergel, John Manuel
CIEN 312 – Hydrology	Regular faculty (2): Escarieses, Lady Lyn E.; Poso, Florante Jr. D. Special/part-time faculty (2): Iracta, Rodney James; Vergel, John Manuel
CIEN 313 – Civil Engineering Research	Regular faculty (3): Escarieses, Lady Lyn E.; Poso, Florante Jr. D.; Tana, Kenneth Bryan M. Special/part-time faculty (2): Saiyari, Donamel; Vergel, John Manuel
CIEN 314 – On-The-Job Training 1 (300 Hours)	Regular faculty (14): Arrojado, Edna P.; Bartoline, Nhel Adrian B.; Bienes, Joseph Raniel A; Cabornay, Prospero C.; Cruz, Ramir M.; Domingo, Razon C.; Escarieses, Lady Lyn E.; Galicia, Lorenzo; Lumbang, Aldrin; Muhi, Manuel M.; Poso, Florante Jr. D.; Roxas, Ruffa S.; Singayan, Melvin G.; Tana, Kenneth Bryan M. Special/part-time faculty (4): Cagampang, Vencint; Cruz, Kwin Juvy; Mazo, Ryan Maynard; Saiyari, Donamel
CIEN 401 – CE Project 1	Regular faculty (13): Arrojado, Edna P.; Bartoline, Nhel Adrian B.; Bienes, Joseph Raniel A; Cabornay, Prospero C.; Cruz, Ramir M.; Domingo, Razon C.; Escarieses, Lady Lyn E.; Galicia, Lorenzo; Lumbang, Aldrin; Poso, Florante Jr. D.; Roxas, Ruffa S.; Singayan, Melvin G.; Tana, Kenneth Bryan M. Special/part-time faculty (3): Aquino, Jonathan; Bongulto, Manuel Melchor; Saiyari, Donamel
CIEN 402 – CE Project 2	Regular faculty (13): Arrojado, Edna P.; Bartoline, Nhel Adrian B.; Bienes, Joseph Raniel A; Cabornay, Prospero C.; Cruz, Ramir M.; Domingo, Razon C.; Escarieses, Lady Lyn E.; Galicia, Lorenzo; Lumbang, Aldrin; Poso, Florante Jr. D.; Roxas, Ruffa S.; Singayan, Melvin G.; Tana, Kenneth Bryan M. Special/part-time faculty (3): Aquino, Jonathan; Bongulto, Manuel Melchor; Saiyari, Donamel

COURSES	LIST OF FACULTY THAT CAN HANDLE THE COURSE
CIEN 403 – Foundation Engineering	Regular faculty (3): Arrojado, Edna P.; Sibayan, Noli; Singayan, Melvin G. Special/part-time faculty (5): Aniban, Bon Ryan; Aquino, Jonathan; Baylon, Michael; Camacho, Ivan Karl B.; Guades, Ernesto
CIEN 404 – CE Law, Ethics and Contracts	Regular faculty (2): Domingo, Razon C.; Tana, Kenneth Bryan M. Special/part-time faculty (3): Bongulto, Manuel Melchor; Castro, Peter; Lictaoa, Crispin S.
CIEN 405 – Construction Methods and Project Management	Regular faculty (3): Cruz, Ramir M.; Galicia, Lorenzo; Tana, Kenneth Bryan M. Special/part-time faculty (3): Bongulto, Manuel Melchor; Castro, Peter; Lictaoa, Crispin S.
CIEN 406 – Quantity Surveying	Regular faculty (2): Galicia, Lorenzo; Tana, Kenneth Bryan M. Special/part-time faculty (4): Aniban, Bon Ryan; Cruz, Kwin Juvy; Felix, Mark Tristan R.; Trinidad, Manuel Jr., R.
CIEN 407 – Principles of Steel Design	Regular faculty (3): Lumbang, Aldrin; Sibayan, Noli; Singayan, Melvin G. Special/part-time faculty (7): Aniban, Bon Ryan; Aquino, Jonathan; Canete, Alberto; Guades, Ernesto; Mascarena, Noel; Mazo, Ryan Maynard; Trinidad, Manuel Jr., R.
CIEN 408 – Earthquake Engineering	Regular faculty (3): Arrojado, Edna P.; Sibayan, Noli; Singayan, Melvin G. Special/part-time faculty (6): Aniban, Bon Ryan; Aquino, Jonathan; Canete, Alberto; Guades, Ernesto; Mascarena, Noel; Trinidad, Manuel Jr., R.
CIEN 409 – CE Site Inspection and Seminars	Regular faculty (14): Arrojado, Edna P.; Bartoline, Nhel Adrian B.; BIANES, Joseph Raniel A; Cabornay, Prospero C.; Cruz, Ramir M.; Domingo, Razon C.; Escarises, Lady Lyn E.; Galicia, Lorenzo; Lumbang, Aldrin; Muhi, Manuel M.; Poso, Florante Jr. D.; Roxas, Ruffa S.; Singayan, Melvin G.; Tana, Kenneth Bryan M. Special/part-time faculty (4): Cagampang, Vencint; Cruz, Kwin Juvy; Mazo, Ryan Maynard; Saiyari, Donamel

COURSES	LIST OF FACULTY THAT CAN HANDLE THE COURSE
CIEN 410 – CE Integration 2	Regular faculty (2): Lumbang, Aldrin; Tana, Kenneth Bryan M. Special/part-time faculty (3): Cagampang, Vencint; Cruz, Kwin Juvy; Mazo, Ryan Maynard
CIEN 411 – CE Integration 3	Regular faculty (2): Lumbang, Aldrin; Tana, Kenneth Bryan M. Special/part-time faculty (3): Cagampang, Vencint; Cruz, Kwin Juvy; Mazo, Ryan Maynard
CIEN 412 – On-The-Job Training 2 (200 Hours)	Regular faculty (14): Arrojado, Edna P.; Bartoline, Nhel Adrian B.; Biances, Joseph Raniel A; Cabornay, Prospero C.; Cruz, Ramir M.; Domingo, Razon C.; Escarieses, Lady Lyn E.; Galicia, Lorenzo; Lumbang, Aldrin; Muhi, Manuel M.; Poso, Florante Jr. D.; Roxas, Ruffa S.; Singayan, Melvin G.; Tana, Kenneth Bryan M. Special/part-time faculty (5): Cagampang, Vencint; Camacho, Ivan Karl B.; Cruz, Kwin Juvy; Mazo, Ryan Maynard; Saiyari, Donamel
SPECIALIZED COURSES	
CMEN 451 – Project Construction and Management	Regular faculty (3): Bartoline, Nhel Adrian B.; Galicia, Lorenzo; Tana, Kenneth Bryan M. Special/part-time faculty (2): Bongulto, Manuel Melchor; Castro, Peter
CMEN 452 – Construction Planning and Scheduling	Regular faculty (3): Bartoline, Nhel Adrian B.; Galicia, Lorenzo; Tana, Kenneth Bryan M. Special/part-time faculty (2): Bongulto, Manuel Melchor; Castro, Peter
CMEN 461 – Advance Construction Methods and Equipment	Regular faculty (3): Bartoline, Nhel Adrian B.; Galicia, Lorenzo; Tana, Kenneth Bryan M. Special/part-time faculty (2): Bongulto, Manuel Melchor; Castro, Peter
CMEN 462 – Construction Productivity Analysis	Regular faculty (3): Bartoline, Nhel Adrian B.; Galicia, Lorenzo; Tana, Kenneth Bryan M. Special/part-time faculty (2): Bongulto, Manuel Melchor; Castro, Peter

COURSES	LIST OF FACULTY THAT CAN HANDLE THE COURSE
CMEN 471 – Construction Cost Engineering	Regular faculty (3): Bartoline, Nhel Adrian B.; Galicia, Lorenzo; Tana, Kenneth Bryan M. Special/part-time faculty (2): Bongulto, Manuel Melchor; Castro, Peter
CMEN 472 – Construction Procurement	Regular faculty (3): Bartoline, Nhel Adrian B.; Galicia, Lorenzo; Tana, Kenneth Bryan M. Special/part-time faculty (2): Bongulto, Manuel Melchor; Castro, Peter
CMEN 481 – Database Management in Construction	Regular faculty (3): Bartoline, Nhel Adrian B.; Galicia, Lorenzo; Tana, Kenneth Bryan M. Special/part-time faculty (2): Bongulto, Manuel Melchor; Castro, Peter
CMEN 482 – Construction Project Administration	Regular faculty (3): Bartoline, Nhel Adrian B.; Galicia, Lorenzo; Tana, Kenneth Bryan M. Special/part-time faculty (2): Bongulto, Manuel Melchor; Castro, Peter
CMEN 491 – Construction Occupational Safety and Health (COSH)	Regular faculty (3): Bartoline, Nhel Adrian B.; Galicia, Lorenzo; Tana, Kenneth Bryan M. Special/part-time faculty (2): Bongulto, Manuel Melchor; Castro, Peter
CMEN 492 – Total Quality Management in Engineering	Regular faculty (3): Bartoline, Nhel Adrian B.; Galicia, Lorenzo; Tana, Kenneth Bryan M. Special/part-time faculty (2): Bongulto, Manuel Melchor; Castro, Peter
GTEN 451 – Geosynthetics in Geotechnical Engineering	Regular faculty (3): Cabornay, Prospero C.; Cruz, Ramir M.; Roxas, Ruffa S. Special/part-time faculty (1): Camacho, Ivan Karl B.
GTEN 452 – Geotechnical and Geo-environmental Engineering	Regular faculty (3): Cabornay, Prospero C.; Cruz, Ramir M.; Roxas, Ruffa S. Special/part-time faculty (1): Camacho, Ivan Karl B.
GTEN 461 – Geotechnical Earthquake Engineering	Regular faculty (3): Cabornay, Prospero C.; Cruz, Ramir M.; Roxas, Ruffa S. Special/part-time faculty (1): Camacho, Ivan Karl B.
GTEN 462 – Underground Infrastructure Engineering	Regular faculty (3): Cabornay, Prospero C.; Cruz, Ramir M.; Roxas, Ruffa S. Special/part-time faculty (1): Camacho, Ivan Karl B.

COURSES	LIST OF FACULTY THAT CAN HANDLE THE COURSE
GTEN 471 – Geotechnical Aspects of Landfill Design	Regular faculty (3): Cabornay, Prospero C.; Cruz, Ramir M.; Roxas, Ruffa S. Special/part-time faculty (1): Camacho, Ivan Karl B.
GTEN 472 – Slope Stability and Earthworks	Regular faculty (3): Cabornay, Prospero C.; Cruz, Ramir M.; Roxas, Ruffa S. Special/part-time faculty (1): Camacho, Ivan Karl B.
GTEN 481 – Geotechnical Engineering (Rock Mechanics)	Regular faculty (3): Cabornay, Prospero C.; Cruz, Ramir M.; Roxas, Ruffa S. Special/part-time faculty (1): Camacho, Ivan Karl B.
GTEN 482 – Soil and Rock Dynamics	Regular faculty (3): Cabornay, Prospero C.; Cruz, Ramir M.; Roxas, Ruffa S. Special/part-time faculty (1): Camacho, Ivan Karl B.
GTEN 491 – Ground Improvement	Regular faculty (3): Cabornay, Prospero C.; Cruz, Ramir M.; Roxas, Ruffa S. Special/part-time faculty (1): Camacho, Ivan Karl B.
GTEN 492 – Environmental Geotechnology	Regular faculty (3): Cabornay, Prospero C.; Cruz, Ramir M.; Roxas, Ruffa S. Special/part-time faculty (1): Camacho, Ivan Karl B.
STEN 451 – Computer Software in Structural Analysis	Regular faculty (4): Arrojado, Edna P.; Lumbang, Aldrin; Sibayan, Noli; Singayan, Melvin G. Special/part-time faculty (10): Aniban, Bon Ryan; Aquino, Jonathan; Baylon, Michael; Cagampang, Vencint; Canete, Alberto; Felix, Mark Tristan R.; Guades, Ernesto; Lictaoa, Crispin S.; Mascarena, Noel; Mazo, Ryan Maynard
STEN 452 – Finite Analysis	Regular faculty (4): Arrojado, Edna P.; Lumbang, Aldrin; Sibayan, Noli; Singayan, Melvin G. Special/part-time faculty (10): Aniban, Bon Ryan; Aquino, Jonathan; Baylon, Michael; Cagampang, Vencint; Canete, Alberto; Felix, Mark Tristan R.; Guades, Ernesto; Lictaoa, Crispin S.; Mascarena, Noel; Mazo, Ryan Maynard
STEN 461 – Prestressed Concrete Design	Regular faculty (4): Arrojado, Edna P.; Lumbang, Aldrin; Sibayan, Noli; Singayan, Melvin G. Special/part-time faculty (10): Aniban, Bon Ryan; Aquino, Jonathan; Baylon, Michael; Cagampang, Vencint; Canete, Alberto; Felix, Mark Tristan R.; Guades, Ernesto; Lictaoa, Crispin S.; Mascarena, Noel; Mazo, Ryan Maynard

COURSES	LIST OF FACULTY THAT CAN HANDLE THE COURSE
STEN 462 – Wind Engineering	Regular faculty (4): Arrojado, Edna P.; Lumbang, Aldrin; Sibayan, Noli; Singayan, Melvin G. Special/part-time faculty (10): Aniban, Bon Ryan; Aquino, Jonathan; Baylon, Michael; Cagampang, Vencint; Canete, Alberto; Felix, Mark Tristan R.; Guades, Ernesto; Lictaoa, Crispin S.; Mascarena, Noel; Mazo, Ryan Maynard
STEN 471 – Dam Engineering	Regular faculty (4): Arrojado, Edna P.; Lumbang, Aldrin; Sibayan, Noli; Singayan, Melvin G. Special/part-time faculty (10): Aniban, Bon Ryan; Aquino, Jonathan; Baylon, Michael; Cagampang, Vencint; Canete, Alberto; Felix, Mark Tristan R.; Guades, Ernesto; Lictaoa, Crispin S.; Mascarena, Noel; Mazo, Ryan Maynard
STEN 472 – Design of Steel Structures	Regular faculty (4): Arrojado, Edna P.; Lumbang, Aldrin; Sibayan, Noli; Singayan, Melvin G. Special/part-time faculty (10): Aniban, Bon Ryan; Aquino, Jonathan; Baylon, Michael; Cagampang, Vencint; Canete, Alberto; Felix, Mark Tristan R.; Guades, Ernesto; Lictaoa, Crispin S.; Mascarena, Noel; Mazo, Ryan Maynard
STEN 481 – Bridge Engineering	Regular faculty (4): Arrojado, Edna P.; Lumbang, Aldrin; Sibayan, Noli; Singayan, Melvin G. Special/part-time faculty (10): Aniban, Bon Ryan; Aquino, Jonathan; Baylon, Michael; Cagampang, Vencint; Canete, Alberto; Felix, Mark Tristan R.; Guades, Ernesto; Lictaoa, Crispin S.; Mascarena, Noel; Mazo, Ryan Maynard
STEN 482 – Foundation and Retaining Wall Design	Regular faculty (4): Arrojado, Edna P.; Lumbang, Aldrin; Sibayan, Noli; Singayan, Melvin G. Special/part-time faculty (10): Aniban, Bon Ryan; Aquino, Jonathan; Baylon, Michael; Cagampang, Vencint; Canete, Alberto; Felix, Mark Tristan R.; Guades, Ernesto; Lictaoa, Crispin S.; Mascarena, Noel; Mazo, Ryan Maynard

COURSES	LIST OF FACULTY THAT CAN HANDLE THE COURSE
STEN 491 – Structural Design of Tower and Other Vertical Structures	Regular faculty (4): Arrojado, Edna P.; Lumbang, Aldrin; Sibayan, Noli; Singayan, Melvin G. Special/part-time faculty (10): Aniban, Bon Ryan; Aquino, Jonathan; Baylon, Michael; Cagampang, Vencint; Canete, Alberto; Felix, Mark Tristan R.; Guades, Ernesto; Lictaoa, Crispin S.; Mascarena, Noel; Mazo, Ryan Maynard
STEN 492 – Structural Dynamics	Regular faculty (4): Arrojado, Edna P.; Lumbang, Aldrin; Sibayan, Noli; Singayan, Melvin G. Special/part-time faculty (10): Aniban, Bon Ryan; Aquino, Jonathan; Baylon, Michael; Cagampang, Vencint; Canete, Alberto; Felix, Mark Tristan R.; Guades, Ernesto; Lictaoa, Crispin S.; Mascarena, Noel; Mazo, Ryan Maynard
TREN 451 – Transportation System Analysis and Management	Regular faculty (2): Domingo, Razon C.; Muhi, Manuel M. Special/part-time faculty (5): Bughao, Gabriel; Cruz, Kwin Juvy; Federizo, Patrick Louie; Morales-Tactac, Krezia; Pantalleon, Anthonny R.
TREN 452 – Traffic Engineering	Regular faculty (2): Domingo, Razon C.; Muhi, Manuel M. Special/part-time faculty (5): Bughao, Gabriel; Cruz, Kwin Juvy; Federizo, Patrick Louie; Morales-Tactac, Krezia; Pantalleon, Anthonny R.
TREN 461 – Highway Engineering	Regular faculty (2): Domingo, Razon C.; Muhi, Manuel M. Special/part-time faculty (5): Bughao, Gabriel; Cruz, Kwin Juvy; Federizo, Patrick Louie; Morales-Tactac, Krezia; Pantalleon, Anthonny R.
TREN 462 – Pavement Analysis and Design	Regular faculty (2): Domingo, Razon C.; Muhi, Manuel M. Special/part-time faculty (5): Bughao, Gabriel; Cruz, Kwin Juvy; Federizo, Patrick Louie; Morales-Tactac, Krezia; Pantalleon, Anthonny R.
TREN 471 – Railroad Engineering	Regular faculty (2): Domingo, Razon C.; Muhi, Manuel M. Special/part-time faculty (5): Bughao, Gabriel; Cruz, Kwin Juvy; Federizo, Patrick Louie; Morales-Tactac, Krezia; Pantalleon, Anthonny R.
TREN 472 – Project Evaluation and Appraisal of Transportation Facilities	Regular faculty (2): Domingo, Razon C.; Muhi, Manuel M. Special/part-time faculty (5): Bughao, Gabriel; Cruz, Kwin Juvy; Federizo, Patrick Louie; Morales-Tactac, Krezia; Pantalleon, Anthonny R.

COURSES	LIST OF FACULTY THAT CAN HANDLE THE COURSE
TREN 481 – Airport Design	Regular faculty (2): Domingo, Razon C.; Muhi, Manuel M. Special/part-time faculty (5): Bughao, Gabriel; Cruz, Kwin Juvy; Federizo, Patrick Louie; Morales-Tactac, Krezia; Pantalleon, Anthonny R.
TREN 482 – Urban and Regional Transportation Systems Planning	Regular faculty (2): Domingo, Razon C.; Muhi, Manuel M. Special/part-time faculty (5): Bughao, Gabriel; Cruz, Kwin Juvy; Federizo, Patrick Louie; Morales-Tactac, Krezia; Pantalleon, Anthonny R.
TREN 491 – Ports and Harbors	Regular faculty (2): Domingo, Razon C.; Muhi, Manuel M. Special/part-time faculty (5): Bughao, Gabriel; Cruz, Kwin Juvy; Federizo, Patrick Louie; Morales-Tactac, Krezia; Pantalleon, Anthonny R.
TREN 492 – Transportation Modelling	Regular faculty (2): Domingo, Razon C.; Muhi, Manuel M. Special/part-time faculty (5): Bughao, Gabriel; Cruz, Kwin Juvy; Federizo, Patrick Louie; Morales-Tactac, Krezia; Pantalleon, Anthonny R.
WREN 451 – Water Resources Engineering	Regular faculty (2): Escarieses, Lady Lyn E.; Poso, Florante Jr. D. Special/part-time faculty (2): Iracta, Rodney James; Vergel, John Manuel
WREN 452 – Multipurpose Water Resources Development	Regular faculty (2): Escarieses, Lady Lyn E.; Poso, Florante Jr. D. Special/part-time faculty (2): Iracta, Rodney James; Vergel, John Manuel
WREN 461 – Flood Control and Drainage Design	Regular faculty (2): Escarieses, Lady Lyn E.; Poso, Florante Jr. D. Special/part-time faculty (2): Iracta, Rodney James; Vergel, John Manuel
WREN 462 – Hydraulic Design	Regular faculty (2): Escarieses, Lady Lyn E.; Poso, Florante Jr. D. Special/part-time faculty (2): Iracta, Rodney James; Vergel, John Manuel
WREN 471 – Irrigation Engineering	Regular faculty (2): Escarieses, Lady Lyn E.; Poso, Florante Jr. D. Special/part-time faculty (2): Iracta, Rodney James; Vergel, John Manuel
WREN 472 – Sanitary and Wastewater Engineering	Regular faculty (2): Escarieses, Lady Lyn E.; Poso, Florante Jr. D. Special/part-time faculty (2): Iracta, Rodney James; Vergel, John Manuel
WREN 481 – Water Supply Planning and Development	Regular faculty (2): Escarieses, Lady Lyn E.; Poso, Florante Jr. D. Special/part-time faculty (2): Iracta, Rodney James; Vergel, John Manuel

COURSES	LIST OF FACULTY THAT CAN HANDLE THE COURSE
PROFESSIONAL COURSES	
CIEN 20012 – Civil Engineering Orientation 1	Regular faculty (3): Galicia, Lorenzo; Roxas, Ruffa S.; Tana, Kenneth Bryan M. Special/part-time faculty (3): Bongulto, Manuel Melchor; Castro, Peter; Lictaoa, Crispin S.
CIEN 20022 – Civil Engineering Orientation 2 (CE TECH 2)	Regular faculty (3): Bartoline, Nhel Adrian B.; Cabornay, Prospero C.; Galicia, Lorenzo Special/part-time faculty (4): Bongulto, Manuel Melchor; Cagampang, Vencint; Castro, Peter; Lictaoa, Crispin S.
ENSC 20013 – Computer-Aided Drafting	Regular faculty (3): Bartoline, Nhel Adrian B.; Galicia, Lorenzo; Victoria, Armando Jr. N. Special/part-time faculty (4): Aniban, Bon Ryan; Felix, Mark Tristan R.; Mascarena, Noel; Trinidad, Manuel Jr., R.
ENSC 20043 – Statics of Rigid Bodies	Regular faculty (2): Lumbang, Aldrin; Singayan, Melvin G. Special/part-time faculty (4): Cagampang, Vencint; Camacho, Ivan Karl B.; Felix, Mark Tristan R.; Mazo, Ryan Maynard
ENSC 20072 – Dynamics of Rigid Bodies	Regular faculty (2): Lumbang, Aldrin; Singayan, Melvin G. Special/part-time faculty (3): Camacho, Ivan Karl B.; Felix, Mark Tristan R.; Lictaoa, Crispin S.
ENSC 20084 – Mechanics of Deformable Bodies	Regular faculty (3): Lumbang, Aldrin; Sibayan, Noli; Singayan, Melvin G. Special/part-time faculty (3): Lictaoa, Crispin S.; Mazo, Ryan Maynard; Trinidad, Manuel Jr., R.
ENSC 20093 – Engineering Economics	Regular faculty (2): Bartoline, Nhel Adrian B.; Lumbang, Aldrin Special/part-time faculty (2): Cagampang, Vencint; Iracta, Rodney James

COURSES	LIST OF FACULTY THAT CAN HANDLE THE COURSE
ENSC 20042 – Engineering Management	Regular faculty (7): Bartoline, Nhel Adrian B.; Bienes, Joseph Raniel A; Cruz, Ramir M.; Domingo, Razon C.; Galicia, Lorenzo; Poso, Florante Jr. D.; Tana, Kenneth Bryan M. Special/part-time faculty (3): Bongulto, Manuel Melchor; Castro, Peter; Lictaoa, Crispin S.
CIEN 30013 – Fundamentals of Surveying 1	Regular faculty (4): Arrojado, Edna P.; Cabornay, Prospero C.; Domingo, Razon C.; Tana, Kenneth Bryan M. Special/part-time faculty (3): Federizo, Patrick Louie; Felix, Mark Tristan R.; Pantalleon, Anthonny R.
CIEN 30033 – Fundamentals of Surveying 2	Regular faculty (3): Cabornay, Prospero C.; Cruz, Ramir M.; Domingo, Razon C. Special/part-time faculty (3): Federizo, Patrick Louie; Felix, Mark Tristan R.; Pantalleon, Anthonny R.
CIEN 30053 – Route Surveying and Earthworks	Regular faculty (3): Cabornay, Prospero C.; Cruz, Ramir M.; Domingo, Razon C. Special/part-time faculty (4): Camacho, Ivan Karl B.; Federizo, Patrick Louie; Felix, Mark Tristan R.; Pantalleon, Anthonny R.
CIEN 20032 – Geology for Civil Engineers	Regular faculty (2): Cruz, Ramir M.; Roxas, Ruffa S. Special/part-time faculty (2): Aduana, Maria Razelle; Camacho, Ivan Karl B.
CIEN 30023 – Construction Materials and Testing	Regular faculty (6): Domingo, Razon C.; Escarieses, Lady Lyn E.; Galicia, Lorenzo; Poso, Florante Jr. D.; Roxas, Ruffa S.; Tana, Kenneth Bryan M. Special/part-time faculty (5): Camacho, Ivan Karl B.; Cruz, Kwin Juvy; Felix, Mark Tristan R.; Lictaoa, Crispin S.; Vergel, John Manuel
MATH 20093 – Numerical Solutions to CE Problems	Regular faculty (3): Cruz, Ramir M.; Lumbang, Aldrin; Sibayan, Noli Special/part-time faculty (3): Aniban, Bon Ryan; Camacho, Ivan Karl B.; Cruz, Kwin Juvy

COURSES	LIST OF FACULTY THAT CAN HANDLE THE COURSE
CIEN 30083 – Geotechnical Engineering 1	Regular faculty (6): Bianes, Joseph Raniel A; Cabornay, Prospero C.; Muhi, Manuel M.; Roxas, Ruffa S.; Tana, Kenneth Bryan M.; Victoria, Armando Jr. N. Special/part-time faculty (2): Camacho, Ivan Karl B.; Iracta, Rodney James
CIEN 30122 – Geotechnical Engineering 2	Regular faculty (5): Bianes, Joseph Raniel A; Cabornay, Prospero C.; Cruz, Ramir M.; Roxas, Ruffa S.; Tana, Kenneth Bryan M. Special/part-time faculty (2): Camacho, Ivan Karl B.; Iracta, Rodney James
CIEN 30113 – Highway and Railroad Engineering	Regular faculty (3): Domingo, Razon C.; Muhi, Manuel M.; Victoria, Armando Jr. N. Special/part-time faculty (4): Bughao, Gabriel; Federizo, Patrick Louie; Morales-Tactac, Krezia; Pantalleon, Anthonny R.
CIEN 30203 – Principles of Transportation Engineering	Regular faculty (3): Domingo, Razon C.; Muhi, Manuel M.; Victoria, Armando Jr. N. Special/part-time faculty (4): Bughao, Gabriel; Federizo, Patrick Louie; Morales-Tactac, Krezia; Pantalleon, Anthonny R.
CIEN 30073 – Building Systems Design	Regular faculty (2): Bartoline, Nhel Adrian B.; Galicia, Lorenzo Special/part-time faculty (3): Felix, Mark Tristan R.; Lictaoa, Crispin S.; Trinidad, Manuel Jr., R.
CIEN 30043 – Structural Theory 1	Regular faculty (4): Bartoline, Nhel Adrian B.; Lumbang, Aldrin; Sibayan, Noli; Singayan, Melvin G. Special/part-time faculty (4): Aniban, Bon Ryan; Baylon, Michael; Lictaoa, Crispin S.; Mazo, Ryan Maynard
CIEN 30103 – Structural Theory 2	Regular faculty (4): Bartoline, Nhel Adrian B.; Lumbang, Aldrin; Sibayan, Noli; Singayan, Melvin G. Special/part-time faculty (4): Aniban, Bon Ryan; Baylon, Michael; Lictaoa, Crispin S.; Mazo, Ryan Maynard
CIEN 30162 – Matrix Analysis of Structures	Regular faculty (3): Lumbang, Aldrin; Sibayan, Noli; Singayan, Melvin G. Special/part-time faculty (4): Baylon, Michael; Canete, Alberto; Cruz, Kwin Juvy; Mazo, Ryan Maynard

COURSES	LIST OF FACULTY THAT CAN HANDLE THE COURSE
CIEN 30183 – Principles of Reinforced Concrete	Regular faculty (3): Lumbang, Aldrin; Sibayan, Noli; Singayan, Melvin G. Special/part-time faculty (6): Aniban, Bon Ryan; Aquino, Jonathan; Canete, Alberto; Felix, Mark Tristan R.; Mascarena, Noel; Trinidad, Manuel Jr., R.
CIEN 30193 – Reinforced Concrete Design	Regular faculty (3): Lumbang, Aldrin; Sibayan, Noli; Singayan, Melvin G. Special/part-time faculty (6): Aniban, Bon Ryan; Aquino, Jonathan; Canete, Alberto; Felix, Mark Tristan R.; Mascarena, Noel; Trinidad, Manuel Jr., R.
CIEN 30171 – Integrative Course 1	Regular faculty (2): Lumbang, Aldrin; Tana, Kenneth Bryan M. Special/part-time faculty (2): Cagampang, Vencint; Mazo, Ryan Maynard
CIEN 30063 – Hydraulics 1	Regular faculty (5): Arrojado, Edna P.; Escarieses, Lady Lyn E.; Lumbang, Aldrin; Poso, Florante Jr. D.; Tana, Kenneth Bryan M. Special/part-time faculty (3): Cagampang, Vencint; Saiyari, Donamel; Vergel, John Manuel
CIEN 30143 – Hydraulics 2	Regular faculty (5): Arrojado, Edna P.; Escarieses, Lady Lyn E.; Lumbang, Aldrin; Poso, Florante Jr. D.; Tana, Kenneth Bryan M. Special/part-time faculty (3): Cagampang, Vencint; Saiyari, Donamel; Vergel, John Manuel
CIEN 30132 – Hydrology	Regular faculty (2): Escarieses, Lady Lyn E.; Poso, Florante Jr. D. Special/part-time faculty (2): Iracta, Rodney James; Vergel, John Manuel
CIEN 30092 – Civil Engineering Research	Regular faculty (3): Escarieses, Lady Lyn E.; Poso, Florante Jr. D.; Tana, Kenneth Bryan M. Special/part-time faculty (2): Saiyari, Donamel; Vergel, John Manuel
CIEN 40012 – On-The-Job Training 1 (300 Hours)	Regular faculty (14): Arrojado, Edna P.; Bartoline, Nhel Adrian B.; BIANES, Joseph Raniel A; Cabornay, Prospero C.; Cruz, Ramir M.; Domingo, Razon C.; Escarieses, Lady Lyn E.; Galicia, Lorenzo; Lumbang, Aldrin; Muhi, Manuel M.; Poso, Florante Jr. D.; Roxas, Ruffa S.; Singayan, Melvin G.; Tana, Kenneth Bryan M. Special/part-time faculty (4): Cagampang, Vencint; Cruz, Kwin Juvy; Mazo, Ryan Maynard; Saiyari, Donamel

COURSES	LIST OF FACULTY THAT CAN HANDLE THE COURSE
CIEN 30212 – CE Project 1	Regular faculty (13): Arrojado, Edna P.; Bartoline, Nhel Adrian B.; Bianes, Joseph Raniel A; Cabornay, Prospero C.; Cruz, Ramir M.; Domingo, Razon C.; Escarises, Lady Lyn E.; Galicia, Lorenzo; Lumbang, Aldrin; Poso, Florante Jr. D.; Roxas, Ruffa S.; Singayan, Melvin G.; Tana, Kenneth Bryan M. Special/part-time faculty (3): Aquino, Jonathan; Bongulto, Manuel Melchor; Saiyari, Donamel
CIEN 30262 – CE Project 2	Regular faculty (13): Arrojado, Edna P.; Bartoline, Nhel Adrian B.; Bianes, Joseph Raniel A; Cabornay, Prospero C.; Cruz, Ramir M.; Domingo, Razon C.; Escarises, Lady Lyn E.; Galicia, Lorenzo; Lumbang, Aldrin; Poso, Florante Jr. D.; Roxas, Ruffa S.; Singayan, Melvin G.; Tana, Kenneth Bryan M. Special/part-time faculty (3): Aquino, Jonathan; Bongulto, Manuel Melchor; Saiyari, Donamel
CIEN 30242 – Foundation Engineering	Regular faculty (3): Arrojado, Edna P.; Sibayan, Noli; Singayan, Melvin G. Special/part-time faculty (5): Aniban, Bon Ryan; Aquino, Jonathan; Baylon, Michael; Camacho, Ivan Karl B.; Guades, Ernesto
CIEN 30152 – CE Law, Ethics and Contracts	Regular faculty (2): Domingo, Razon C.; Tana, Kenneth Bryan M. Special/part-time faculty (3): Bongulto, Manuel Melchor; Castro, Peter; Lictaoa, Crispin S.
CIEN 30293 – Construction Methods and Project Management	Regular faculty (3): Cruz, Ramir M.; Galicia, Lorenzo; Tana, Kenneth Bryan M. Special/part-time faculty (3): Bongulto, Manuel Melchor; Castro, Peter; Lictaoa, Crispin S.
CIEN 30272 – Quantity Surveying	Regular faculty (2): Galicia, Lorenzo; Tana, Kenneth Bryan M. Special/part-time faculty (4): Aniban, Bon Ryan; Cruz, Kwin Juvy; Felix, Mark Tristan R.; Trinidad, Manuel Jr., R.

COURSES	LIST OF FACULTY THAT CAN HANDLE THE COURSE
CIEN 30253 – Principles of Steel Design	Regular faculty (3): Lumbang, Aldrin; Sibayan, Noli; Singayan, Melvin G. Special/part-time faculty (7): Aniban, Bon Ryan; Aquino, Jonathan; Canete, Alberto; Guades, Ernesto; Mascarena, Noel; Mazo, Ryan Maynard; Trinidad, Manuel Jr., R.
CIEN 30282 – Earthquake Engineering	Regular faculty (3): Arrojado, Edna P.; Sibayan, Noli; Singayan, Melvin G. Special/part-time faculty (6): Aniban, Bon Ryan; Aquino, Jonathan; Canete, Alberto; Guades, Ernesto; Mascarena, Noel; Trinidad, Manuel Jr., R.
CIEN 30222 – Timber Design	Regular faculty (3): Arrojado, Edna P.; Sibayan, Noli; Singayan, Melvin G. Special/part-time faculty (6): Aniban, Bon Ryan; Aquino, Jonathan; Canete, Alberto; Guades, Ernesto; Mascarena, Noel; Trinidad, Manuel Jr., R.
CIEN 30311 – CE Fieldtrip	Regular faculty (14): Arrojado, Edna P.; Bartoline, Nhel Adrian B.; Biances, Joseph Raniel A; Cabornay, Prospero C.; Cruz, Ramir M.; Domingo, Razon C.; Escarieses, Lady Lyn E.; Galicia, Lorenzo; Lumbang, Aldrin; Muhi, Manuel M.; Poso, Florante Jr. D.; Roxas, Ruffa S.; Singayan, Melvin G.; Tana, Kenneth Bryan M. Special/part-time faculty (4): Cagampang, Vencint; Cruz, Kwin Juvy; Mazo, Ryan Maynard; Saiyari, Donamel
CIEN 30231 – Integrative Course 2	Regular faculty (2): Lumbang, Aldrin; Tana, Kenneth Bryan M. Special/part-time faculty (3): Cagampang, Vencint; Cruz, Kwin Juvy; Mazo, Ryan Maynard
CIEN 30301 – Integrative Course 3	Regular faculty (2): Lumbang, Aldrin; Tana, Kenneth Bryan M. Special/part-time faculty (3): Cagampang, Vencint; Cruz, Kwin Juvy; Mazo, Ryan Maynard

COURSES	LIST OF FACULTY THAT CAN HANDLE THE COURSE
CIEN 40022 – On-The-Job Training 2 (300 Hours)	Regular faculty (14): Arrojado, Edna P.; Bartoline, Nhel Adrian B.; BIANES, Joseph Raniel A; Cabornay, Prospero C.; Cruz, Ramir M.; Domingo, Razon C.; Escarises, Lady Lyn E.; Galicia, Lorenzo; Lumbang, Aldrin; Muhi, Manuel M.; Poso, Florante Jr. D.; Roxas, Ruffa S.; Singayan, Melvin G.; Tana, Kenneth Bryan M. B. Faculty Workload

Complete ACGS-02 Table 4.2, Faculty Workload Summary, and describe this information in terms of workload expectations or requirements.

The functions of faculty members, as mandated by the University, are instruction, research, and extension service. Time is allocated for academic advising, class consultancy, and other related administrative work. The Civil Engineering Program faculty allocate their time mostly to instruction, research, extension, community outreach services, class advising, and monitoring of students' progress.

Faculty members are hired by the University for teaching positions, appointed to a faculty rank, and directly engaged in learning.

Based on the Faculty Workload Summary (Table 4.4), each faculty member is assigned several courses to handle the semester. The workload reflects the first and second terms of SY 2023-2024, SY 2024-2025, and SY 2025-2026.

Based on the faculty manual, full-time regular/plantilla faculty shall be given 15 hours of teaching load, a maximum of four (4) course preparations, and carry an additional part-time load of not more than 12 hours unless otherwise given prior authorization by the University President due to exceptional circumstances and compensated following existing rules and policies. The provision for overload rate shall be based on the Prime Hourly Teaching Rate (PHTR), as defined in the Position Classification and Compensation Scheme of the Department of Budget and Management (DBM). Teaching load assignments depend on the expertise of faculty members. However, to prevent the exclusivity of courses, which sometimes results in a faculty member's monopoly on content, course offerings with several sections may or may not be limited to a particular faculty member. This teaching distribution will ensure the continuity of faculty members capable of handling the program's course offerings.

Several faculty members devoted less time to the program due to their administrative functions.

The credit hours assigned to a course represent the number of hours per week devoted to lectures or a combination of lecture and laboratory activities. Program activity distribution is based on a 40-hour work week: a full-time faculty member is required to carry a regular teaching load of fifteen (15) hours per week, ten (10) hours advising time, and fifteen (15) hours quasi-teaching schedule, for a total of 40 hours per week. Quasi-teaching includes research, extension, consultation, and similar activities. In the exigency of service to the University, regular faculty members are allowed to handle a part-time/extra load not exceeding twelve (12) units per week.

With respect to work expectations, faculty members are able to communicate the necessary subject-related information to their students. They have their respective advising classes where they devote their time to guide the students while in the program. This academic advising service in the program is provided to monitor students' academic progress.

Moreover, faculty members handling research-related courses will allocate time as research advisers ([Attachment C4-01 – Faculty Manual](#)).

Table 4.4a Faculty Workload Summary for Bachelor of Science in Civil Engineering Program
1st Semester SY 2023 – 2024

Faculty Member	PT or FT	Classes Taught					Program Activity Distribution			% of time Devoted to the Program
		Sem	SY	Course Code	Course Title	Credit Hours	Teaching	Research and Scholarship	Admin / Others

Notes:

1. FT = Full Time or PT = Part Time, at the institution
2. For the academic year for which the self-study is being prepared
3. Program activity distribution should be in percent of effort in the program and should total 100%
4. Indicate sabbatical leave, etc under "Other"
5. For FT: Out of the total time employed at the institution; For PT: % employment with the program

Notes:

1. FT = Full Time or PT = Part Time, at the institution
2. For the academic year for which the self-study is being prepared
3. Program activity distribution should be in percent of effort in the program and should total 100%
4. Indicate sabbatical leave, etc under "Other"
5. For FT: Out of the total time employed at the institution; For PT: % employment with the program

C. Faculty Activities

Discuss the adequacy of the size of the faculty and describe the extent and quality of faculty involvement in interactions with students, monitoring of student progress, student advising and counseling, career guidance referral, university service activities, professional development, and interactions with industrial and professional practitioners, including employers of students. Define or describe the student outcomes addressed by the above-mentioned activities.

Currently, the department has an adequate number of faculty members to support the requirements and delivery of the program. All fundamental and professional courses are offered once a year according to their corresponding semester. Tables 4.5 and 4.6 show the adequacy of the faculty members handling the different specializations offered in the civil engineering program.

Faculty Handling the Specialized Courses

For School Year 2025–2026, the Civil Engineering Department of PUP has a total of 39 faculty members assigned to handle the specialized and professional courses of the program, consisting of 16 full-time and 23 part-time faculty members. This faculty complement reflects the department's diverse range of expertise across the major curricular areas of civil engineering, ensuring that students are provided with qualified instruction in their specialized courses. Based on the distribution of faculty members, Structural Engineering has the highest number with 14 faculty members (4 full-time and 10 part-time), followed by Transportation Engineering with 8 (3 full-time and 5 part-time), Construction and Project Management with 7 (4 full-time and 3 part-time), and both Geotechnical Engineering and Water Resources Engineering with 5 faculty members each. This distribution shows that the department has faculty with varied specializations who are capable of delivering instruction in the technical and professional areas of the civil engineering curriculum.

The faculty members handling these specialized courses play an important role in the attainment of Student Outcomes (SOs). Their expertise allows students to gain strong foundational and advanced knowledge in different fields of civil engineering while developing the competencies expected of future professionals. Faculty members in Structural Engineering help students build competencies in structural analysis, design, and the application of engineering codes and standards. Those in Geotechnical Engineering guide students in understanding soil behavior, site investigation, and foundation design, which are essential in solving engineering problems related to the

ground and subsurface conditions. In Transportation Engineering, faculty members develop students' abilities in traffic analysis, transportation planning, and infrastructure design, while in Water Resources Engineering, students are trained in hydraulics, drainage, water supply systems, and sustainable management of water resources. Meanwhile, faculty members in Construction and Project Management strengthen students' knowledge and skills in project planning, scheduling, costing, contract administration, and decision-making in construction practice.

Through the guidance of faculty members in their respective fields of specialization, students are able to achieve the intended outcomes of the program, particularly in the areas of problem-solving, engineering design, application of standards, use of modern engineering tools, teamwork, communication, and professional responsibility. Faculty members' academic preparation, field experience, and technical competence contribute significantly to the effective delivery of instruction and to the preparation of graduates for professional practice and licensure. It is also important to note that while the specialized and professional civil engineering courses are handled by the Civil Engineering Department, the general education courses are handled by the support departments, while the Engineering Science Department handles the engineering science and foundational courses. This arrangement ensures that students receive a well-rounded education that integrates general education, engineering fundamentals, and specialized professional preparation in civil engineering.

Table 4.5 Adequacy of Qualified Faculty Members to Handle Courses in Different Specialization

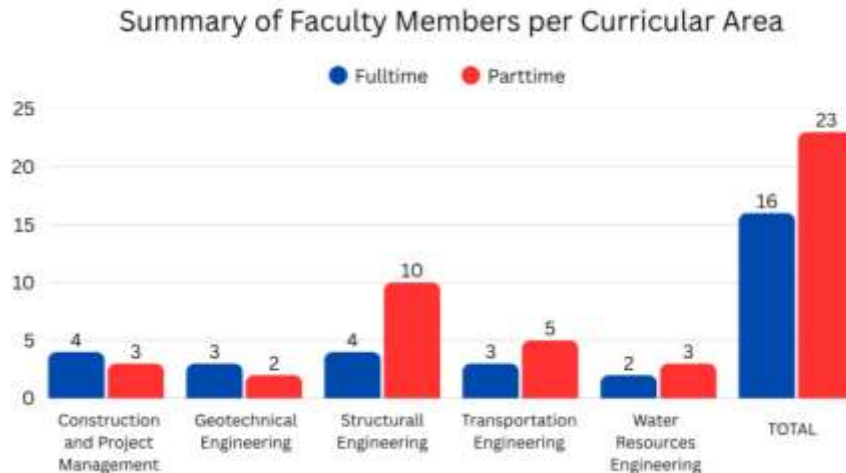

Figure 4.7 Summary of Faculty Members per Curricular Area

Faculty with Designations

Table 4.7 shows that several faculty members of the Civil Engineering Department of PUP have been entrusted with important designations at the department, college, and university levels. These assignments indicate that the department's faculty members are not only involved in classroom instruction but also play key leadership and administrative roles that support the overall operation, development, and quality of the program. Among those with major designations are **Dr. Manuel M. Muhi** as University President; **Engr. Ramir M. Cruz** as Dean of the Institute of Technology, Faculty Sector Representative, and President of the PUP Federated Faculty Association, Inc.; **Engr. Kenneth Bryan M. Tana** as Chairperson of Civil Engineering and Railway Engineering Management and Chairperson of MSCE; **Dr. Florante D. Poso, Jr.** as Research and Extension Coordinator; **Engr. Ruffa S. Roxas** as Laboratory Head; and **Engr. Lorenzo Galicia** as QA and OJT Coordinator. The presence of faculty members in these positions reflects the trust reposed in them by the institution and highlights their capacity to contribute to both academic leadership and institutional management.

These designations are important in the attainment of student outcomes because they directly strengthen the systems that support teaching, learning, and student development. The University President provides institutional leadership, policy direction, and support for academic excellence, resource generation, and faculty and student development. This fosters an environment that enables the Civil Engineering program to advance instructional quality, enhance facilities, and implement relevant academic initiatives. The Department Chairperson plays a central role in curriculum implementation,

faculty supervision, class scheduling, instructional monitoring, and coordination of academic activities. Through this role, the department ensures the effective delivery of courses and their alignment with program outcomes, thereby supporting students in attaining the knowledge, competencies, and professional values expected of civil engineering graduates.

Likewise, the Research and Extension Coordinator contribute to student outcomes by promoting research productivity, innovation, and community engagement. This helps students develop critical thinking, problem-solving skills, social responsibility, and appreciation of the role of engineering in responding to community needs. The Laboratory Head ensures that laboratory facilities, equipment, and activities are properly managed and aligned with course requirements. This is essential in giving students meaningful hands-on experiences that strengthen their technical competence, experimental skills, and ability to apply engineering theories in practice. Meanwhile, the QA and OJT Coordinator plays a vital role in maintaining quality assurance mechanisms and overseeing students' on-the-job training. Through this position, students are better prepared for industry practice and professional exposure, workplace expectations, and professional practice, while the department is also guided in continuously improving its processes based on standards and feedback.

In terms of the department's daily activities, these designations are highly significant because they help ensure that academic and administrative functions are carried out efficiently. The department benefits from stronger leadership, smoother coordination of classes and faculty assignments, better monitoring of instructional delivery, improved research and extension implementation, proper management of laboratories, and more organized quality assurance and internship processes. These responsibilities reduce operational gaps and allow the department to function in a more systematic and responsive manner. Overall, the faculty members with designations contribute substantially not only to the day-to-day management of the Civil Engineering Department but also to the achievement of student outcomes by ensuring that students receive instruction from qualified faculty members, relevant learning experiences, effective support systems, and opportunities for professional growth ([Attachment C4-04 – Special Order on Faculty Designations](#)).

Table 4.7 Faculty Members with Designations

No.	Name of Faculty	Designation
1	Dr. Manuel M. Muhi	University President
2	Engr. Kenneth Bryan M. Tana	Chairperson, Civil Engineering Chairperson, Civil Engineering and Railway Engineering Management Technology Program Chair, MSCE and MEggRESM
3	Dr. Florante D. Poso, Jr.	Research and Extension Coordinator
4	Engr. Ruffa S. Roxas	Laboratory Head
5	Engr. Lorenzo Galicia	QA and OJT Coordinator
6	Engr. Ramir M. Cruz	Dean, Institute of Technology Member, Faculty Sector Representative President, PUP Federated Faculty Association, Inc.

Faculty as Committee Members

To foster participatory governance within the University, various committees are created. These committees may formulate plans and policies, implement programs and projects, or review/evaluate actions and decisions. Whatever the goals for which the committees are created, the University promotes shared governance by decentralizing administrative responsibilities by involving the faculty members in the many aspects of running the affairs of the University. A faculty member may be tasked to serve on university standing committees. In addition, several working and university officials may create policy-making committees and task forces.

For SY 2025–2026, the Civil Engineering Department of PUP demonstrates active faculty involvement not only in instruction but also in institutional service through

committee and special assignments issued by Special Order. Table 4.8 shows that several faculty members were designated to serve in various committees and task groups, including the Center of Excellence Application Task Force, Departmental Examination Test Administration, Local Task Force for Level 3 BSREM AACUP Re-accreditation, PUP Test Administration, the University-wide Professional Chairholder Lecture Series, and the College Ethics Review Committee. These assignments show that the faculty members of the department are entrusted with responsibilities that extend beyond classroom teaching and contribute to the academic, administrative, and quality assurance functions of the department, the college, and the university.

These committee assignments are beneficial to the department because they strengthen its daily operations and promote a culture of professionalism, accountability, and continuous improvement. Faculty members assigned as test administrators help ensure the orderly, fair, and credible conduct of departmental and university examinations. This role supports sound assessment practices and provides reliable data on student performance, which informs instructional improvement. Those involved in the AACUP re-accreditation task force contribute to documentation, compliance, program review, and quality monitoring, which are essential in maintaining academic standards and institutional credibility. Faculty participation in the Center of Excellence Application Task Force also helps the department align its programs, policies, and practices with higher standards of quality, excellence, and competitiveness. Meanwhile, participation in the Professional Chairholder Lecture Series broadens academic and professional engagement by supporting activities that expose students and faculty to current trends, expert knowledge, and scholarly discourse. The College Ethics Review Committee likewise promotes integrity and ethical standards in research and academic undertakings, which are vital in a higher education environment.

These committee memberships also contribute significantly to the attainment of student outcomes. When faculty members are actively engaged in quality assurance, assessment, ethics, research-related activities, and academic program development, they help create a learning environment that is more organized, responsive, and outcomes-based. The work of these committees supports the development of better instructional systems, more valid assessment practices, stronger academic support mechanisms, and improved program delivery. As a result, students benefit from clearer academic standards, more meaningful learning experiences, stronger exposure to professional practice, and a program that is continuously being improved based on institutional requirements and

quality benchmarks. Such involvement ultimately helps students attain the expected outcomes of the Civil Engineering program, including technical competence, critical thinking, ethical responsibility, communication skills, and readiness for professional practice.

Overall, the special assignments given to faculty members of the Civil Engineering Department reflect their important role in both governance and academic support. Their participation in committees through Special Orders helps ensure the smooth implementation of departmental activities, strengthens coordination with college- and university-level initiatives, and supports the department's pursuit of quality education. In this way, committee involvement becomes an important extension of faculty work, one that directly benefits the department and indirectly but meaningfully contributes to student learning and the successful attainment of program outcomes ([Attachment C4-05 – Special Order on Committee Assignments](#)).

Faculty Attending Trainings

The department sends faculty members to attend training programs, workshops, and conferences relevant to the profession and delivery of the BSCE Program. This ensures faculty members are updated on issues and trends affecting the work. The training also provides them with the necessary skills for effectively delivering courses.

Faculty members are sent every year to the PICE National Convention. The gathering provides faculty members with an opportunity to interact with different delegates, which may lead to additional perspectives on the practice of the profession. The interaction offers a network to companies that may hire program graduates ([Attachment C4-06 – Certificates of Faculty Trainings - 2025](#)).

Cañete, Alberto C.	ASEP International Convention “Mitigating the Effects of Natural Disasters”, Association of Structural Engineers, the 5th Biennial International Structural Conference	May 29, 1992	
	ASEP International Convention “Trends in Structural Engineering” Association of Structural Engineers of the Philippines, Philippine Plaza	May 27, 1988	

Faculty Member	Title of Training / Seminar / Conference	Date	Sponsoring Agency
	ASEP International Convention” Structural Engineering Challenges in the 90’s”, Association of Structural Engineers, Westin Philippine Plaza	May 26, 1990	
	Citation Award, DPWH, Bureau of Design	December 21, 1989	
	Computer Programming Techniques (FORTRAN) as Coordinator – BOD, MPWH, June 1 –	July 17, 1987	
	Computer-Based Design of Building Training and Workshop	January 27-30 and February 3-6, 2025	
	Consultative Meeting on the Evaluation and Monitoring of Engineering and Architectural Projects in State Colleges and University, Science Teacher Training Center, UP-Diliman, Quezon City	November 25, 1991	
	Discussion on “Issues and Concern in Higher Education”, NIUFE	July 30, 1991	
	Lecture on “Computer Aided of RC Structural Elements”, 5th Year Architectural Class VR-1	January 18, 1990	Mapua Institute of Technology
	Managerial Capability Building Workshop, T.U.P., Taguig	October 7 –11, 1991	
	National Convention on the Theme: “Engineering Growth Through Integration of Resources”, P.A.T.E., SFTC, UPISMED, Diliman, Quezon City	July 12 – 13, 1990	
	Seminar on Bridge Design	October 1989	Technological Institute of the Philippines
	Seminar on Bridge Design, Pamantasan ng Araullo, Cabanatuan City	December 10, 1987	
	Seminar on Bridges with the Theme: “Towards New Challenges and Greater Height”	April 27, 1990	PICE Makati Chapter
	Seminar on Consultancy Services on Road Engineering Design – Part I, SPAC and REAP, Philippine Social Science Auditorium, Diliman, Quezon City	July 28, 1990	

Faculty Member	Title of Training / Seminar / Conference	Date	Sponsoring Agency
	Seminar on Earthquake Engineering, PICE Camarines Sur Chapter, Villa Caceres Hotel, Magsaysay Ave., Naga City	June 10 – 11, 1999	
	Seminar on Engineering Seismology, DPWH, held in Function Room, 5th Floor DPWH Building, Bonifacio Drive, Port Area Manila	December 9, 1994	
	Seminar on Instructional Techniques – MDS	February 3, 1984	MPWH Central Office January 16 –
	Seminar on Load and Resistance Factor Design Method (Steel Design), PICE Camarines Sur Chapter, Villa Caceres Hotel, Magsaysay Ave., Naga City	August 26 – 27, 1999	
	Seminar on Structural Analysis & Design with Computer Applications, PICE-Ilocos Norte Laoag City Chapter, Media Center Divine Word College of Laoag	October 22 – 23, 1997	
	Seminar on “Bridge Design Software: MDS-ICC Software” MDS-ICC	June 19 – 17, 23, 1989	DPWH Central Office
	Seminar on “CE and the 90’s, A Decade of New Visions”, Technological Institute of the Philippines, P. Casal Campus	March 21, 1990	
	Seminar on “Computer Applications in Engineering and Construction”	September 29, 1990	PICE Metropolitan Theatre
	Seminar on “Concrete Design and Construction” as Resource Speaker, PICE Camarines Sur Chapter, Instructional Media Center AMS Bldg., University of Nueva Caceres, Naga City	July 23 – 24, 1998	
	Seminar on “Earthquake and Seismic Analysis and Computer Application in Design and Construction”, LNM-MLQU, Quiapo Manila	December 8, 1990	
	Seminar on “Highway and Bridge Construction”, UST College of Engineering	March 11, 1989	Department of Civil Engineering
	Seminar on “Information Technology Makes Sense”, TACT '92, PASUC	January 15, 1992	
	Seminar on “New Dimensions in Civil Engineering”, PICE, Philippine Columbian	November 24, 1990	

Faculty Member	Title of Training / Seminar / Conference	Date	Sponsoring Agency
	Seminar on “Overview of Structural Design” as Resource Speaker – N.E.C.	April 29, 1989	U.P. (PICE Quezon City Chapter)
	Seminar on “Overview of Structural Design”, N.E.C., U.P.	April 29, 1989	(PICE Quezon City Chapter)
	Seminars on “Bridge Design and Construction” PICE First Quezon City Chapter	February 24, 1990	
	Seminars “Latest Technology on Design and Construction of Roads, Building and Bridges”, Philippine Institute of Civil Engineers, National University, Students Chapter	February 27, 1987	
	Symposium of Bridge Design and Construction University of Sto. Tomas	March 11, 1989	
	Symposium on “Modern Trends in Civil Engineering”, PICE, Technological Institute of the Philippines, Quiapo	September 3, 1988	
	Technical Seminar, Resource Speaker, PICE-Oriental Mindoro Chapter, Polytechnic College of Calapan, Calapan City	October 1 – 3, 1998	
	Technical Training on Bridge and Design Louie Berger International, October 24 –	December 2, 1983	
	“Computer-Aided Design of Bridge Structures” International Convention” Trend in Structural Engineers of the Philippines	May 27 – 28, 1998

	Steel Construction Seminar 2004	November 25, 2004	the Japan Society of Steel Construction and Japan Iron and Steel Federation
	the Polytechnic University of the Philippines in partnership with CHED, DOST, and NRCP, held at Subic Bay Travelers Hotel and Event Center	October 3-4, 2013	
	TREEDC Renewable Energy Forum CUM MOA Signing with MAAP and other Partner Institutions and PAEPI National Planning	February 27, 2014	the Maritime Academy of Asia and the Pacific in collaboration with the Philippine Association of Extension Program Implementers, Inc.

Faculty Member	Title of Training / Seminar / Conference	Date	Sponsoring Agency
	Workshop on Building Institutional Collaborations of Philippine Higher Education Institutions on Research and Graduate Sandwich Programs	November 21-22, 2013	the Commission on Higher Education in partnership with Development of the Philippines and University of the Philippines
	Workshop on Earthquake Impact Reduction Study for Metropolitan Manila	August 26, 2003	the Metropolitan Manila Development Authority and PHIVOLCS
	Workshop on the APEC Engineer Registry Application Processes	November 18, 2011	the Commission on Higher Education
Pantaleon, Anthony R.	4th GENERATION LRV - LRT LINE 1 OPERATIONS TRAINING (THEORETICAL) COURSE	September 2021	Mitsubishi Corporation
	6th INTERNATIONAL CONFERENCE ON SUSTAINABLE PROACTIVE ADVOCACIES IN CIVIL ENGINEERING	August 2019	Association of Structural Engineers of the Philippines (ASEP)
	ACONCEPT 2016: SMART AND ROBUST CONCRETE STRUCTURES	May 2016	Association of Structural Engineers of the Philippines (ASEP)
	ASIA-PACIFIC RAILWAY INNOVATIONS FORUM 2019	May 2019	Asian Development Bank (ADB)
	DISASTER, MITIGATION, PREPAREDNESS AND RESPONSE PROGRAM	April 2019	Association of Structural Engineers of the Philippines (ASEP)
	DISPUTE RESOLUTION IN PPP PROJECTS	June 2021	PPP Center
	LECTURES ON BASIC EARTHQUAKE ENGINEERING	November 2013	ARUP Internal Training
	LECTURES ON EARTHQUAKE ENGINEERING	May 2013	Association of Structural Engineers of the Philippines (ASEP) / Philippine Institute of Civil Engineers (PICE)
	LECTURES ON POST TENSIONED CONCRETE DESIGN	March 2015	Freyssinet
	LECTURES ON STRUCTURAL ASSESSMENT (ASCE 31 TIER 1)	March 2014	ARUP Internal Training
	PATHWAY TO RESILIENCE	July 2021	National Disaster Risk Reduction and Management Council (NDRRMC)

Faculty Member	Title of Training / Seminar / Conference	Date	Sponsoring Agency
	POST-EARTHQUAKE ASSESSMENT OF BUILDINGS AND BRIDGES	November 2019	RBRA
	PROJECT MANAGER'S TRAINING ON DEVELOPING PPP TENDER DOCUMENTS	August 2021	PPP Center
	RAILWAY ENGINEERING: AN INTEGRAL APPROACH	June 2018	edX-TU Delft
	REFRESHER COURSE ON LRT1 EXISTING SIGNALING, TRACK, AND TRACTION POWER SYSTEM	December 2019	Light Rail Manila Corporation (LRMC)
	REFRESHER COURSE ON NORMAL OPERATIONS, MANAGEMENT OF INCIDENTS, AND DEGRADED OPERATION	December 2019	Light Rail Manila Corporation (LRMC)
	RESEARCH ETHICS	July 2021	Korea Institute of Human Resources Development in Science and Technology
	SEMINAR ON COMPUTATIONAL GEOTECHNICS	August 2018	Philippine Society for Soil Mechanics and Geotechnical Engineering (PSSMGE)
	STRUCTURAL HEALTH MONITORING FOR BUILDINGS AND BRIDGES	October 2018	Philippine Institute of Civil Engineers (PICE)
	TECHNICAL SEMINAR ON STRUCTURAL INVESTIGATION, ENG'G EVALUATION, AND RETROFITTING METHODS	October 2015	Association of Structural Engineers of the Philippines (ASEP)
	WEBINAR ON CONTRACTS AND PROCUREMENT MANAGEMENT	July 2021	Polytechnic University of the Philippines (PUP)
Poso, Florante D. Jr.	2022 PICE MID-YEAR NATIONAL CONVENTION AND TECHNICAL CONFERENCE, organized PHILIPPINE INSTITUTE OF CIVIL ENGINEERS INC, SM City General Santos	June 16–18, 2022	
	2024 PICE MID-YEAR CONVENTION AND TECHNICAL CONFERENCE, organized PHILIPPINE INSTITUTE OF CIVIL ENGINEERS INC, Hybrid Meeting Application	June 13–15, 2024

Saiyari, Donamel M.	1-3pm. Resource Speaker and Poster Presentation Judge, TransConverge 2025: PITCHPOINT, Innovations in Motions in Civil Engineering and Railway Engineering Management	May 31, 2025	Polytechnic University of the Philippines
	2:00 pm – 4:00 pm Participant, Briefing on Strategic Knowledge Management for Top ITDI Executives, Almanzor Hall, DOST Complex, Bicutan, Taguig City	November 22, 2022	
	4-5:30 pm Moderator, Value Engineering Lecture Series, Society of American Value Engineers (SAVE International)	March 25, 2022	
	4-5:30 pm Participant, Economic and Finance for IFRM, Asian Development Bank	March 30, 2022	
	5 pm Participant, Kaizen Six Sigma Training Webinar, Kaizen Management Systems, Incorporated, June 7 to 10, 2022, 8am to 12nn Resource Speaker, ImmerCE: Absorbing the Knowledge about Water Resources	April 29, 2022	Civil Engineering Department of Adamson University

Faculty Member	Title of Training / Seminar / Conference	Date	Sponsoring Agency
	5:30 pm Participant, Readiness of Philippine Cities to Smart City Development	March 17, 2022	Philippine Institute for Development Studies
	6-8pm Participant, Basic Operation of Teledyne API T300 Carbon Monoxide (CO) Analyzer, DOST Compound, Taguig City	March 28, 2023	
	8:00 am – 6:00 pm. Participant, High Containment (BSL3 and BSL4) Design Workshop, ADMATEL Library	July 11-14, 2023	DOST-ITDI
	8am – 5pm Participant, Work Attitude Values Enhancement (WAVE) Seminar, DOST-ITDI KM Stica Bicutan, Taguig City	May 2, 2025	
	9 am - 6 pm Participant, 2022 PICE National Convention, “Civil Engineering and its Specializations: Responding to our New Normal and Foreseeing our Future”, Virtual Attendee	November 11-12, 2022	
	am – 12nn. Participant, Department of Science & Technology-Industrial Technology Development Institute (DOST-ITDI) Biorisk Management Workshop, Manila Marriott Hotel	March 18-21, 2025	
	Best Paper Award, 6th Regional Conference on Campus Sustainability 2019, National Institute of Technology, Fukushima College, Japan	March 26-27, 2019	
	Conservation, Kaohsiung, Taiwan	May 8-9, 2015	
	Design Thinking for Innovators	April 29, 2023	Philippine Society of Engineering Education
	DONAMEL M. SAIYARI Page 23 of 33 Resource Speaker, Philippine Institute of Civil Engineers – Student Chapter will be having its civil engineering webinar series. Latest Trends in Water Quality Monitoring	June 27, 2021	Philippine Institute of Civil Engineers – Manuel L. Quezon University
	DOST Compound Participant, Department of Science & Technology, RA 12009 New Government Procurement Act, Titatium Hall, MIRDC	October 6-8, 2025	DOST Compound
	Expert Panelist, UBIAN Legacy: Search for the Best Paper with the theme: Strengthening Our Commitment to Sustainable Development Goals”	May 2, 2025	University of Batangas

Faculty Member	Title of Training / Seminar / Conference	Date	Sponsoring Agency
	Facilitator – OZ AVR, Building Information Modeling (BIM) Symposium	February 15, 2018	Adamson University
	Forum Speaker, Translating Research Findings Into Policy, Practice, and Community Action, 3rd NU Congress Co-Creating the Future: Research-Government-Community Partnerships for Sustainable Nation-Building, National University, Henry Sy Sr. Auditorium 7th Floor SM Prime Headquarters, MOA Square, Pasay City	November 29, 2025	
	International Conference on Environmental Quality Concern, Control and Conservation, Taichung & Kaohsiung, Taiwan	May 4-6, 2023	
	Keynote Speaker and Session Chair, 2019 International Conference on Environmental Quality Concern, Control and Conservation	May 23-25, 2019	
	Keynote Speaker and Session Chair, Engineering approaches to toxigenic cyanobacteria control for enhanced water resource management, International Conference of Sustainable Science and Technology 2025: Green Solutions for Climate Change Adaptation, Nguyen Tat Thanh University, Ho Chi Minh City, Vietnam, October 31	November 1, 2025	
	Keynote Speaker, 2nd International Conference on Civil, Architecture, Environmental Engineering and Technology, “Sustainable Infrastructures: Integrating Innovation in Civil, Environmental, and Technological Landscapes, Lyceum of the Philippines University, General Trias, Cavite	December 5, 2025	
	Learning Session Speaker, Translating Research Findings into Policy, Practice, and Community Action, National University, Henry Sy Sr. Auditorium 7th Floor SM Prime Headquarters, MOA Square, Pasay City	November 29, 2025	

Faculty Member	Title of Training / Seminar / Conference	Date	Sponsoring Agency
	Moderator, 2020 PICE Webinar on Project Management and Construction Engineering, "Construction Management Plan for A 17 Kilometer Drainage System (Flood Control Structure) For A Rail Project in Central Luzon"	May 7, 2020	
	Moderator, 2020 PICE Webinar on Project Management and Construction Engineering, "Project Management and Construction Engineering - Risks Management and Conflict Management in Construction"	June 17, 2020	
	Moderator, 2021 PICE Webinar on Project Management and Construction Engineering, Infrastructure Asset Management System "Back to Basics in Foreseeing Our Futures in Civil Engineering"	November 27, 2021	
	Moderator, Industry-Academe Webinar Series 1.0, Philippine Society of Engineering Education	September 25, 2021	
	Moderator, National Science and Technology Week, Life Cycle Analysis of Non Environmentally Accepted Products, World Trade Center, Pasay City	November 23, 2022	
	Moderator, Teaching and Learning Webinar Series 2.0, Philippine Society of Engineering Education	October 9, 2021	
	Moderator, Teaching and Learning Webinar Series 3.0, Philippine Society of Engineering Education	March 12, 2022	
	Moderator, Towards and Integration of Artificial Intelligence and Additive Human Center Design Engineering Education, Philippine Society of Engineering Education	April 1, 2023	
	Moderator, Virology and Vaccine Institute of the Philippines High Containment Laboratory (BSL 3 and BSL4) Online Webinar Series, Industrial Technology Development Institute, Department of Science and Technology, May 2, 8, 15, 22 & 29, 2023 7am – 10am	May 2, 8, 15, 22 and 29, 2023	Industrial Technology Development Institute, Department of Science and Technology
	National Assembly, St. Scholastica's College	September 17, 2021	

Faculty Member	Title of Training / Seminar / Conference	Date	Sponsoring Agency
	nn Participant, Public Service Community Planning (PSCP) Training, Office of Civil Defense, via online training	February 8-9, 2023	
	Oral Presentation Presenter – Outstanding Presenter, Overview of the Current Operating Practices of Leather Tanneries in Meycauayan, Bulacan, Philippines, 2023 International Conference on Environmental Quality Concern, Control and Conservation, Taichung & Kaohsiung, Taiwan	May 4-6, 2023	
	Organizer – OZ 104, Basic Carpentry Workshop	May 13, 2017	Adamson University
	OZ 202, Basic Construction Safety Seminar	April 5-6, 2018	Adamson University
	OZ AVR, Optimum: Exhibits and Symposiums	November 16, 2017	Adamson University
	OZ AVR, WasCERbau: Heightening the knowledge in Water Resources Engineering	January 22, 2018	Adamson University
	Participant, 1st Science and Technology Impact Assessment Conference held on 24	25 August 2023	
	Participant, 2-day Workshop Holding Responsible and Productive Research Collaborations, Gryphon Scientific, Centara Grand at Central Plaza Ladprao, Thailand	February 2-3, 2023	
	Participant, 2012 CEAP National Convention: “Remember with Gratitude, Renew with Fervor, Set Forth with Faith”, SMX Convention, Pasay City	August 29-31, 2012	
	Participant, 2013 International Conference on Sustainable Environmental Technologies, CCP Complex, Manila	September 30, 2013	
	Participant, 2013 PICE National Midyear Convention “PICE Gearing for Cross Border Practice”, Subic Bay, Freeport Zone, Olongapo City	June 27-29, 2013	
	Participant, 2015 Sustainable Soil and Groundwater Protection and Remediation Workshop, National Cheng Kung University, Tainan City, Taiwan, August 23 to	September 1, 2015	

Faculty Member	Title of Training / Seminar / Conference	Date	Sponsoring Agency
	Participant, 2016 Southeast Asia International Joint-Research and Training Program International Workshop on Sustainable Soil and Groundwater Protection and Remediation, National Cheng Kung University, Tainan City, Taiwan, September 24	October 2, 2016	
	Participant, 2017 Southeast Asia International Joint-Research and Training Program International Workshop on Sustainable Soil and Groundwater Protection and Remediation, National Cheng Kung University, Tainan City, Taiwan	August 19-27, 2017	
	Participant, 2018 PICE National Midyear Convention “Building Tomorrow Today”, Iloilo Convention Center (Main Avenue), Megaworld Boulevard, Mandurriao, Iloilo City	June 13-15, 2018	
	Participant, 2019 PICE National Midyear Convention “Building Tomorrow Today”, 3rd Floor, SM Lanang Premier, J. P. Laurel Avenue, Davao City	June 13-15, 2019	
	Participant, 2022 International Conference on Microscopy and Microanalysis (ICMM)	2022	
	Participant, 2025 International Workshop on Emerging Contaminants Characterization and Remedial Practice, National Cheng Kung University, Tainan City, Taiwan	December 2-3, 2025	
	Participant, 2nd Grand Academic Conference, Century Park Hotel, Malate, Manila	August 16-17, 2012	
	Participant, 3rd Engineering Research Development for Technology (ERDT) Congress, Science and Technology for Disaster Preparedness and Resiliency, SMX Convention Center, Pasay City	July 25, 2014	
	Participant, A country-scale view on IFRM and applications of global data sets, Asian Development Bank	March 9, 2022	
	Participant, Academic Linkage with Chung Ang University, Seoul, Korea	September 12 – 14, 2013	

Faculty Member	Title of Training / Seminar / Conference	Date	Sponsoring Agency
	Participant, Application of an IFRM approach at a River Basin Level, Asian Development Bank	March 15, 2022	
	Participant, ARCGIS Desktop I: Getting Started with GIS, Geodata Training Room, 19th Floor, Strata 100 Bldg. F. Ortigas, Jr. Road, 1605 Pasig City, Metro Manila, Philippines	October 24-25, 2011	
	Participant, ASEAN International Environmental Seminar : Cooperation between ASEAN countries and Japan for "Carbon-free Society and Resource Circulation" through Industry Government-Academia collaboration, ASEAN International Center for Environmental Technology Transfer, via online seminar	February 7, 2023	
	Participant, Awareness Training on ISO 14001:2015 Environmental Management System, DOST Complex, Bicutan, Taguig City	December 3, 2022	
	Participant, Basic Laboratory Biosafety and Biosecurity Course, BRAP, Kimberly Hotel, Manila	April 8-12, 2024	
	Participant, Basic Occupational Safety and Health Course, OZ Building	October 22-26, 2012	Adamson University
	Participant, Basic Operation and Maintenance of PM Mass Monitor Reference Analyzer, Waste Management Section, Environment and Biotechnology Division Building, DOST-ITDI, DOST Compound, General Santos Avenue, Bicutan, Taguig City	December 13, 2023	
	Participant, Biosafety Laboratories: An Engineering Perspective, EBD Conference Room, DOST-ITDI, Bicutan, Taguig City	March 18, 2024	
	Participant, Biosafety Laboratory & General Laboratory Design, Construction, Testing & Commissioning – A Case Study for the Virology Institute of the Philippines, EBD Conference Room, DOST-ITDI, DOST Compound, Taguig City	September 24, 2025	

Faculty Member	Title of Training / Seminar / Conference	Date	Sponsoring Agency
	Participant, BRAP 6th Annual Convention and 4th International Forum, Century Park Hotel, Malate, Manila	July 27-28, 2023	
	Participant, BRM Operations/Maintenance & Risk Assessment Workshop for the Philippines Department of Science and Technology by the US Defense Threat Reduction Agency: Biological Threat Reduction Program, Marriot Hotel, Pasay City	July 17-19, 2023	
	Participant, Chemical, Biological and Missile/Rocket Weapon for Mass Destruction and Dual-Use Commodities Basic Courses, The US Defense Threat Reduction Agency Cooperative Threat Reduction Agency Cooperative Threat Reduction, in Cooperation with the Government of the Philippines	April 27-28, 2023	
	Participant, Chemical, Biological, Radiological and Nuclear Summit 2024, Interpol (International Criminal Police Organization), Makati Diamond Residences	December 17, 2024	
	Participant, Coastal Flood Risk Assessment, Asian Development Bank	March 22, 2022	
	Participant, Conducting Accreditation Reviews According to CASEE, Room 405-406 National Engineering Center, UP Diliman	September 18, 2012	
	Participant, Conference on the Collaborative Verification for the Environmental Technology Verification Program, Taiwan Ministry of Environment, Taipei, Taiwan	August 29, 2024	
	Participant, Construction Management and Administration, OZ Conf. Room	March 11, 2011	Adamson University
	Participant, Consultation and Training on OBE Assessment	August 24, 2013	Adamson University
	Participant, Consultation for the Producer Responsibility Act of 2022, Seda Vertis North	November 3, 2022	
	Participant, Conversational English Workshop, BA Multi-Media Center, St. Therese Bldg.	December 2, 2010	

Faculty Member	Title of Training / Seminar / Conference	Date	Sponsoring Agency
	Participant, Customer Discovery, Industrial Technology Development Institute	March 16, 2023	Department of Science and Technology
	Participant, Defense Threat Reduction Agency-Sandia BRAP-DOST Workshop Series (May 30, June 6 & 20, July 11 & 18, August 8, 16 & 27)	September 5, 2025	
	Participant, Department of Science & Technology-Industrial Technology Development Institute (DOST-ITDI) Biorisk Management Workshop #2, Manila Marriott Hotel	July 14-17 2025	
	Participant, Department of Science & Technology-Industrial Technology Development Institute (DOST-ITDI) Management and Leadership Workshop, Manila Marriott Hotel	March 17, 2025	
	Participant, Design for Sustainability: Optimum Material Selection, OZ Audio Visual Room	February 27, 2013	Adamson University
	Participant, Detection and Quantification of Microplastics in Manila Bay and Pasig River Using Visual Identification and FTIR Imaging, International Conference of Sustainable Science and Technology 2025: Green Solutions for Climate Change Adaptation, Nguyen Tat Thanh University, Ho Chi Minh City, Vietnam, October 31	November 1, 2025	
	Participant, Digitalising Philippines' Construction For Greater Productivity, Build Tech Asia Regional Roadshow 11th Edition	January 25, 2022	
	Participant, Divisional Training Workshop on Harmonized Gender and Development Guidelines (HGDG)	April 14-15, 2025	Department of Science & Technology-Industrial Technology Development Institute Gender and Development Focal Point System (GFPS)
	Participant, DOST Advanced Workshop, Sandia National Laboratory, Marriott Hotel Manila	July 22-26, 2024	

Faculty Member	Title of Training / Seminar / Conference	Date	Sponsoring Agency
	Participant, Engineering Research and Development for Technology (ERDT) Congress, PICC, Manila	June 14, 2013	
	Participant, Enhancing Instruction and Improving Quality of Assessment, OZ-Audio Visual Room	September 27, 2010	Adamson University
	Participant, Eutrophic Lake Dynamics: Hydrology and Hydrodynamics of Laguna De Bay and their Role in Cyanobacterial Bloom Formation, International Conference of Sustainable Science and Technology 2025: Green Solutions for Climate Change Adaptation, Nguyen Tat Thanh University, Ho Chi Minh City, Vietnam, October 31	November 1, 2025	
	Participant, Faculty Development: Advanced Mathematics Lecture	August 2009	Mapua Institute of Technology
	Participant, Forum on Respirable Air Particulate Pollution Sources in Metro Manila and Role of NCR Airshed Governing Board, Great Eastern Hotel, Quezon Avenue, Quezon City	December 12, 2016	
	Participant, Geological Hazards of Aggressive Development Projects, their contribution to Climate Change, Lay Formation Center, San Carlos Pastoral Complex, Makati City	January 31, 2014	
	Participant, High-Rise Building Fire Safety Seminar, Ortigas Center, Pasig City	February 26, 2009	
	Participant, How Antifouling Works, YSI Webinar	May 19, 2020	
	Participant, How Dissolved Oxygen Sensor Work, YSI Webinar	June 16, 2020	
	Participant, Implementing Outcome Engineering Education, OZ Audio Visual Room	March 16, 2012	Adamson University
	Participant, Improving Access to Water Resources, Water Supply and Sanitation, Union of Local Authorities of the Philippines, Philippine Water Partnership and FutureWater Asia	January 21, 2021	
	Participant, In-depth Training Workshop on Gender and Analysis and Tools, DOST-ITDI	June 5, 2024	DOST Complex

Faculty Member	Title of Training / Seminar / Conference	Date	Sponsoring Agency
	Participant, In-person Training Course on Handling of Arsenic, Cadmium, Total Chromium, Lead and Total Mercury Chemicals and Chemical Compounds, STD Conference Room, DOST-ITDI	April 18, 2024	DOST Complex
	Participant, Industrial Technology Development Institute Gender and Development (GAD) Annual Planning, Almanzor Hall	November 14, 2022	Department of Science Technology
	Participant, International Conference on Civil Engineering Education, De La Salle University, Manila	November 9-10, 2012	
	Participant, International Network for Water and Ecosystem in Paddy Fields Symposium 2017 Philippines “Strengthening Global Partnership for Sustainable and Climate Resilient Irrigation and Drainage Systems in Paddy Fields”, Quest Hotel Clark Special Economic Zone, Angeles City, Pampanga, Philippines, Tour to Casecnan Irrigation Systems and Banaue Rice Terraces	November 21-25, 2017	
	Participant, Introduction to Intellectual Property, IPOPHL Multipurpose Hall, G/F, Intellectual Property Center, Intellectual Property Office of the Philippines (IPOPHL), 28 Upper McKinley Road, McKinley Hill Town Center, Fort Bonifacio, Taguig City 1634, Philippines	July 2-3, 2014	
	Participant, Introduction to Intellectual Property, OZ Conference Room, Adamson University, Manila	January 10, 2012	
	Participant, Knowledge Programming Workshop, Almanzor Hall, DOST Complex, Bicutan, Taguig City	January 25, 2023	
	Participant, Laboratory Safety, Health & Environment Training, Chemical Engineering Laboratory	June 20, 2013	Adamson University
	Participant, Leading Engineering Program Accreditation, Crosswinds Hotel, Tagaytay City	September 22-23, 2012	
	Participant, Managing Intellectual Property Assets and Research Publication in a Refereed International Journal, OZ-AVR	February 10, 2011	Adamson University

Faculty Member	Title of Training / Seminar / Conference	Date	Sponsoring Agency
	Participant, Mapping of Per- and Polyfluoroalkyl Substances in Microplastics in Soil Along Marikina River Using Quantum Geographic Information System, International Conference of Sustainable Science and Technology 2025: Green Solutions for Climate Change Adaptation, Nguyen Tat Thanh University, Ho Chi Minh City, Vietnam	October 31 November 1, 2025	
	Participant, NATURAL DISASTERS IN SOUTHEAST ASIA: Disaster Risk Information towards Hazard Mitigation and Risk Reduction, CECOPHIL and Philippine Society for Soil Mechanics and Geotechnical Engineering	April 18, 2022	
	Participant, New Government Procurement Act (Republic Act 12009), Titanium Hall, MIRDC Building	October 6-8, 2025	DOST Compound
	Participant, Nurture the Ipo Watershed and consequently Instill Awareness on the Importance of a Healthy Ecosystem in Sustaining Efforts to Mitigate the Adverse Effects of Climate Change, Norzagaray, Bulacan	January 18, 2014	
	Participant, Offshore Wind Ports 102 Workshop with British Embassy Manila, Global Wind Energy Council and Wind Energy Council and Wind Energy Developers Association of the Philippines, New World Hotel Makati	July 24, 2024	
	Participant, Orientation on SAGE Research Method an Online References, LM Library Conference Room	September 22, 2017	Adamson University
	Participant, Outlook for IFRM and Ways Forward, Asian Development Bank	April 5, 2022	
	Participant, Philippine Association for Teacher Education (PATE), Challenges of Globalization in Engineering Education, Citylight Hotel, Baguio City	September 26-28, 2013	
	Participant, Philippine Institute of Civil Engineers 38th National Convention, 75 Year of PICE: Great Milestones in the Civil Engineering Profession, Mandaue City, Cebu	November 24, 2012	

Faculty Member	Title of Training / Seminar / Conference	Date	Sponsoring Agency
	Participant, Philippine Institute of Microscopists, Inc. (MICROSPHIL), Annual Scientific Conference and General Assembly, DOST Compound, General Santos Avenue, Taguig City, Metro Manila	August 1-2, 2014	
	Participant, Philippine Technological Council-Certification and Accreditation System for Engineering Education (PTC- CASEE) 101 and 103	December 6, 2012	Adamson University
	Participant, Philippines Department of Science and Technology (DOST) Facility Risk Assessment Workshop, Marriott Hotel	November 18-22, 2024	
	Participant, Physical Characterization of Microplastics in the Coastal Surface Waters of White Beach, Puerto Galera, Oriental Mindoro, Philippines, Philippines, International Conference of Sustainable Science and Technology 2025: Green Solutions for Climate Change Adaptation, Nguyen Tat Thanh University, Ho Chi Minh City, Vietnam	October 31 November 1, 2025	
	Participant, PlaReNet Conference 2022 – A National Forum on Plastics Pollution and the Official Launch of Plastic Research Network – Philippines (PlaReNet)	December 6 – 7, 2022	
	Participant, Presentation on Solid Waste Management Updates and Demonstration of Pilot Waste Segregation Facility	May 16, 2023	
	Participant, Program Assessment and Evaluation Workshop	November 19, 2013	Adamson University
	Participant, Project Wet Workshop – Environmental Management Bureau-Department of Environment and Natural Resources (EMB-DENR), DENR, Quezon City	April 30, 2014	
	Participant, Research Colloquium 2014	February 13, 2014	Adamson University
	Participant, Research Paper Development for Publication	November 28, 2016	Adamson University
	Participant, Safety Seminar, OZ Conference Room	January 27, 2012	Adamson University
	Participant, Science, Engineering, and Technology Professional Chairholder Lecture Series (SET-PCHLS) 2022	August 19, 2022	Polytechnic University of the Philippines

Faculty Member	Title of Training / Seminar / Conference	Date	Sponsoring Agency
	Participant, Selected Problems from the Calculus of Variations, MAPUA Institute of Technology, Intramuros, Manila	September 15, 2009	
	Participant, Seminar and Workshop on Patent Search and Documentation, IPOPHL Multipurpose Hall, G/F, Intellectual Property Center, Intellectual Property Office of the Philippines (IPOPHL), 28 Upper McKinley Road, McKinley Hill Town Center, Fort Bonifacio, Taguig City 1634, Philippines	August 6-8, 2014	
	Participant, Seminar on Beyond Attribution: Integrating GAD Perspectives in PCIEERD PAPs for Sustainable Development Through Science Research, Hive Hotel & Convention Place, Diliman, Quezon City	October 19, 2022	
	Participant, Seminar on Fire Safety on High-Rise Building, OMM-Pasig City	February 2009	
	Participant, Seminar Workshop on Module Writing	February 9, 2012	Adamson University
	Participant, Summer School of Life 2016: Basic Carpentry Training OZ 104	April 22, 2016	Adamson University
	Participant, Technology Development towards Teaching Methodology	February 11, 2011	Adamson University
	Participant, Technology for 21st Century Engineers-On risk and Uncertainty, Mapua IT Center, Makati City	March 25, 2011	
	Participant, Technology Integration in Science Instruction, OZ-AVR	February 9, 2010	Adamson University
	Participant, Test Consultants Incorporated Strategic Planning, Hotel Luna, Vigan, Ilocos Sur	January 20-21, 2020	
	Participant, Test Consultants Incorporated Strategic Planning, virtual via Zoom, Vigan, Ilocos Sur	February 18-19, 2022	

Faculty Member	Title of Training / Seminar / Conference	Date	Sponsoring Agency
	Participant, The 2nd Japan-ASEAN Multi-Stakeholder Strategic Consultancy Forum on Sustainable Water Resource Management, Department of Science and Technology (the Philippines), Ministry of Education, Culture, Sports, Science and Technology (Japan), Japan Science and Technology Agency (Japan)	February 21-23, 2022	
	Participant, The 2nd Series of the 2021 IRIS Leadership Legacy Forum, Researcher Academy on Campus	March 26, 2021	
	Participant, The DOST-ITDI Innovation Conference (ICON): Unlocking Possibilities through STI, Acacia Hotel Manila	December 1, 2022	
	Participant, The Economic Impact LNG Importation in the Philippines, Gas Policy Development Project 3 (GPDP-3), DENR, Online Webinar	May 17, 2024	
	Participant, The Future of Geodetic Surveying and the Quality of Materials Testing: Concrete and Cement, Roofdeck of STG Corp. Bldg., Timog Ave., Quezon City	April 1, 2011	
	Participant, The Storifying R & D Workshop, Brandev for DOST, Development Academy of the Philippines, Tagaytay City	January 9-10, 2025	
	Participant, Training on basic BSL-3 users and core facilities under the MECO-TECO HAT Initiative, Taipei, Taiwan	September 20-27, 2023	
	Participant, Training on Gryke Scientific Instruments Trading	November 21, 2012	Adamson University
	Participant, Training on Hydraulic Equipment of (Armfield) and State Alliance Enterprises Inc.	December 3 and 10, 2011	Adamson University
	Participant, United Nations Development Program (UNDP)-Habitat Symposium, H2O Hotel, Ocean Park, Manila	August 8-9, 2013	
	Participant, University Faculty Research Forum, Engineering Conference Room	July 12, 2013	

Faculty Member	Title of Training / Seminar / Conference	Date	Sponsoring Agency
	Participant, Virology and Vaccine Institute of the Philippines (VIP) Act (RA 12290) Implementing Rules and Regulation (IRR) Consultative Meeting, Plazuela, Capas, Tarlac	November 5, 2025	
	Participant, Virology and Vaccine Institute Philippines Strategic Planning, Development Academy of the Philippines, Tagaytay, Cavite	August 18-19, 2023	
	Participant, VMF1 Course, VMF1 Virtual Course, SAVE International, 16	19 December 2020	
	Participant, Wastewater and sewer sludge, handling the last link in the chain, Remtech Expo	September 24, 2021	
	Participant, Water Resources Engineering Seminar, OZ Conference Room, Adamson University, Manila	October 5, 2011	
	Participant, Workshop in Building a Water-Secure and Resilient Future: Crafting a 5 Year Science, Technology and Innovation Roadmap for the Philippines	October 5, 2023	De La Salle University-Manila
	Participant, Workshop on "Water Quality Improvement for Drinking Water" of Taiwan Philippines Joint Water Quality Research Innovation Center	August 23 24, 2018	Mapua University
	Participant, "2024 BSL-3 Core Facility Training/Workshop for the Architects and Engineers under the MECO-TECO HAT Initiative" for the containment facility requirements of DOST ITDI ASF Vaccine Development, The Heritage Hotel Manila	September 3, 2024	
	pm. Participant, Taiwan International Water Week, TWTC Exhibition Hall, Taipei. Taiwan	September 11-13, 2024	
	Poster Presentation - Chlorinated Ethenes: A Scenario in the Philippines	2023	
	Presenter Best Paper Award and Best Presentation Award, International Conference on Sustainable Environment and Technologies 2018	August 20, 2018	Mapua University

Faculty Member	Title of Training / Seminar / Conference	Date	Sponsoring Agency
	Presenter Outstanding Paper Award, Detection and Analyses of Chloroethene Degraders in Philippines and Taiwan River-2017 International Conference on Environmental Quality Concern, Control and Conservation, Kaohsiung, Taiwan (	April 28-29, 2017	
	Presenter, 2012 International Conference on Environmental Quality Concern, Control and Conservation, Kaohsiung, Taiwan	May 25-26, 2012	
	Presenter, 2015 International Conference on Environmental Quality Concern, Control and Conservation Best Presenter, A Study on Flood Control System Introducing Storage Tank in Manila City Hall Area	2015	
	Presenter, Spatial distribution of Dehalococcoides spp. in Pasig River and Laguna Lake sediments and water column, 2017 International Water Association (IWA) Symposium of Lake and Reservoir Management, Shanghai, China, 22-26 May	2017	
	Presenter, Water Quality Index as a Tool for Assessing the Water Quality of Groundwater Quality from Wells in Cavite, Batangas, and Pampanga, Philippines, International Conference of Sustainable Science and Technology 2025: Green Solutions for Climate Change Adaptation, Nguyen Tat Thanh University, Ho Chi Minh City, Vietnam	October 31 November 1, 2025	
	Research Evaluator for Professional and Student Category, 14th Joint Regional Symposium on RDE Highlights & 7th Regional Student Research Congress, "RDE Dap-ay: Forging Strategic Pathways through Innovative and Sustainable RDE", Benguet State University, La Trinidad, Benguet, Mountain Province	October 14-17, 2024	
	Resource Speaker, A Civil Engineer Turns to an Environmental Specialist, Civil Engineering Department	February 19, 2021	Polytechnic University of the Philippines General Assembly Webinar

Faculty Member	Title of Training / Seminar / Conference	Date	Sponsoring Agency
	Resource Speaker, A Primer to Waste Management in Design and Construction Management Towards Zero Waste Buildings, Prince Building, 117 Rada, Legazpi Village, Makati City	May 4, 2024	
	Resource Speaker, AMBIENCE: Enriching Minds for a Better Foundation, SV Mezzanine Room	March 6, 2017	Adamson University
	Resource Speaker, Asphalt to High-Rise: Civil Engineering at Full Speed	April 3, 2025	Polytechnic University of the Philippines
	Resource Speaker, Career and Opportunities for Water Resources Engineering	July 31, 2022	Civil Engineering Department of Polytechnic University of the Philippines
	Resource Speaker, Catholic Educational Association of the Philippines, CEAP NCR	2021	
	Resource Speaker, Civil Engineering Seminar	June 7, 2025	FEU Institute of Technology
	Resource Speaker, Civil Engineering Seminar 2025: ASCEND: Reinforcing the Future Seminar Series#1 (The Transport and Fate of Chlorinated Compounds on Houjing River, Taiwan: An Information Potential for Philippines Inland Water Treatment)	October 18, 2025	FEU Institute of Technology
	Resource Speaker, Civil Engineering Seminar, FEU Tech Manila	February 15, 2025	
	Resource Speaker, Engineering Controls in Biosafety, PICE-NMMC 2025 Webinar Series 9.0, Online Webinar	April 20, 2025	
	Resource Speaker, Engineering Expo and Forum, 2025 PICE Midyear National Convention and Technical Conference, Iloilo Convention Center, Iloilo City	June 25-27, 2025	
	Resource Speaker, Engineering Expo and Forum, 51st PICE National Convention and Technical Conference, Emerging Trends and Applications of Value Engineering and Value Analysis in the Philippines: Towards Sustainable and Cost Effective Practices, PICE, SMX Convention Center, Bacolod City	November 13-15, 2025	

Faculty Member	Title of Training / Seminar / Conference	Date	Sponsoring Agency
	Resource Speaker, Exploration Research Fragments: A Webinar Series 1.0, "Writing results and conclusion"	March 3, 2023	Northwest Samar State University
	Resource Speaker, General Assembly 2021 "Harmful Algae Monitoring	January 16, 2021	Philippine Institute of Civil Engineers – Manuel L. Quezon University
	Resource Speaker, GLOWE (Global League of Women Engineers) Hybrid Event for Women's Day Celebration: Diverse Voices, Collective Impact Celebrating Women in Engineering and Environmental Leadership, Winford Hotel & Casino, Manila	March 22, 2024	
	Resource Speaker, Importance of Water Resources Management	October 27, 2020	Adamson University Virtual Seminar
	Resource Speaker, Kaizen Principle Application for a Zero-Waste Goal in Building Construction, Far Eastern University, FEU Tech Main Building, Padre Paredes St, Sampaloc, Manila	February 24, 2024	
	Resource Speaker, Kaizen Principle Application for a Zero-Waste Goal in Building Construction, Far Eastern University, FEU Tech Main Building, Padre Paredes St., Sampaloc, Manila	June 1, 2024	
	Resource Speaker, Manila Integrated Water Quality Management Seminar, Tagaytay City, Cavite	September 24, 2013	
	Resource Speaker, PICE (Philippine Institute of Civil Engineers) Quezon City Chapter Webinar in Celebration of International Women's Month, Online Webinar	March 19, 2024	
	Resource Speaker, Seminar on Utilization of Rice Hush Ash as Partial Replacement for Ordinary Portland Cement (OPC) for Thermal Resistant Concrete Hollow Blocks (CHB), Seminar Room	March 15, 2016	Mapua Institute of Technology
	Resource Speaker, Seminar on Water Resources, OZ AVR	March 14, 2016	Adamson University
	Resource Speaker, Seminar Series on Environmental Engineering and Management, College of Engineering	May 8, 2025	Bicol University

Faculty Member	Title of Training / Seminar / Conference	Date	Sponsoring Agency
	Resource Speaker, Sustainable Engineering Towards a Greener Future	December 14, 2021	Council of Engineering Consultants of the Philippines
	Resource Speaker, Taiwan and Philippines' Research Experience: A Plus Factor to Civil Engineering Career, Far Eastern University, FEU Tech Main Building, Padre Paredes St, Sampaloc, Manila	November 11, 2023	
	Resource Speaker, Taiwan Research Experience: Plus, Factor to PhD in Environmental Engineering Journey	January 27, 2021	Mapua University
	Resource Speaker, The Power of Environmental Engineering Towards Climate Resilience	April 4, 2025	Adamson University
	Resource Speaker, Undergraduate Chemical Engineering Symposium (UCHES) with the theme of ChE You Tomorrow: Building Chemical Engineers of our Future, Malayan Colleges Laguna	September 21, 2022	
	Resource Speaker, World's Water Day Symposium, De La Salle University, Manila	March 20, 2024	
	Session Chair, Civil Engineering Research Colloquium (CERC 2018)	February 13, 2018	Adamson University
	Virtual Attendee	October 24-26, 2022	
	Workshop Emcee, 2019 Taiwan-Philippines Workshop on Soil and Groundwater Contamination Site Investigation and Remediation	March 8, 2019	Mapua University
Sibayan, Noli B.	19th ASEP INTERNATIONAL CONVENTION (19AIC) ON STRUCTURAL ENGINEERING FOR INFRASTRUCTURE RESILIENCE	June 1, 2019	Association of Structural Engineers of The Philippines
	PICE-UAE Webinar with the following topics :“1.0 Deltabeam and Deltabeam Frame, Slim Floor Structures ; 2.0 Dubai Frame – Construction Challenges of the ICONIC Structures”	March 26, 2022	Philippine Institute of Civil Engineers

Faculty Member	Title of Training / Seminar / Conference	Date	Sponsoring Agency
	Training (via Zoom) on Capacity Building of Teachers for the New Normal Education Landscape through Project CLOUD 1.0: Curating Learning Opportunities and Upgrades on Digital Education – Phase 1 “FLEX 102: Ecology of Flexible and Digital Learning”	August 2021	Rizal Technological University (Cities of Mandaluyong and Pasig) and Curriculum and Instructional Resources Development Center held on August 24-31 at Rizal Technological University
	UP NCTS Webinar entitled “A Discourse on Road Crash Data and Road Safety Programs for Children as Vulnerable Road Users”	27 May 2022	UP - National Center for Transportation Studies spearheaded by the Road Safety Research Laboratory Group
	UP NCTS Webinar entitled “Asian Road Crash Analysis for Future Vehicle Technology Workshop”	24 February 2022	UP - National Center for Transportation Studies in cooperation with Malaysian Institute of Road Safety Research (MIROS)
	Webinar on Post-earthquake Structural Assessment of Buildings as part of the Safe, Resilient & Sustainable Buildings Webinar Series in cooperation with Building Research Service UP Diliman, held on	August 31, 2022	
Singayan, Melvin G.	"Gender and Development Webinar Lecture Series Day 1 Intersectional Approaches to Women's Empowerment and Inclusive Development"	December 13, 2023	PUP OVPRED - Research Management Office
	(via zoom) “Season 2 Episode 6 Webinar Series with the Topic: Application of Top-Down Construction Methodology in Singapore's Deepest MRT Station”	August 14, 2020	Federation of Professionals & Expatriates – Association of Chiefs of Police of the Philippines
	2022 PICE Midyear Convention and Technical Conference	June 17-18, 2022	Philippine Institute of Civil Engineers, Inc.

Faculty Member	Title of Training / Seminar / Conference	Date	Sponsoring Agency
	4th Technical Conference of ISSEP on In-depth Solutions to Structural Engineering Problems (ISSEP-IS	SEP 2023	Institution of Specialist Structural Engineers of the Philippines, Inc.
	International Conference on Project Management Project Management Towards Resiliency and Recovery	October 26-28, 2021	PUP - OUS in partnership with IPMA - Philippines
	Technical Conference on the Code Requirements for Design of Steel Special Moment Frames (SMF) with Design Examples	October 29-30, 2021	Association of Structural Engineers of the Philippines
	"2 hours Safety Webinar OSH in the Office"	May 18, 2022	PSME Metro Marikina
	"Adopting Teaching Modalities through Learning Management System"	August 19, 2022	PUP OVPA - Open University System
	"Answer Hour – Ground Water and Pore Pressures in Plaxis"	July 28, 2021	Bentley Institute
	"ASEP FORUM @ 60 ASEP Revisiting the Past, Reinforcing the Future"	September 23, 2021	Association of Structural Engineers of the Philippines

Faculty members are active in research, including presenting and publishing their research papers in Scopus-indexed journals and presenting their research outputs both in the Philippines and abroad, as shown in Table 4.11 ([Attachment C4-07 – Certificates of Faculty Trainings - 2026](#)).

Faculty with Research Activities

Table 4.11 presents a list of faculty members who showcased their research outputs in various international conferences across different countries during SY 2025–2026. This active participation highlights the growing research culture within the Civil Engineering Department of Polytechnic University of the Philippines (PUP), as well as the institution's commitment to global academic engagement.

The faculty members' involvement in international conferences was made possible through financial support provided by the university. Expenses related to registration, airfare, and accommodation were fully shouldered by PUP under its research fund, with administrative and logistical assistance from the Research Management and Intellectual Property Office (RMIPO). This level of institutional backing demonstrates the university administration's strong support for research development and faculty advancement, particularly within the Civil Engineering Department.

Engaging in international research conferences provides faculty members with valuable opportunities to present their work to a global audience, receive critical feedback, and stay updated with emerging trends, technologies, and methodologies in the field of civil engineering. Moreover, these engagements foster international collaborations, enhance the visibility of the university, and contribute to the professional growth of the faculty.

More importantly, this endeavor has a direct and meaningful impact on the attainment of student outcomes. Faculty members who are actively involved in research and international discourse bring enriched knowledge and real-world perspectives into the classroom. This exposure allows them to integrate current industry practices, innovative solutions, and global standards into their teaching. As a result, students benefit from a more dynamic and relevant learning experience that strengthens their technical competencies, critical thinking skills, and problem-solving abilities.

Furthermore, students are indirectly exposed to a culture of research excellence and academic rigor. Faculty participation in international conferences serves as a model of scholarly engagement, encouraging students to pursue research activities, participate in conferences, and contribute to knowledge creation. This aligns with desired student outcomes such as lifelong learning, effective communication, and the ability to function in multidisciplinary and global environments.

In essence, the university's investment in supporting faculty research presentations abroad not only advances academic scholarships but also enhances the

quality of education delivered to students. It ensures that the Civil Engineering program remains responsive to global developments and produces graduates who are well-equipped to meet the demands of the profession both locally and internationally.

Table 4.11 Faculty Members Presented their Research Outputs in International Conferences (SY 2025-2026)

Title of Research	Faculty Member(s)	Name of International Conference	Date	Venue
Assessing the Effectiveness of Civil Engineering OJT Programs: Insights from Students, Industry Partners, and Faculty Supervisors	Arrojado, Edna P.; Cruz, Ramir M.; Domingo, Razon C.; Poso, Florante D. Jr.; Roxas, Ruffa S.	10th International Conference on Engineering Education Philippines (ICEE-PHIL) 2025	September 12 - 13, 2025	UST, Manila, Philippines
Assessing Cohesion's Role in Slope Stability for Sustainable Land Management: A Numerical Modeling Approach	Galicia, Lorenzo; Poso, Florante D. Jr.; Tana, Kenneth Bryan M.	1st International Conference on Environmental Integration on Sustainable Perspective and Beyond (EISPB) via Online Presentation	April 10, 2025	Virtual/Online
Physical characterization of microplastics in coastal surface water of White Beach, Puerto Galera, Oriental Mindoro, Philippines	Galicia, Lorenzo; Saiyari, Donamel M.	International Conference on Sustainable Science and Technology 2025: Green Solutions for Climate Change Adaptation	October 31 – November 1, 2025	Ho Chi Minh City, Vietnam
Surveying the Alignment of Industry Expectation and Perceived Academic Preparation of Civil Engineering Students	Galicia, Lorenzo; Poso, Florante D. Jr.; Roxas, Ruffa S.; Tana, Kenneth Bryan M.	10th International Conference on Engineering Education Philippines (ICEE-PHIL) 2025	September 12 - 13, 2025	UST, Manila, Philippines
Sustainable Earth Dam Design: Evaluating Core Membrane Geometry and Material Influence on Slope Stability in Green Urban Infrastructure	Galicia, Lorenzo; Poso, Florante D. Jr.; Tana, Kenneth Bryan M.	9th International Conference on Green Urbanism (GU 2025)	November 22 - 30, 2025	Sapienza University, Rome, Italy

Title of Research	Faculty Member(s)	Name of International Conference	Date	Venue
Advancing Sustainable Riverbank Stabilization: Comparative Analysis of Slope Stability Using the Method of Slices	Poso, Florante D. Jr.; Roxas, Ruffa S.; Samonteza, Ruffa A.; Tana, Kenneth Bryan M.	1st International Conference on Environmental Integration on Sustainable Perspective and Beyond (EISPB) via Online Presentation	April 10, 2025	Virtual/Online
AI- and VR-Driven Pedagogy for Enhanced Civil Engineering Education	Poso, Florante D. Jr.; Tana, Kenneth Bryan M.	12th International Conference on Frontiers of Educational Technologies (ICFET 2026)	June 12-14, 2026	Tokyo, Japan
Enhancing Industry-Academia Research Collaboration in Philippine Civil Engineering: An Online Survey Exploration	Poso, Florante D. Jr.; Tana, Kenneth Bryan M.	American Society for Engineering Management 2025 International Annual Conference	September 24-27, 2025	Boise, Idaho, United States of America
Enhancing Sustainable Earth Dam Design: Modeling the Role of Filter Drains in Seepage Control Using SEEP/W	Poso, Florante D. Jr.; Roxas, Ruffa S.; Samonteza, Ruffa A.; Tana, Kenneth Bryan M.	9th International Conference on Green Urbanism (GU 2025)	November 22 - 30, 2025	Sapienza University, Rome, Italy
Geochemical Speciation and Carbonate-Controlled Mobility of Arsenic in Cavite Groundwater: A PHREEQC-Based Simulation Study	Poso, Florante D. Jr.	2026 13th International Conference on Geological and Civil Engineering	March 6 - 8, 2026	Fukuoka, Japan
Levenberg–Marquardt Neural Network Approach to Predicting Student Performance in Correlation Courses	Poso, Florante D. Jr.	12th International Conference on Frontiers of Educational Technologies (ICFET 2026)	June 12-14, 2026	Tokyo, Japan
Lime-Based Stabilization as a Sustainable and Nature-Based Approach for Landfill Remediation in Urban Settings	Poso, Florante D. Jr.; Tana, Kenneth Bryan M.	9th International Conference on Green Urbanism (GU 2025)	November 22 - 30, 2025	Sapienza University, Rome, Italy

Title of Research	Faculty Member(s)	Name of International Conference	Date	Venue
Natural Fibers in Concrete for Sustainable Civil Engineering: A Critical Review of Materials, Properties, and Performance	Poso, Florante D. Jr.	2026 13th International Conference on Geological and Civil Engineering	March 6 - 8, 2026	Fukuoka, Japan
Nature-Based Slope Stabilization: Water Hyacinth as a Sustainable Geonet Material for Urban Soil Protection	Poso, Florante D. Jr.; Tana, Kenneth Bryan M.	9th International Conference on Green Urbanism (GU 2025)	November 22 - 30, 2025	Sapienza University, Rome, Italy
Eutrophic lake dynamics: Hydrology and hydrodynamics of Laguna de bay and their role in cyanobacterial bloom formation	Roxas, Ruffa S.; Saiyari, Donamel M.	International Conference on Sustainable Science and Technology 2025: Green Solutions for Climate Change Adaptation	October 31 – November 1, 2025	Ho Chi Minh City, Vietnam
Detection and quantification of microplastics in Manila bay and Pasig river using visual identification and FT-IR imaging	Saiyari, Donamel M.; Tana, Kenneth Bryan M.	International Conference on Sustainable Science and Technology 2025: Green Solutions for Climate Change Adaptation	October 31 – November 1, 2025	Ho Chi Minh City, Vietnam
Engineering Approaches to Toxigenic Cyanobacteria Control for Enhanced Water Resource Management	Saiyari, Donamel M.	International Conference of Sustainable Science and Technology 2025: Green Solutions for Climate Change Adaptation	October 31- November 1, 2025	Nguyen Tat Thanh University, Ho Chi Minh City, Vietnam
The Transport and Fate of Chlorinated Compounds in Houjing River, Taiwan: An Information Potential for Philippines Inland Water Treatment	Saiyari, Donamel M.	International Conference on Sustainable Environment and Technologies 2018	2018	Mapúa University, Manila, Philippines

Title of Research	Faculty Member(s)	Name of International Conference	Date	Venue
Water Quality Index as a Tool for Assessing Groundwater Quality from Wells in Cavite, Batangas, and Pampanga, Philippines	Saiyari, Donamel M.	International Conference of Sustainable Science and Technology 2025: Green Solutions for Climate Change Adaptation	October 31- November 1, 2025	Nguyen Tat Thanh University, Ho Chi Minh City, Vietnam

Table 4.12 presents the list of faculty members who disseminated their research outputs in various national conferences during SY 2025–2026. This demonstrates the sustained commitment of the Civil Engineering faculty to scholarly engagement within the Philippines, reinforcing the research culture of the Polytechnic University of the Philippines (PUP).

Participation in national conferences serves as an essential platform for faculty members to share their findings with local academics, industry practitioners, and policymakers. Through these engagements, faculty contribute to addressing pressing national issues, including infrastructure development, disaster resilience, environmental sustainability, and urban planning. Presenting research at the national level ensures that their work remains grounded in local contexts and directly responsive to the needs of Philippine communities.

The impact of these national presentations on student outcomes is equally significant. Faculty members who actively engage in local research discussions are better equipped to incorporate context-specific examples, case studies, and regulatory frameworks into their teaching. This helps students develop a deeper understanding of engineering challenges within the Philippine setting, preparing them to design solutions that are practical, sustainable, and socially responsive ([Attachment C4-10 – Certificates of National Research Presentation](#)).

Table 4.12 Faculty Members Presented their Research Outputs in National Conferences (SY 2025-2026)

Title of Research	Name of Faculty Member	Name of Conference	Date	Venue
Insights from 350 Students, Industry Partners, and Faculty	Florante D. Poso, Jr. Ruffa S. Roxas,	PICE 51ST National Convention and	November 13-15, 2025	SMX Convention Center, SM

Supervisors Evaluating the Effectiveness of Civil Engineering O.J.T. Program at P.U.P.	Edna P. Arrojado, Ramir M. Cruz, Razon C. Domingo, Kenneth Bryan M. Tana	Technical Conference		City Bacolod, Bacolod City
Surveying the Alignment of Industry Expectation and Perceived Academic Preparation of Civil Engineering Students	Florante D. Poso, Jr. Lorenzo Galicia Kenneth Bryan M. Tana, Ruffa S. Roxas	2025 PICE Midyear National Convention and Technical Conference	June 25- 27, 2025	Iloilo Convention Center, Megaworld Blvd, Mandurriao, Iloilo City
Assessing the Effectiveness of Civil Engineering OJT Programs: Insights from Students, Industry Partners, and Faculty Supervisors	Florante D. Poso, Jr. Ruffa S. Roxas Edna P. Arrojado Ramir M. Cruz Razon C. Domingo	10th International Conference on Engineering Education Philippines (ICEE-PHIL) 2025	September 12 - 13, 2025	UST, Manila, Philippines
Surveying the Alignment of Industry Expectation and Perceived Academic Preparation of Civil Engineering Students	Florante D. Poso, Jr. Lorenzo Galicia Kenneth Bryan M. Tana Ruffa S. Roxas	10th International Conference on Engineering Education Philippines (ICEE-PHIL) 2025	September 12 - 13, 2025	UST, Manila, Philippines

Table 4.13 presents the list of faculty members who successfully published their research papers during SY 2025–2026, reflecting the strong research productivity of the Civil Engineering Department of Polytechnic University of the Philippines (PUP). These publications demonstrate the faculty's commitment to knowledge generation and contribution to the advancement of civil engineering practice and education.

With the support of the Research Management and Intellectual Property Office (RMIPO), faculty members were guided through the research and publication process, ensuring quality and compliance with academic standards. This achievement highlights the university's continued investment in research development.

The publication of research output enhances the credibility of the department and directly benefits students by integrating updated knowledge, innovations, and evidence-based practices into instruction. Ultimately, it supports the attainment of student outcomes by fostering critical thinking, research orientation, and a culture of academic excellence ([Attachment C4-11 – Copy of Journal of Research Publications](#)).

Table 4.13 Faculty Members Published their Research Papers (SY 2025-2026)

Impact of Filter Drains on Seepage Dynamics in Earth Dams: A Modeling Approach	Poso, Florante D. Jr.	IEEE Xplore	https://ieeexplore.ieee.org/document/11258856 ; December 2025

For SY 2025–2026, the Civil Engineering Department of PUP has two university internally funded research projects that have been approved and are currently being conducted by its faculty members as shown in Table 4.14. These projects reflect the department’s active engagement in research and its continuing commitment to innovation, sustainability, and the advancement of civil engineering knowledge. Both studies are funded internally by the University, showing institutional support for faculty-led research initiatives that address contemporary issues in construction materials and infrastructure development.

One of the approved studies is titled “Utilization of Natural Fibers and Waste Plastic Fibers for Enhanced Strength of Fiber Reinforced Concrete,” with a funding support of Php 441,500.00 for the period February to August 2026. The project is being undertaken by Dr. Florante D. Poso, Jr., Engr. Kenneth Bryan M. Tana, Engr. Ruffa S. Roxas, Engr. Lorenzo Galicia, and Engr. Razon C. Domingo. The study focuses on the use of natural and recycled materials in concrete technology, highlighting the department’s interest in sustainable engineering solutions and the development of alternative construction materials that may improve structural performance while addressing environmental concerns.

The second approved research is “BioCreteShield: Advancing Self-Healing Concrete Using *Bacillus subtilis* and Fruit Peel Ash for Sustainable Infrastructure,” with an internal funding amount of Php 443,600.00 for the period July to December 2026. This project is being conducted by Dr. Florante D. Poso, Jr., Engr. Kenneth Bryan M. Tana, Engr. Ramir M. Cruz, and Engr. Edna P. Arrojado. The study explores innovative and sustainable approaches in concrete technology through self-healing materials, which may contribute to improved durability, reduced maintenance costs, and more resilient infrastructure systems.

Overall, the two ongoing internally funded research projects amount to a total of **Php 885,100.00**, which demonstrates the University’s support for the research capability of the Civil Engineering Department. These approved projects strengthen the

department's research culture, promote collaboration among faculty members, and contribute to the generation of new knowledge in sustainable construction and infrastructure development. They also affirm that the Civil Engineering Department extends beyond instruction and remains actively engaged in research endeavors that contribute meaningfully to the profession, the University, and society ([Attachment C4-12 – Special Order and Notice to Proceed](#)).

Table 4.14 List of University Research Funded (SY 2025-2026)

Title of Research	Name of Faculty Member	Funding Institution / Amount	Period	Status
Utilization of Natural Fibers and Waste Plastic Fibers for Enhanced Strength of Fiber Reinforced Concrete	Dr. Florante D. Poso, Jr. (Project Leader) Engr. Kenneth Bryan M. Tana Engr. Ruffa S. Roxas Engr. Lorenzo Galicia Engr. Razon C. Domingo	PUP Internally Funded Php 441,500.00	Feb-August 2026	On-going
BioCreteShield: Advancing Self-Healing Concrete Using Bacillus Subtilis and Fruit Peel Ash for Sustainable Infrastructure	Dr. Florante D. Poso, Jr. (Project Leader) Engr. Kenneth Bryan M. Tana Engr. Ramir M. Cruz Engr. Edna P. Arrojado	PUP Internally Funded Php 443,600.00	July-Dec 2026	On-going

D. Professional Development

Provide a Professional Faculty Development Plan and Policies with detailed descriptions of completed professional development activities for each faculty member for the previous and current years.

The foundation of people development is the fundamental belief that continuous development of values and competencies is required for Polytechnic University of the Philippines teaching personnel to meaningfully achieve their operational and long-term contributions to realizing the University's philosophy and objectives.

The University encourages its teaching personnel to pursue relevant local and foreign-assisted training/scholarships grants; attend seminars, conferences, workshops, or related human resource development courses. The College Dean determines the

training needs of their department's personnel and schedules properly to minimize adverse effects on classes and the department's regular functions.

Attendance at in-house or external training/seminars/conferences/workshops is based on the college's priority areas and subject to the Dean's endorsement, recommendation of the Vice-President for Academic Affairs, and Vice-President for Administration and Vice President for Finance, HRMD Director, and approval of the University President.

The Department of Civil Engineering provides and implements a Professional Faculty Development Plan and related policies in alignment with the University Development Plan (UDP) for 2022–2028. The UDP serves as the institution's strategic framework for strengthening academic quality, research productivity, extension services, professional competence, and institutional performance. Its goals and commitments are cascaded to the colleges to ensure that development priorities are translated into concrete programs, measurable targets, and documented accomplishments ([Attachment C4-13 – University Development Plan](#)).

At the college level, the College of Engineering adopts the relevant commitments from the UDP through its College Development Plan. This plan serves as a focused and operational version of the UDP, reflecting the specific priorities and targets of engineering education. From this college plan, the Department of Civil Engineering identifies and commits to selected targets and accomplishments that are appropriate to its mandate, academic programs, faculty profile, and professional development needs. These commitments become part of the Department Development Plan, which guides the professional growth, capability-building activities, and performance expectations of the faculty members ([Attachment C4-14 – College of Engineering Development Plan or OPCR](#)).

The Professional Faculty Development Plan of the Department of Civil Engineering is therefore anchored on the University and College Development Plans. It supports the continuous improvement of faculty qualifications, teaching effectiveness, research and innovation capability, extension involvement, industry engagement, licensure-related expertise, and participation in seminars, trainings, workshops, conferences, graduate studies, and other professional development activities. These activities are intended to ensure that faculty members remain competent, updated, and responsive to the evolving demands of civil engineering education and professional practice ([Attachment C4-15 - DPCR](#)).

To ensure proper monitoring and documentation, the Polytechnic University of the Philippines uses an online platform known as eQAR. This platform is utilized to track accomplishments and performance outputs of individual faculty members through the Individual Performance Commitment and Review, or IPCR. Through the IPCR, each faculty member reports completed professional development activities and other accomplishments based on approved targets and performance indicators. These may include attendance in training programs, completion of graduate or postgraduate studies, research outputs, published papers, extension activities, industry linkages, professional organization involvement, and other development-related engagements ([Attachment C4-16 – IPCR](#)).

The accomplishments reported by individual faculty members are consolidated and tagged at the department level through the Department Performance Commitment and Review, or DPCR. This allows the Department of Civil Engineering to monitor how individual faculty development activities contribute to departmental goals and commitments. In the same manner, the department-level accomplishments are further aligned with the College Performance Commitments, ensuring that the outputs of the department support the broader development targets of the College of Engineering.

This system provides a clear vertical alignment of planning, implementation, monitoring, and evaluation. The University Development Plan provides the overall direction; the College Development Plan translates this direction into college-specific commitments; the Department Development Plan identifies the department's selected targets; and the IPCR and DPCR mechanisms document the actual accomplishments of faculty members and the department. Through the eQAR, these accomplishments are systematically recorded, reviewed, and evaluated.

In compliance with the PTC criterion on faculty, the Department of Civil Engineering demonstrates that it has an established mechanism for providing a Professional Faculty Development Plan and policies with detailed descriptions of completed professional development activities. The department's faculty development efforts are not isolated activities but are part of an institutional planning and quality assurance system. By linking individual faculty accomplishments to department, college, and university development goals, the department ensures that professional development is purposeful, measurable, documented, and aligned with institutional priorities.

Overall, the Department of Civil Engineering continuously supports the professional advancement of its faculty members through planned development activities,

performance-based monitoring, and documented accomplishments. The use of the eQAR platform, together with the IPCR and DPCR processes, provides evidence of systematic implementation and evaluation. This confirms the department's commitment to faculty competence, continuous improvement, and compliance with the standards expected in engineering education.

Table 4.15 Department Unit Action Plan 2026

Republic of the Philippines
POLYTECHNIC UNIVERSITY OF THE PHILIPPINES
COLLEGE OF ENGINEERING - DEPARTMENT OF CIVIL ENGINEERING

UNIT ACTION PLAN 2026

Pillar 1: Dynamic, Transformational, and Responsible Leadership							
Objective 1		To steer the PUP community to critically review, evaluate, and re-engineer the human resources, processes, structures, and systems of the university					
KRA 1		Efficient and effective systems and processes					
KPI		PM 1.1.4 - Required documents submitted to ICPO within prescribed periodCurrent planning status: Achieved					
Strategic Action Description				Time Frame	Responsible Unit/Section	Budget Requirement	
Must-Do Program	Project	Activity	Desired Outcome	Quarter & Year			
2026 CE Target 1 Required documents submitted on time to ICPO	Timely Institutional Reporting	- Establish a compliance calendar and assign document owners. - Review and submit the required reports, course offerings, teaching assignments, and supporting documents within prescribed timelines.	At least one (1) documented output for required documents submitted on time to icpo completed or implemented in 2026.	Q1-Q4 2026	Department Chairperson; administrative staff; concerned coordinators and faculty members	Existing Department resources / subject to approved allocation	
KPI		PM 1.3.3 - Course offerings and teaching assignments submitted to OVPACCurrent planning status: Achieved					
Strategic Action Description				Time Frame	Responsible Unit/Section	Budget Requirement	
Must-Do Program	Project	Activity	Desired Outcome	Quarter & Year			
2026 CE Target 1 Submission of course offerings and teaching assignments	Academic Scheduling and List Submission	- Establish a compliance calendar and assign document owners. - Review and submit the required reports, course offerings, teaching assignments, and supporting documents within prescribed timelines.	At least one (1) documented output for submission of course offerings and teaching assignments completed or implemented in 2026.	Q1-Q4 2026	Department Chairperson; administrative staff; concerned coordinators and faculty members	Existing Department resources / subject to approved allocation	
KPI		Department Issue F – E. Sudden Changes in Hiring Process and Onboarding Requirements (New Hired Faculty)Current planning status: For Action					
Strategic Action Description				Time Frame	Responsible Unit/Section	Budget Requirement	
Must-Do Program	Project	Activity	Desired Outcome	Quarter & Year			
E. Sudden Changes in Hiring Process and Onboarding Requirements (New Hired Faculty)	Faculty Hiring and Onboarding Guide	- Develop a Department onboarding checklist and process guide showing requirements, responsible offices, timelines, and escalation paths. - Conduct orientation for newly hired faculty and monitor completion of pre-employment and payroll documents.	Newly hired faculty receive clear onboarding guidance and submit complete requirements within prescribed timelines.	Upon hiring; reviewed each semester in 2026	Department Chairperson; College Administrative Office; HR Section; designated faculty member	Existing Department resources	
Pillar 2: Responsive and Innovative Curricula and Instruction							
Objective 1		To provide world-class polytechnic education that responds to national and global market demands					
KRA 1		Nationally and internationally accredited academic programs					
KPI		PM 1.1.3 - Number of Micro-credentialing programsCurrent planning status: Below the Target					
Strategic Action Description				Time Frame	Responsible Unit/Section	Budget Requirement	
Must-Do Program	Project	Activity	Desired Outcome	Quarter & Year			
2026 CE Target 1 Micro-credentialing programs	CE Micro-Credential Development	- Develop the CE micro-credential concept, learning outcomes, module structure, assessment plan, and faculty assignment. - Coordinate technical review and process the proposal through the OVPAC within the prescribed period.	At least one (1) documented output for micro-credentialing programs completed or implemented in 2026.	Q1-Q2 2026	Department Chairperson; Curriculum/QA Coordinator; course coordinators; faculty members	Existing Department resources; approved capacity-building funds, when applicable	
KPI		PM 1.1.7 - Number of Ladderized Academic ProgramsCurrent planning status: Achieved					
Strategic Action Description				Time Frame	Responsible Unit/Section	Budget Requirement	
Must-Do Program	Project	Activity	Desired Outcome	Quarter & Year			
2026 CE Target 1 Ladderized academic programs	Ladderized Program Review and Certification	- Review the existing ladderized pathway and applicable certification requirements. - Prepare the supporting documents and submit the program for internal evaluation and approval.	At least one (1) documented output for ladderized academic programs completed or implemented in 2026.	Q1-Q4 2026	Department Chairperson; Curriculum/QA Coordinator; course coordinators; faculty members	Existing Department resources; approved capacity-building funds, when applicable	
KPI		PM 1.2.3 - Academic Programs with COPCCurrent planning status: Achieved					
Strategic Action Description				Time Frame	Responsible Unit/Section	Budget Requirement	
Must-Do Program	Project	Activity	Desired Outcome	Quarter & Year			
2026 CE Target 1 Academic programs with COPC	COPC Compliance and Maintenance	- Develop and implement a documented Department activity to attain the target for academic programs with copc. - Monitor progress quarterly and coordinate supporting activities.	At least one (1) documented output for academic programs with copc completed or implemented in 2026.	Q1-Q3 2026; monitoring in Q4	Department Chairperson; QA/Accreditation Coordinator; Accreditation Task Force; faculty members	Existing Department resources; approved capacity-building funds, when applicable	

KPI	PM 1.2, 1PM 1.2, 4PM 1.2, 5PM 1.2, 7 - Accreditation status of academic programs (accreditable programs, preliminary survey, Level 1-4)Current planning status: Below the Target					
Strategic Action Description				Time Frame	Responsible Unit/Section	Budget Requirement
Must-Do Program	Project	Activity	Desired Outcome	Quarter & Year		
2026 CE Target 1 Academic program accreditation status	Academic Accreditation Readiness	3-day visit of PTC-ACSBET on August 2021 (BSCE, Tier 1, Washington Accord Accredited (Started in 2018)) - BSCE level 10, reaccredited by AACUP - BSCE level 1 - AACUP - BSCEM - Monitor implementation and consolidate	At least one (1) documented output for academic program accreditation status completed or implemented in 2026.	Q1-Q3 2026, monitoring in Q4	Department Chairperson, QA/Accreditation Coordinator, Accreditation Task Force, faculty members	Existing Department resources; approved capability-building funds, when applicable
KPI	Flexible Technology-Enhanced Learning					
KPI	PM 1.4, 1PM 1.4, 3PM 1.4, 4PM 1.4, 5 - Training conducted on IM development/revision and use of LMS for both faculty and studentsCurrent planning status: Below the Target					
Strategic Action Description				Time Frame	Responsible Unit/Section	Budget Requirement
Must-Do Program	Project	Activity	Desired Outcome	Quarter & Year		
2026 CE Target 1 Training on instructional materials development and LMS use	Instructional Materials and LMS Capability Building	- Conduct capability-building on instructional material development, OBTLP alignment, assessment design, and LMS use. - Standardize course files and require updated OBTLPs, class records, instructional materials, and assessments to be uploaded to the LMS.	At least one (1) documented output for training on instructional materials development and its use completed or implemented in 2026.	1st Semester, AY 2026-2027	Department Chairperson, Curriculum/GA Coordinator, course coordinator, faculty members	Existing Department resources; approved capability-building funds, when applicable
KPI	PM 1.4, 5PM 1.4, 9 - Faculty members and students utilizing the university LMSCurrent planning status: Below the Target					
Strategic Action Description				Time Frame	Responsible Unit/Section	Budget Requirement
Must-Do Program	Project	Activity	Desired Outcome	Quarter & Year		
2026 CE Target 1 LMS utilization by faculty and students	LMS Utilization and Monitoring	- Establish minimum LMS utilization requirements for faculty and students. - Provide technical support, monitor course activation and content uploading, and prepare semester utilization reports.	At least one (1) documented output for lms utilization by faculty and students completed or implemented in 2026.	Q1-Q4 2026	Department Chairperson, Curriculum/GA Coordinator, course coordinator, faculty members	Existing Department resources; approved capability-building funds, when applicable
KPI	PM 1.5, 1 - Number of academic units adopting emerging technologies in the teaching and learning processCurrent planning status: Below the Target					
Strategic Action Description				Time Frame	Responsible Unit/Section	Budget Requirement
Must-Do Program	Project	Activity	Desired Outcome	Quarter & Year		
2026 CE Target 1 Adoption and training for emerging teaching/learning technologies	Emerging Technology Integration	- Develop and implement a documented Department activity to attain the target for adoption and training for emerging teaching/learning technologies. - Monitor progress quarterly and consolidate supporting evidence.	At least one (1) documented output for adoption and training for emerging teaching/learning technologies completed or implemented in 2026.	Q1-Q4 2026	Department Chairperson, Curriculum/GA Coordinator, course coordinators, faculty members	Existing Department resources; approved capability-building funds, when applicable
KPI	PM 1.5, 2PM 1.5, 3 - Faculty and students trained in the use of emerging teaching and learning technologiesCurrent planning status: Below the Target					
Strategic Action Description				Time Frame	Responsible Unit/Section	Budget Requirement
Must-Do Program	Project	Activity	Desired Outcome	Quarter & Year		
2026 CE Target 1 Faculty and students trained in the use of emerging teaching and learning technologies	Emerging Technology Integration	- Conduct hands-on training for faculty and students on approved emerging teaching and learning technologies. - Require demonstration outputs and post-training evaluation.	At least one (1) documented output for faculty and students trained in the use of emerging teaching and learning technologies completed or implemented in 2026.	Q1-Q4 2026	Department Chairperson, Curriculum/GA Coordinator, course coordinators, faculty members	Existing Department resources; approved capability-building funds, when applicable
KPI	PM 1.4, 6PM 1.4, 7PM 2, 2, 5 - Faculty and courses with approved instructional materials (IMs), produced and uploaded in the LMSCurrent planning status: Below the Target					
Strategic Action Description				Time Frame	Responsible Unit/Section	Budget Requirement
Must-Do Program	Project	Activity	Desired Outcome	Quarter & Year		
2026 CE Target 1 Approved IM produced and uploaded in the LMS	Instructional Materials Approval and Upload	- Review and update course instructional materials for outcomes alignment and quality requirements. - Secure approval and upload finalized materials to the University LMS.	At least one (1) documented output for approved IM produced and uploaded in the lms completed or implemented in 2026.	Q1-Q4 2026	Department Chairperson, Curriculum/GA Coordinator, course coordinators, faculty members	Existing Department resources; approved capability-building funds, when applicable
KPI	Department Issue A - A, Low Utilization of Learning Management System (LMS) among Faculty MembersCurrent planning status: For Action					
Strategic Action Description				Time Frame	Responsible Unit/Section	Budget Requirement
Must-Do Program	Project	Activity	Desired Outcome	Quarter & Year		
A, Low Utilization of Learning Management System (LMS) among Faculty Members	LMS Utilization Enhancement	- Conduct faculty LMS capability-building and establish minimum utilization standards. - Provide technical support, monitor LMS usage, and require updated course materials and assessments to be uploaded.	At least 80% of CE course offerings actively use the LMS for course materials, learning activities, assessment, and communication by the end of 2026.	Q1-Q4 2026	Department Chairperson, LMS/Instructional Technology Coordinator, course coordinator, faculty members	Existing resources; capability building fund, when approved

Faculty and Staff Development (FSD) for Faculty Members

As part of its continuing commitment to Faculty and Staff Development (FSD), the Polytechnic University of the Philippines allocates an annual professional development budget for its permanent faculty members. Each permanent faculty member is provided with an annual allocation of twenty thousand pesos (₱20,000.00), which may be used to support participation in relevant faculty development activities.

This allocation serves as institutional support for the continuous professional growth of faculty members. Through this budget, faculty members may attend seminars, trainings, workshops, conferences, conventions, and other similar activities that enhance their teaching competence, technical expertise, research capability, professional practice, and academic leadership. The fund may also be used for activities that keep faculty members updated on current trends, innovations, standards, and practices in their respective fields of specialization.

For the Department of Civil Engineering, this budget provides an important mechanism for strengthening faculty qualifications and competencies. It enables faculty members to participate in civil engineering-related conferences, technical seminars, professional organization activities, research presentations, and other capacity-building programs. These activities contribute to the improvement of instruction, curriculum delivery, research productivity, extension services, and industry responsiveness.

The provision of an annual FSD budget demonstrates that faculty development at PUP is supported not only through planning and performance monitoring but also through actual financial assistance. It ensures that permanent faculty members have access to opportunities for continuing professional education and lifelong learning. In turn, the knowledge and skills gained from these activities are applied in classroom instruction, research work, community engagement, and professional service.

This institutional practice supports the requirements of the PTC criterion on faculty development, particularly in providing evidence that the University has policies and resources dedicated to the professional advancement of its faculty members. By allotting a specific annual budget for each permanent faculty member, PUP strengthens its faculty development program and promotes a culture of continuous improvement, professional excellence, and academic quality.

Faculty Members as Licensed Professionals

For SY 2025–2026, all faculty members of the Civil Engineering Department of PUP are PRC-licensed Civil Engineers, which is consistent with the minimum faculty requirement under CHED CMO No. 92, s. 2017, the current Policies, Standards and Guidelines for the BS Civil Engineering program as shown in Table 4.17. CHED's 2017 issuances list CMO No. 92 as the governing PSG for BSCE, and the order specifies that faculty handling professional courses shall be registered Civil Engineers with valid PRC license. In the context of the department, this means that the faculty members entrusted with the specialized and professional civil engineering courses possess the legal and professional qualifications required for program delivery.

This is important in the attainment of student outcomes because licensed civil engineer faculty members bring not only academic knowledge, but also professional credibility, familiarity with engineering laws and standards, and practical understanding of how civil engineering principles are applied in actual practice. Their licensure signifies that they have met the standards of the profession and are therefore in a stronger position to guide students in mastering technical competencies in analysis, design, construction, planning, and problem-solving. At the same time, they are able to emphasize professional ethics, public safety, accountability, and compliance with codes and standards, which are essential outcomes expected of civil engineering graduates ([Attachment C4-17 – Copy of PRC Licenses](#)).

Faculty Members as Member of Organizations

The faculty members of the Civil Engineering Department of the Polytechnic University of the Philippines are actively engaged in various professional organizations that strengthen their competence, credibility, and relevance in the practice of the profession as shown in Table 4.18. Many of them are active members of the Philippine Institute of Civil Engineers (PICE), the country's leading professional organization for civil engineers, while others have established links with international professional communities, including participation in ASEAN engineering circles such as CAFEO and recognition as ASEAN Engineers. These professional affiliations reflect the department's commitment to maintaining a faculty body that is not only academically qualified but also professionally connected, industry-aware, and responsive to emerging trends in civil engineering practice ([Attachment C4-18 – Certificate of Memberships](#)).

Active membership in professional organizations plays an important role in faculty development. Through these organizations, faculty members gain access to continuing professional development programs, technical seminars, conferences, research forums, and industry networks that help update their knowledge and skills. Their exposure to current engineering standards, innovations, policies, and best practices enables them to enrich classroom instruction, improve curriculum delivery, and integrate real-world

perspectives into teaching. Moreover, involvement in professional organizations cultivates leadership, collaboration, and lifelong learning among faculty members, which are essential qualities of effective educators and mentors.

This active professional engagement also contributes significantly to the attainment of student outcomes. Faculty members who are professionally involved are better equipped to guide students in developing the knowledge, technical competence, ethical responsibility, communication skills, and problem-solving abilities expected of future civil engineers. Their updated industry perspective helps ensure that classroom learning remains aligned with professional standards and societal needs. In turn, students benefit from instruction that is current, practice-oriented, and outcome-based, thereby enhancing their readiness for employment, professional licensure, and meaningful participation in the engineering profession. In this way, the active participation of faculty members in professional organizations serves as a strong foundation for both faculty excellence and student success.

Faculty Members as with On-going Graduate Studies

Table 4.19 presents the list of full-time faculty members who are currently pursuing graduate studies in both master's and doctoral programs. This reflects the strong commitment of the Civil Engineering Department to continuous professional growth and academic advancement within the Polytechnic University of the Philippines (PUP).

The university provides substantial support to faculty members undertaking graduate studies. This includes assistance in securing study leave, allowing them to focus on their academic requirements while maintaining their connection to the institution. Moreover, faculty members enrolled in the PUP Open University benefit from a 100% free tuition scheme, significantly reducing financial barriers, and encouraging more educators to pursue advanced degrees.

This initiative plays a vital role in faculty development. Graduate education equips faculty members with deeper theoretical knowledge, advanced technical skills, and enhanced research capabilities. As they progress in their studies, they gain exposure to new methodologies, emerging technologies, and contemporary issues in civil engineering, which are integrated into their teaching and research activities ([Attachment C4-19 – Graduate School Registration Forms](#)).

Table 4.19 List of Fulltime Faculty Members who have On-going Graduate Studies

No.	NAME OF FACULTY	DEGREE	SCHOOL ATTENDED
1	Engr. Lorenzo Galicia	Doctor in Engineering Management	PUP Open University
2	Engr. Razon C. Domingo	Doctor of Philosophy in Civil Engineering Major in Transportation Engineering	University of the Philippines
3	Engr. Aldrin Lumbang	Master of Science in Civil Engineering Major in Structural Engineering	University of the Philippines
4	Engr. Lady Lyn E. Escarieses	Master of Science in Civil Engineering - Water Resources Engineering	MAPUA University
5	Engr. Joseph Raniel A. Bianes	Phd in Civil Engineering	DLSU
6	Engr. Edna P. Arrojado	Doctor in Engineering Management	PUP Open University
7	Engr. Kenneth Bryan M. Tana	Doctor in Engineering Management	PUP Open University
8	Engr. Ruffa S. Roxas	Doctor in Engineering Management	PUP Open University

9	Engr. Prospero C. Cabornay	Doctor in Engineering Management	PUP Open University
---	----------------------------	----------------------------------	---------------------

Faculty Members as Accreditors

Table 4.20 presents the list of faculty members who serve as accreditors for various accreditation bodies. These include Engr. Kenneth Bryan M. Tana, who is an accreditor for the Accrediting Agency of Chartered Colleges and Universities in the Philippines (AACUP), and Dr. Florante D. Poso, Jr., who serves as an accreditor for the Philippine Accrediting Association of Schools, Colleges, and Universities (PAASCU), as well as a PTC evaluator.

Having faculty members involved in accreditation processes is of great significance for both their professional development and the institution's reputation. Accreditation plays a critical role in ensuring that academic programs meet established standards of quality, which is essential for maintaining the integrity of the university's academic offerings. As accreditors, faculty members gain first-hand exposure to best practices, evaluation techniques, and quality assurance measures used across higher education institutions ([Attachment C4-20 – Special Orders as Accreditor](#)).

Table 4.20 List of Faculty Members who are Accreditors

No.	NAME OF FACULTY	Accreditor
1	Engr. Kenneth Bryan M. Tana	AACUP PTC Evaluator
2	Dr. Florante D. Poso, Jr.	PAASCU PTC Evaluator
3	Dr. Manuel M. Muhi	PTC Evaluator

E. Authority and Responsibility of Faculty

Describe the role played by the faculty with respect to course creation, modification and evaluation, their role in the definition and revision of the program educational objectives and student outcomes, and their role in the attainment of the student outcomes, their guidance of the program, and in the development and implementation of the processes for the evaluation, assessment, and continuing improvement of the program. Describe the roles of others on campus, e.g., dean or provost, with respect to these areas. Show samples of Roles/ Responsibilities or equivalent form acknowledged or signed by the faculty.

As written in the Faculty Manual, the **GENERAL DESCRIPTION OF THE DUTIES AND RESPONSIBILITIES OF THE FACULTY** are: ([Attachment C4-01 – Faculty Manual](#))

“The faculty members of the Polytechnic University of the Philippines are expected to primarily fulfill their classroom teaching duties. However, apart from teaching, faculty members are also expected to produce, present, and publish relevant research aligned with international, national, and local thrusts and priorities(Executive Order No. 14 series of 2024). The research carried out by the faculty may be internally and externally funded and may be produced in collaboration with other faculty members, students, and external stakeholders.

The faculty are also expected to engage in extension and community outreach projects such as technology verification, packaging, managing/facilitating non-formal/non-degree training, consultancy and speakership in training/seminars/symposia/convocations, community development activities, people empowerment/capability building, radio programs, and development/publication/dissemination of manuals, brochures, pamphlets, leaflets, techno-guide, and newsletters. They also include extension activities that are community-based, service-oriented, (without remunerations) voluntary, not part of the faculty’s teaching (i.e. subject/course) load, and/or activities in line with faculty expertise.

On the other hand, production refers to all activities related to the production of goods and services supportive of the programs of the University/College/Institute through the personal initiative of the faculty. They may include scientific/professional book writing, food processing, tissue culture, and other agribusiness-related projects; socio-cultural/entertainment projects: and other production-related activities duly sanctioned and approved by the College/University/Institute.

Faculty members of the University may also be designated into administrative positions on top of their four-fold functions.”

Among the specific duties and responsibilities of the faculty member that directly affects the Civil Engineering Program are as follows:

- a. enhance his knowledge by keeping up to date with the latest developments in his area of specialization, by pursuing graduate studies, and by joining professional organizations;
- b. help update learning materials available to students by coordinating with the University Librarian in the acquisition of reference books, magazines, and other materials needed for the course taught;

- c. continuously improve his teaching skills and capabilities and assist his fellow teachers in doing the same in an environment of collegial collaboration;
- d. participate in meetings called from time to time to discuss academic programs and policies of his department, particularly those on updating of curriculum and course syllabi and undertaking research projects, and participate in seminars, workshops, conferences, conventions, symposia, etc.

For effective administration of academic and administrative matters in the Civil engineering department, among the duties and responsibilities of a chairperson are:

- a. aligning the programs and activities of the department with the college's objective, policies, and programs;
- b. initiating and implementing programs at the department level on the development of instructional capabilities of faculty members;
- c. fostering academic inquiry and research in the subject areas under his department among students and faculty members;
- d. regular review and updating educational programs and course syllabi, regular intellectual dialogue with and among faculty members and students and provide effective linkages between the department and with professional associations and with industry.

Faculty as Class Adviser

In the Department of Civil Engineering (CE), full-time faculty members play a vital role in shaping the academic journey of students, serving not only as instructors but also as mentors and guides. Each faculty member is assigned to a specific section of students as their Class Adviser, providing a supportive and structured environment for students to seek guidance on their academic challenges and concerns.

The role of the Class Adviser extends beyond the classroom. Faculty members are expected to meet with their assigned students regularly, offering consultations on various academic matters, from course selections to handling academic difficulties. These one-on-one meetings allow students to voice their concerns, whether their coursework, exam preparations, or personal challenges affecting their academic progress. By having a dedicated Class Adviser, students gain a resource for continuous guidance, ensuring they don't face academic hurdles alone.

At the end of each semester, the Advisers Consultation form is used as a formal record of the advisory process. This form tracks the students' progress, documenting the topics discussed, the concerns raised, and the advice given. Each student's form must be signed by their faculty adviser, ensuring that the consultation process is complete and that the adviser has actively engaged with the student. This serves as a method of monitoring student development, ensuring that they are on the right path academically, while also providing valuable feedback for both students and faculty to reflect on ([Attachment C4-21 – Sample Adviser's Form](#)).

In addition to offering academic advice, the Class Adviser is responsible for helping students maintain and update their student portfolios. These portfolios serve as a comprehensive record of a student's accomplishments throughout their academic career. Students are encouraged to include a wide range of work, including their thesis, projects, exam outputs, and other Outcomes-Based Education (OBE) outputs. The portfolio helps students track their academic progress and development, showcasing their achievements and learning milestones. The Class Adviser plays an integral role in ensuring that each student's portfolio is up to date ([Attachment C4-22 – Sample Portfolio](#)).

Table 4.21 List of Faculty Members and Sections Assigned as Class Adviser

Figure 9. SO of Faculty Adviser

Faculty as Thesis Adviser and Review Panel

In the Civil Engineering Department, faculty members serve a critical role as Thesis Advisers, guiding students through one of the most significant milestones of their academic journey. As Thesis Advisers, they help students define research topics, develop methodologies, and navigate the challenges of conducting original research. Through regular consultations and feedback, advisers ensure that students adhere to academic standards, meet project deadlines, and refine their findings.

The Thesis Adviser's role is integral to achieving student outcomes by fostering critical thinking, problem-solving, and research skills. Advisers guide students in applying theoretical knowledge to real-world problems, promoting a deeper understanding of engineering principles. By helping students integrate Outcomes-Based Education (OBE) into their projects, advisers ensure that students develop not only technical expertise but also skills in communication, teamwork, and ethical decision-making. In this way, the Thesis Adviser contributes to the holistic development of students, preparing them for successful careers in the Civil Engineering field ([Attachment C4-23 – Sample Approval Sheet](#)).

12	Kenneth Bryan Tana Nhel Adrian Bartoline	CE PROJECT 2 (4-6)	2 nd Sem

Faculty as Organization's Adviser

One of the key responsibilities of faculty members in the Civil Engineering Department of Polytechnic University of the Philippines is to serve as advisers to student organizations. This role extends beyond administrative oversight; it is a vital component in shaping students' holistic development and ensuring that academic learning is reinforced through co-curricular engagement.

As organization advisers, faculty members provide guidance, mentorship, and professional direction to student leaders and members. They help ensure that organizational activities align with the university's mission, academic standards, and ethical principles. Through regular consultation, advisers assist students in planning programs, managing resources, and resolving internal challenges. This guidance fosters

a structured environment that enables students to safely explore leadership, collaboration, and innovation.

The advisory role significantly contributes to the attainment of student outcomes, particularly those related to leadership, teamwork, communication, and professional responsibility. By engaging in organization-led projects, such as technical seminars, community outreach, and engineering competitions, students are able to apply theoretical knowledge to real-world contexts. Faculty advisers play a crucial role in bridging this gap by ensuring that activities remain relevant to civil engineering practice and standards.

Moreover, advisers' model professional behavior and ethical decision-making, which are essential outcomes for future engineers. Their mentorship helps students develop accountability, critical thinking, and a sense of civic responsibility. In guiding students through both successes and challenges, advisers cultivate resilience and adaptability—qualities that are indispensable in the engineering profession.

Ultimately, the assignment of faculty members as organization advisers strengthens the academic ecosystem of the Civil Engineering Department. It ensures that student organizations become platforms for experiential learning, thereby enhancing the achievement of desired student outcomes and producing well-rounded, competent, and socially responsible civil engineers. Table 4.22 presents the list of faculty advisers to different student organizations.

Table 4.23 List of Faculty Members assigned as Organization's Adviser (SY 2025-2026)

No.	Name of Organization	Faculty Member/Adviser
1	Philippine Institute of Civil Engineers - PUP Student Chapter	Dr. Florante D. Poso, Jr. Engr. Razon C. Domingo Engr. Kenneth Bryan M. Tana
2	PUP Aggregates	Engr. Ramir M. Cruz
3	American Concrete Institute Philippines - PUP Student Chapter	Engr. Ramir M. Cruz

F. Evaluation Method to Determine Educational Contributions of Faculty Member

Describe the faculty performance evaluation method and how the results are used to improve instruction. Sufficient authority shall be granted based on the evaluation results of the educational contribution of the faculty member.

The faculty member is dedicated to collaborating with their students on their learning and to fostering a learning environment that promotes high academic achievement, moral behavior, and faculty-student interaction. The faculty members share their knowledge by amending the course material and creating rubrics.

Before the start of the academic year, the department conducts its annual planning, which addresses issues with concept mapping to reduce subject duplication, curriculum revision, educational policies on admissions, promotion, retention, student nurturing, research programs, and community extension services.

During this planning phase, faculty members create and adjust the curriculum by setting up prerequisites, idea mapping, subject correlation with student outcomes, and alignment with the Program's educational goals. Faculty members contributed to improving the course's assessment and evaluation methods using the syllabus they were given for their classes.

Every semester, faculty members undergo performance appraisal done by both students, the department's chairperson and the college dean. The areas evaluated include their teaching methodology, use of e-learning tools, and contribution to the department through different committees, research, and extension activities. In terms of teaching methodology, curricular content delivery and classroom management are given prime importance as they directly contribute to the education of the students through teaching and consultation.

Contribution to the department of the faculty members include heading the different committees, developing instructional manuals and laboratory manuals, preparation for accreditation, and attending meetings, seminars/workshop required by the college and the university.

The program chairperson schedules a conference with the respective faculty members to discuss highlights of their performance and identify areas of opportunity. This ensures the continuous professional growth of faculty, enabling them to further develop their strengths and address their weaknesses.

Faculty Evaluation by Students

In line with the Polytechnic University of the Philippines' commitment to continuous quality assurance and instructional excellence, the Civil Engineering Department has undertaken a comprehensive evaluation of faculty teaching performance through the

Instruction and Teaching Effectiveness Evaluation System (ITEES). Covering the past three academic years, this assessment provides valuable insights into faculty effectiveness across core instructional domains including content delivery, classroom engagement, course organization, and assessment practices. Anchored on student feedback, the evaluation results serve as a critical input in shaping faculty development programs, reinforcing accountability, and fostering a culture of reflective teaching—ultimately ensuring that both BSCE program maintain high standards of pedagogy aligned with industry demands and national development goals.

The results of the student evaluations in the Civil Engineering Department reflect consistently high satisfaction across multiple academic years and semesters as shown in Table 4.23. Every semester, students assess their professors as part of the faculty evaluation system, and the feedback provided is essential for maintaining the quality of education.

From the data provided, the average ratings for all semesters are impressively high, all falling within the "Very Satisfactory" category. The first semester of the 2022-2023 academic year received a rating of 74.72, while the second semester of the same academic year had a slightly lower score of 73.83. Both scores still indicated a high level of satisfaction from students. The subsequent academic year, 2023-2024, showed a noticeable improvement. The first semester of this year received a rating of 76.65, and the second semester followed closely with a rating of 74.95, both still within the "Very Satisfactory" interpretation. Looking forward to the 2024-2025 academic years, students continued to rate their professors highly. The first semester of 2024-2025 had a score of 76.35, while the second semester saw a further increase to 77.72, suggesting that students' satisfaction with faculty members had slightly improved. This trend shows that the Civil Engineering Department's professors are consistently well-regarded by their students. The evaluations are an important tool for understanding how students perceive their professors' teaching effectiveness and overall engagement. The "Very Satisfactory" ratings across all semesters indicate a solid and consistent level of quality in teaching within the department, contributing to a positive learning environment.

Table 4.23 Three-Year Student Evaluation Result (2022-2025)

STUDENTS EVALUATION TO FACULTY MEMBERS FOR THE PAST THREE YEARS			
ACADEMIC YEAR	SEMESTER	AVERAGE RATING	INTERPRETATION
2022-2023	1ST	74.72	VERY SATISFACTORY
2022-2023	2ND	73.83	VERY SATISFACTORY
2023-2024	1ST	76.65	VERY SATISFACTORY
2023-2024	2ND	74.95	VERY SATISFACTORY
2024-2025	1ST	76.35	VERY SATISFACTORY
2024-2025	2ND	77.72	VERY SATISFACTORY

Between Academic Years 2022 to 2025, faculty under the Civil Engineering program were evaluated using the ITEE instrument. This summary reflects the combined average scores across all categories over the past three years. All categories maintained a “Very Satisfactory” rating, though several areas show room for further improvement, as shown in Table 4.24.

Table 4.24 Summary of Student Evaluation Result (2022-2025)

CATEGORY	THREE-YEAR AVERAGE	INTERPRETATION
Instruction	77.68%	VERY SATISFACTORY – Instructors were consistently rated well in explaining concepts and subject mastery.
Commitment	75.74%	VERY SATISFACTORY – While overall dedication was rated positively, issues with availability and timeliness were noted.
Independent Learning	76.45%	VERY SATISFACTORY – Students appreciated encouragement toward independent learning, though some courses lacked guidance.
Instructional Materials	75.24%	VERY SATISFACTORY – Use of readings, links, and supplementary resources remained effective, albeit inconsistent.
Classroom Climate	77.33%	VERY SATISFACTORY – Learning environments were generally interactive, though isolated concerns about passivity remain.
Course Organization	76.65%	VERY SATISFACTORY – Planning and alignment with course syllabi were often followed but not always consistent.
Assessments	77.15%	VERY SATISFACTORY – Assessment strategies were sound overall, yet some classes still lacked variety or feedback.

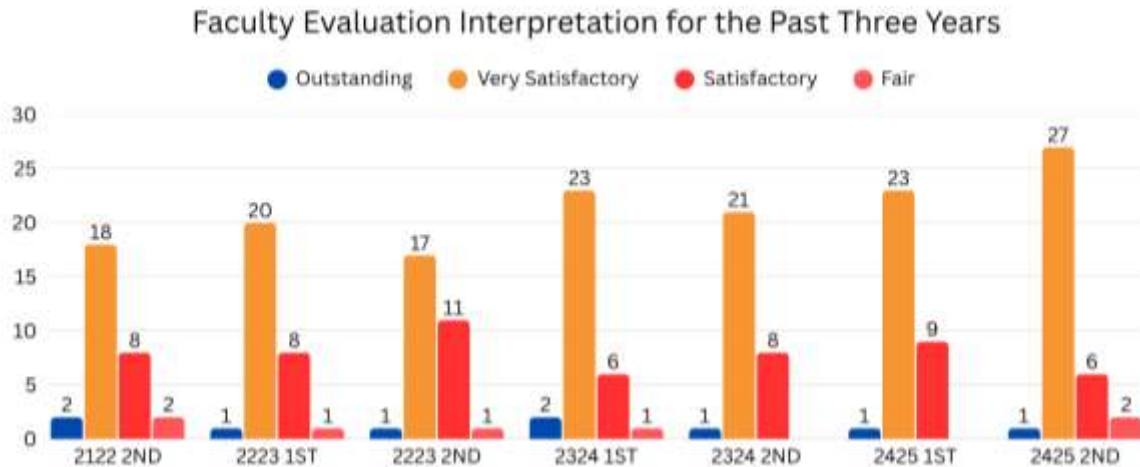

Figure 4.10 Faculty Evaluation Interpretation Graph (2022-2025)

The positive feedback from students in the Civil Engineering Department (2022-2025) highlights a range of qualities that students appreciated in their professors, reflecting a supportive and effective learning environment.

On Clarity and Comprehensiveness, students praised their professors for breaking down complex topics into simple, easy-to-understand concepts. Many students noted how instructors explained lessons with clarity, ensuring everyone could grasp the material. One student even highlighted a professor's motivating and inspiring teaching style, describing it as "very conversational," which helped them understand the topics better.

On Engaging, Interactive Delivery, a significant number of students commended the instructors for their engaging and interactive delivery methods. Many highlighted the use of humor, storytelling, and smooth pacing, which made lessons enjoyable and easier to follow. Students particularly appreciated the lively classroom environment, with one comment praising an instructor for their "excellent teacher with humorous personality" and another appreciating the "undeniably smooth" flow of discussions, making the topics more approachable.

In terms of mentorship, students shared feedback that reflected how their professors went beyond traditional teaching. They felt inspired by the passion and encouragement shown by their instructors. Some students specifically noted that their professors "motivated me for every discussion" and "prepared us for the future." These comments underscored the impact of the faculty members not only on academic growth but also on personal development, helping students feel energized and confident about their future.

On Approachability and Supportiveness, the feedback also reflected the positive relationship students had with their instructors, particularly in terms of approachability and supportiveness. Students appreciated instructors who were always available to answer questions and provide help. Many students felt comfortable seeking assistance, with some professors even offering small rewards to encourage participation. Students commented on how the instructors made them feel at ease, saying, "It's fine to approach them whenever we lack understanding of a topic."

Lastly, the use of real-world examples and practical tools was highly praised. Students expressed how their professors incorporated practical materials—such as bringing actual railway signaling equipment into class—to make the subjects more understandable and relatable. The integration of real-world examples helped bridge the gap between theoretical knowledge and practical application, making learning both informative and engaging.

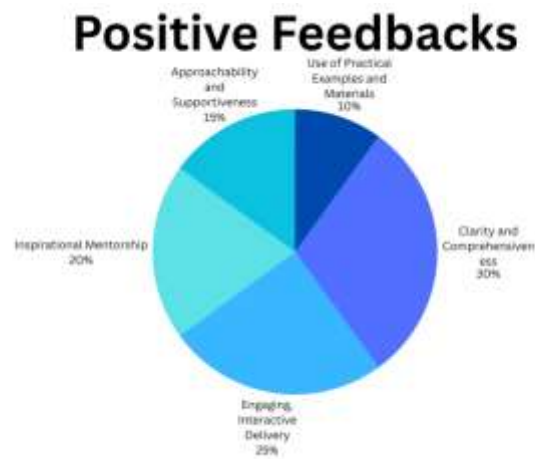

Figure 4.11 Positive Feedback by the Students (2022-2025)

Negative Feedbacks

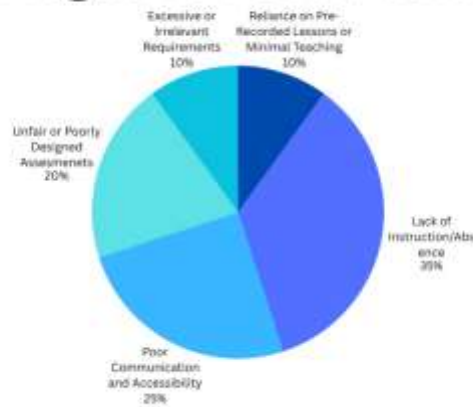

Figure 4.12 Negative Feedback by the Students (2022-2025)

While the overall ITEES evaluation results indicated a "Very Satisfactory" performance across categories, several key areas consistently received lower average scores or negative feedback from students. Addressing these gaps significantly improves teaching effectiveness and student learning outcomes.

Faculty Evaluation by the Chairperson and Dean

To ensure a comprehensive and balanced evaluation of the faculty members' performance, the evaluation process in the Civil Engineering Department goes beyond just student feedback. Both the program chairperson and the dean of the college play a critical role in assessing faculty members by conducting class observations. These observations provide a more in-depth look at the teaching style, classroom management, and overall effectiveness of faculty members in delivering course content ([Attachment C4-24 – Sample Observation Instrument](#)).

The results of these class observations are combined with the feedback gathered from student evaluations, creating a holistic view of each faculty member's performance. This collaborative approach allows for a fair and thorough assessment, taking into account not only the students' perspective but also the professional insights of the program chairperson and dean ([Attachment C4-25 – Sample Evaluation Report](#)).

Once the evaluation results are compiled, the program chairperson schedules one-on-one meetings with each faculty member. These meetings serve as a platform for discussing both the positive aspects of the evaluations as well as areas for improvement. The goal is to provide constructive feedback, recognize achievements, and address any

challenges the faculty member may face in their teaching. This open dialogue ensures that faculty members understand their strengths and areas for development.

During the meeting, the faculty member is asked to sign the Individual Performance Monitoring Form (IPMF) and the Coaching and Monitoring Form. These forms serve as official documentation of the discussion, outlining specific goals and strategies for improvement. The forms also track the faculty member's professional development, ensuring that progress is made based on the feedback provided. ([Attachment C4-26. Sample IPMF](#)) ([Attachment C4-27 - Sample Coaching and Monitoring Form](#))

This process not only fosters an environment of continuous improvement but also strengthens the relationship between faculty members, the program chairperson, and the dean. It ensures that every faculty member receives personalized support, and it helps maintain a high standard of teaching quality within the department. Ultimately, this rigorous evaluation system helps create a culture of excellence and accountability, benefiting both faculty members and students alike.

G. Support Staff

Describe the adequacy of the support staff. Include a description of the workload and a description of staff development. Provide the personnel development plan for each support group for the previous and current years. Provide sample of results of the completed training. Describe how the specific training program supports the relevant student outcome(s).

The Polytechnic University of the Philippines (PUP) provides an adequate and functional network of academic and administrative support offices that sustains the effective delivery of the BS Civil Engineering program. These offices do not merely perform routine administrative functions; rather, they form an essential support system that enables the program to attain its educational objectives, ensure student welfare, strengthen instruction, and promote efficient delivery of services. Consistent with the University's mission of advancing inclusive, equitable, and globally relevant polytechnic education, these support offices contribute to the development of competent, disciplined, service-oriented, and industry-ready civil engineering graduates.

Foremost among these are the University's administrative service offices, particularly those responsible for finance, human resources, facilities, general services, information systems, health services, and safety.

The **Finance Office**, through its budget, accounting, and cash management functions, supports the BSCE program by facilitating the release, monitoring, and utilization of funds for instructional operations, laboratory requirements, maintenance needs, and other academic activities. Through sound financial processing and budget support, the office helps ensure that the program has the resources needed to implement its curricular and co-curricular plans. In this way, financial services directly contribute to the attainment of program objectives by enabling the provision of facilities, equipment, learning resources, and student support interventions necessary for quality engineering education.

The **Human Resource Management Department** likewise plays a critical role by supporting faculty and staff recruitment, appointment, and personnel administration, thereby helping the program maintain the teaching and non-teaching workforce required for instruction, laboratory supervision, and program operations. Adequate staffing is vital to the achievement of BSCE objectives because the program depends on qualified faculty members and supports personnel to deliver outcomes-based instruction, mentoring, and assessment.

The offices responsible for physical facilities and campus operations are equally important to the delivery of the BSCE program. The **Facilities Management Office** (FaMO) and the **General Services Office** help maintain classrooms, laboratories, offices, buildings, utilities, and the overall campus environment. Their work ensures that the physical learning spaces used by BSCE students remain safe, functional, and conducive to learning. For a program such as Civil Engineering, which requires suitable classrooms, laboratory spaces, and reliable physical infrastructure, the maintenance of facilities is indispensable. These offices support the attainment of program objectives by helping provide a learning environment in which students effectively engage in lectures, laboratory work, design activities, and other experiential learning tasks.

The University's information systems and information and communications technology support units also make a substantial contribution to program delivery. PUP maintains online systems and learning platforms such as the PUP Learning Management System, eMabini Learning Portal, PUP iApply, PUP SINTA, and the Student Information System-related services made available through its website and digital support environment. These systems facilitate online instruction, academic communication, admissions processing, student support, and access to academic information. For the BSCE program, these services strengthen instructional continuity, improve access to

learning materials, and support efficient coordination among faculty members, students, and administrators. As a result, the program is better able to implement flexible and technology-enabled teaching-learning processes that are aligned with current higher education demands.

Student welfare and development are reinforced by the **Office of Student Services** (OSS), which PUP identifies as the office concerned with the non-academic experiences of students and the delivery of student welfare and development programs. The OSS provides services related to information and orientation, student handbook development, leadership training, student organizations and activities, student discipline, student publications, cultural programs, and social and community involvement. These functions are highly relevant to the BSCE program because they contribute to the holistic formation of students beyond the classroom. Civil engineering education is not limited to technical competence alone; it also requires leadership, teamwork, ethical conduct, social responsibility, and the ability to work productively with diverse groups. Through student development programs and support services, the OSS helps cultivate these attributes, thereby supporting the BSCE program in achieving its broader educational outcomes and forming graduates who are responsive to professional and societal needs.

The **Guidance, Counseling and Testing Services** also play a significant role in student success. PUP's guidance services provide counseling, testing, and orientation programs that help students assess their interests, abilities, and aptitudes and adjust to the demands of university life. These services are particularly important in a rigorous and highly technical program such as BSCE, where students are expected to cope with demanding academic requirements, laboratory work, and professional expectations. By supporting students' personal, academic, and psychosocial well-being, the guidance office helps improve student adjustment, persistence, motivation, and readiness to complete the program. In effect, it contributes to student retention and to the successful attainment of program objectives by helping learners remain focused, resilient, and adequately supported throughout their academic journey.

The **Office of the University Registrar** (OUR) is another essential partner in program implementation. PUP states that the OUR is the official custodian of student records and is responsible for implementing policies and procedures on admission, registration, transfer, dismissal, graduation, and promotion of students. It also includes units for Admission and Registration Services and for records management. For the BSCE program, the registrar ensures the orderly processing of student records, enrolment data,

grades, certifications, and graduation requirements. This enables the department to monitor academic progress accurately, verify student standing, and uphold the integrity of academic records. In this respect, the registrar's office supports the attainment of program objectives by ensuring proper academic documentation, compliance with institutional requirements, and timely student progression from admission to graduation.

Closely linked to this is the Admission Services function of the University. PUP's admissions systems, including PUP iApply and the Admission and Registration Services Section under the OUR, support the efficient screening, processing, and entry of qualified students into the University. For the BSCE program, admissions support is crucial because program quality begins with the admission of students who meet institutional and program requirements. Through organized admissions processes, the University helps the program attract and admits learners who have the potential to succeed in a demanding engineering curriculum. Effective admissions support therefore, strengthens the program's capacity to achieve its objectives by ensuring a qualified student intake and a systematic transition of students into the BSCE program.

The **Office of Scholarship and Financial Assistance (OSFA)**, referred to in PUP service documents as a unit under student services, is likewise important in promoting access, equity, and student persistence. The University's scholarship and financial assistance services provide information and support for qualified and deserving students in need of financial aid. For BSCE students, many of whom may face economic constraints while pursuing a resource-intensive engineering education, scholarships and other financial assistance to reduce barriers to continuation and completion. By helping students remain enrolled and academically engaged, OSFA supports the program's objectives related to access, retention, and the graduation of capable future civil engineers from diverse socioeconomic backgrounds.

Health and wellness services further strengthen the University's support environment. PUP maintains medical and dental health services for students and personnel, and the University also highlights student mental health interventions and referral pathways through its counseling and clinic services. These offices support the BSCE program by safeguarding the health, fitness, and well-being of students, faculty, and staff. In a program that involves intensive academic work and, in some cases, laboratory and field-related activities, access to health services is indispensable. These services help minimize disruptions to learning, promote wellness, and support the

sustained participation of students in their studies, thereby contributing to the successful pursuit of program outcomes.

The University's disaster risk reduction, safety, and related campus support mechanisms also contribute to the effective delivery of the BSCE program. PUP's sustainability and campus development initiatives emphasize disaster-resilient planning, safe infrastructure, and environmental responsibility. These institutional efforts reinforce campus preparedness and safety, which are especially relevant to civil engineering education because they model the values of safety consciousness, resilience, and responsible planning expected of future engineers. Support offices concerned with safety and disaster preparedness help provide a secure academic environment and ensure continuity of operations during emergencies. In doing so, they help the BSCE program pursue its objectives under conditions that protect both people and learning resources.

Finally, the Alumni Relations and Career Development Office (ARCDO) make an important contribution to the long-term effectiveness of the BSCE program. PUP states that ARCDO provides career development and placement assistance, job opportunity postings, student and alumni referrals, and linkages with industry partners. These services are directly relevant to Civil Engineering because they help students prepare for internships, employment, and professional practice. ARCDO strengthens the program's connection with industry and supports the transition of graduates from academic preparation to actual engineering careers. This contributes to the attainment of BSCE program objectives by enhancing employability, promoting career readiness, and helping ensure that graduates apply their competencies effectively in professional settings.

Overall, the University's support offices function as an integrated system that underpins the effective delivery of the BS Civil Engineering program. Through financial support, personnel services, facilities maintenance, digital infrastructure, student welfare programs, counseling, admissions and records management, financial assistance, health services, safety mechanisms, and career development initiatives, these offices make a substantive contribution to the achievement of the program's objectives. Their coordinated services help ensure that BSCE students are admitted properly, supported adequately, taught effectively, guided holistically, and prepared for professional practice. Thus, the support office structure of PUP is not only adequate in number and scope, but also demonstrably relevant to the quality assurance and continuous improvement of the BSCE program.

Table 4.25.1 Number of Support Staff

Office	Number of Support Staff
Accounting Department	7
Budget Services Office	3
Resource Generation Office	3

College of Engineering

The College of Engineering's Dean's Office, which provides essential administrative, coordination, and records-management services necessary for the effective implementation of the College's academic programs and institutional activities. The office is headed by Dr. Remedios G. Ado, serving as the Dean who provides leadership and oversight in academic administration, faculty and student affairs, resource management, quality assurance, and the implementation of University policies and procedures within the College. Assisting the Dean are two administrative support personnel: Mrs. Angelita T. Gallano, Administrative Aide III, and Ms. Jenifer O. Suaverdez, Administrative Aide III. They report directly to the Dean, thereby facilitating a clear communication and coordination structure and enabling the timely resolution of administrative concerns involving faculty members, students, academic departments, and other University offices.

The Dean's Office contributes to the effective delivery of the Civil Engineering program by coordinating academic and administrative requirements, facilitating the routing

and processing of official documents, maintaining records, organizing meetings and College activities, and communicating relevant policies, directives, and announcements to concerned stakeholders. Through these functions, the Dean's Office helps ensure that the academic departments receive timely administrative support and that program-related concerns are appropriately endorsed, documented, and acted upon.

Leading the office is Dr. Remedios G. Ado, Dean of the College of Engineering. As the head of the College, she provides strategic direction and ensures that the academic programs operate in accordance with University's policies, applicable regulatory requirements, and established quality assurance standards. Her responsibilities include supervising the academic departments, coordinating with program chairpersons and faculty members, overseeing the allocation and use of institutional resources, monitoring the implementation of academic activities, and representing the College in University-level meetings and external engagements. She also supports accreditation and continuous quality improvement initiatives by ensuring that program performance, resources, faculty concerns, student services, and improvement actions are regularly reviewed and properly addressed.

Supporting the Dean is Mrs. Angelita T. Gallano, Administrative Aide III, who performs key administrative and clerical functions within the office. Her responsibilities include receiving, recording, routing, and releasing official communications and documents; maintaining organized physical and electronic records; assisting in the preparation of memoranda, certifications, reports, and endorsements; coordinating schedules and meetings; and responding to inquiries from faculty members, students, visitors, and other offices. She also assists in monitoring pending documents and administrative requests to ensure that these are processed accurately and within the prescribed period.

Ms. Jenifer O. Suaverdez, Administrative Aide III, provides additional administrative and operational support to the Dean's Office. Her functions include assisting in document handling and records management, facilitating the transmission of communications to academic departments and University offices, supporting the preparation and arrangement of meetings and College activities, and assisting with logistical, supply, and office-related requirements. She also helps maintain the orderly operation of the office by ensuring that documents, equipment, supplies, and other administrative resources are properly organized and readily available when needed.

The administrative personnel of the Dean's Office contribute to the quality and continuity of academic services by maintaining accurate records, observing confidentiality and document-control procedures, facilitating effective communication, and providing timely assistance to the College's internal and external stakeholders. Their work supports the implementation of academic policies, faculty and student services, institutional reporting, accreditation activities, and continuous quality improvement processes. Through the coordinated leadership of the Dean and the sustained administrative support of the office personnel, the College of Engineering is able to maintain an organized, responsive, and dependable administrative environment that supports the achievement of its academic and program objectives. Relevant qualifications, functions, and professional records of the personnel are documented in the corresponding curriculum vitae, personnel records, and training certificates of the Dean's Office staff.

Table 4.25.2 Dean's Office Staff Qualifications

Name of Support Staff	Highest Degree Earned-Field	Position	Area of Responsibility	Years of Experience	
				Gov't/Industry Practice (Yrs)	This Institution (Yrs)

Angelita T. Gallano	Undergraduate – 2 nd Year	Emergency Administrative Aide III	Dean's Office	9	35

Civil Engineering Department Support Staff

The Civil Engineering (CE) Department has one dedicated laboratory head and two (2) laboratory technicians who provide critical support in ensuring the smooth operation of laboratory sessions and in maintaining the quality, safety, and reliability of hands-on learning experiences for students. The laboratory technicians report directly to the Laboratory Head and Program Chairperson, which enables a streamlined communication channel and ensures the prompt resolution of laboratory needs, equipment concerns, and scheduling or resource issues. Beyond operational support, the laboratory coordinator and technicians contribute directly to the attainment of PTC-aligned student outcomes by preparing and calibrating equipment, setting up standardized experiment procedures, enforcing laboratory safety protocols, and assisting faculty in the

consistent implementation of laboratory activities and performance assessments. Their support ensures the effective conduct of measurements, the generation and interpretation of data, and the validation of engineering concepts through experimentation, thereby strengthening outcomes related to problem analysis, experimentation and investigation, and the appropriate use of modern engineering tools and techniques. In addition, by maintaining organized laboratory records, inventory controls, equipment maintenance logs, and quality checks, the support staff help sustain dependable laboratory conditions that reinforce professional responsibility, safety consciousness, teamwork, and effective communication through correct documentation and reporting of laboratory results. Through these sustained technical and administrative functions, the support staff help ensure that laboratory instruction remains outcomes-driven and that students repeatedly practice and demonstrate the competencies required to achieve the program's student outcomes ([Attachment C4-28 – CVs of Support Staff](#)).

The Civil Engineering Department is supported by a dedicated team of laboratory personnel who ensure effective operation, maintenance, and supervision of laboratory activities. This team is composed of a Laboratory Coordinator/Head and two Laboratory Technicians, each contributing to the smooth delivery of laboratory instruction and services.

Leading the team is Engr. Ruffa S. Roxas, who serves as the Laboratory Coordinator and Head. She holds a Master of Science in Civil Engineering (MSCE), reflecting on her advanced academic preparation and expertise in the field. With 12 years of experience in government and industry practice and 6 years of service within the institution, she brings a wealth of professional knowledge and leadership to the laboratories. Her role involves overseeing laboratory operations, ensuring compliance with safety and academic standards, and guiding both staff and students in laboratory-related activities.

Supporting her are two Laboratory Technicians, Mr. Jade C. Edos and Miss Charmaine P. Calizo, both of whom hold a Bachelor of Science in Civil Engineering (BSCE) degree. They are responsible for assisting in the preparation of laboratory equipment, materials, and experiments, as well as maintaining the cleanliness, safety, and functionality of the laboratory facilities. Although they are relatively new to the profession in terms of industry experience, each has contributed 0.5 years of service to the institution, demonstrating their growing competence and commitment to their roles.

Together, the laboratory staff ensures that Civil Engineering laboratories operate efficiently and effectively, providing students with the necessary hands-on experience to complement their theoretical learning. Their combined qualifications and dedication play a crucial role in supporting the academic and practical training objectives of the department ([Attachment C4-29 – Support Staff Training Certificates](#)).

Laboratory Technicians’ Responsibility

The Laboratory Technician is primarily responsible for ensuring the efficient operation, maintenance, and readiness of the Civil Engineering Laboratories under the Civil Engineering Department of the Polytechnic University of the Philippines. This role requires taking charge of the proper upkeep, organization, and systematic storage of all laboratory equipment to maintain a safe and functional working environment. The technician is also tasked with issuing laboratory equipment for classes, instructional

activities, and other official functions, ensuring that all tools and apparatus are available when needed.

In addition, the Laboratory Technician is expected to supervise and maintain the cleanliness and orderliness of the laboratory rooms and surrounding facilities. This includes regularly checking the condition of existing laboratory facilities, identifying defects or operational problems, and reporting concerns for immediate action. The position also involves conducting inventories of laboratory equipment and preparing all items and facilities for inspection by the Property and Supplies Management Office.

The job further includes administrative and technical support functions such as assisting in the preparation of the Project Procurement Management Plan (PPMP), Preventive Maintenance Plan (PMP), market scoping activities, and monitoring the calibration of laboratory equipment. These duties help ensure that the laboratory remains compliant with institutional standards and capable of supporting academic and research needs.

Overall, the Laboratory Technician plays a vital role in sustaining the daily operations of the Hydraulics Laboratory by combining technical maintenance, inventory management, facility supervision, procurement assistance, and operational support. The employee may also be assigned additional related duties from time to time as deemed necessary by the University. The laboratory technician reports directly to the laboratory head ([Attachment C4-30 – Laboratory Technicians' Job Order/Contract](#)).

Student Assistants' Responsibility

In the Civil Engineering Department, Student Assistants in the laboratories play an essential role in maintaining the smooth operation of lab activities. They work closely with the Laboratory Head and laboratory Technician to ensure that the laboratories are well-equipped, safe, and properly maintained for both students and faculty. These assistants support a variety of tasks, which are crucial to the functionality and effectiveness of the department's laboratory sessions. Their involvement is integral to the efficient preparation, management, and safety of laboratory environments, contributing to an optimal learning experience.

Here are the key responsibilities of Student Assistants in the Civil Engineering laboratories:

1. Assisting with Routine Maintenance: Supports the Laboratory Head and Technician in performing basic maintenance tasks to ensure equipment and lab facilities remain in good working conditions.
2. Organizing Equipment: Helps organize and store equipment in an orderly and accessible manner to ensure quick access and proper usage during experiments.
3. Safety Monitoring: Assists in ensuring that safety protocols are followed during laboratory sessions and equipment usage, helping to maintain a safe working environment.
4. Documentation: Helps with recording maintenance and calibration data under supervision, ensuring that all records are accurate and up to date.
5. Equipment Preparation: Prepares laboratory tools, materials, and instruments before scheduled laboratory classes or experiments, ensuring everything is set up properly for student use.
6. Cleanliness and Housekeeping: Helps maintain cleanliness and orderliness of the laboratory, including proper disposal of waste materials after activities, ensuring a hygienic and organized environment.
7. Inventory Assistance: Assists in checking, counting, and updating laboratory equipment and material inventory under supervision, contributing to accurate stock management.
8. Basic Equipment Inspection: Performs basic visual inspection of equipment and reports any damage, malfunction, or missing parts to the Laboratory Technician for further action.
9. Logbook Management: Assists in monitoring equipment borrowing and returning through proper logbook recording, ensuring that all equipment is accounted for and safely returned.
10. Laboratory Setup and Reset: Helps arrange laboratory workstations before sessions and restores them after use, ensuring that the space is always ready for the next activity.
11. Technical Support: Provides basic assistance to students during laboratory activities under the guidance of the Laboratory Technician or Laboratory Head, supporting the learning process through hands-on assistance.

By performing these tasks, Student Assistants contribute significantly to the functionality of the laboratory, helping ensure that all activities are executed efficiently, safely, and in a well-organized

environment. ([Attachment C4-31 – Special Order 1561, s. 2026, List of appointed Student Assistants](#)) ([Attachment C4-32 – Executive Order no. 29, s 2024 on Guidelines for the Application of Student Assistantship Program](#))

Table 4.27 List the Student Assistants (SA)

<i>No.</i>	<i>NAME</i>	<i>ASSIGNMENT</i>
1	Gabriel Villareal	CE Department
2	Carl Steven Dela Cruz	CE Department
3	Abraham Peña III	CE Laboratory
4	Matthew Louis Morales	CE Laboratory
